

DECLARATION OF (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator for the Investigative and Enforcement Services (IES), Animal and Plant Health Inspection Service (APHIS), United States Department of Agriculture (USDA). My Official Duty Station is located in Oregon. I have held this position since (b)(6), (b)(7)(C)

As an Investigator for IES, my primary duty is to investigate potential violations of federal laws. As part of this process I collect evidence, take affidavits and document my findings in a report of investigation.

On Monday, May 14, 2013, IES Investigator (b)(6), (b)(7) and I traveled to (b) (4) (b) (4) (b) (4) located at (b) (4). We met with (b) (6), (b) (b) (b)(6), (b)(7)(C) Investigator (b)(6), explained to (b)(6), (b) that we were investigating a potential contaminate in wheat seed and needed to ask him several questions.

(b)(6), (b) stated (b) (4) is a (b) (4)

(b) (4) sells WB528 seed and has done so at least for the last three years. (b)(6), (b) said WB528 is a soft white winter wheat developed and patented by Monsanto within the last ten years. He said only growers contracted with Monsanto can grow the WB528 seed. (b) (4) purchases the WB528 seed from (b) (4), Washington and from (b) (4) (b) (4) CHS (Cenex Harvest States).

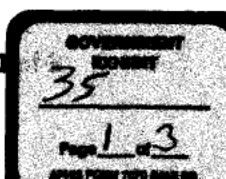

(b) (b) said the wheat variety called Rod is an older variety of seed developed by Washington State University and is also a soft white winter wheat. He said Rod is a public variety of seed and anybody can grow and sell certified Rod seed.

(b) (4) contracts with their own growers to grow Rod seed.

(b) (4) sells winter wheat seed to growers in this area normally between September 1st and November 1st each year.

All the seed sold by (b) (4) is certified in the field by Washington State Crop Improvement Association (WSCIA) located in Pullman, Washington.

(b) (b) stated the certification label would show what the percent pure live seed, percent weed seed and percent inert matter would be in the certified seed. (b) (b) said the certified seed

DECLASSIFICATION AUTHORITY

11. This document is classified "Secret" because it contains information that, if disclosed, could result in the identification of sources of information and the disclosure of the methods and techniques used in the collection and processing of information.

testing questions should be answered by the WSCIA. I learned that WSCIA stands for Washington State Crop Improvement Association.

(b)(6), (b)(7)(C) said he would not know the breeding history of the WB528 or the Rod without doing some (b)(6), (b)(7)(C). He did say a portion of one year's crop may get used as seed for the next year's crop. (b)(7)(C)

(b)(4) stores seeds in bins/elevators before mixing. The seed is blended as it loads onto a truck. Straight seed is stored in the bins. (b)(4) cleans their bins when they change varieties. The bins get swept out between varieties. (b)(4) would not be able to provide information about what seed was put in which bin. (b)(4) occasionally delivers seed but most of the time the grower will pick it up themselves.

(b)(4) sells Rod and WB528 seed with other seed varieties together as well as with other varieties of wheat seed. Depending on where the grower lives, the field conditions and what attributes he wants in his grain crop is the seed variety mixture he will plant.

(b)(6), (b)(7)(C) indicated that he was uncomfortable in continuing our interview and request for documentation. He wanted to contact (b)(4) attorney and ask for advice. We thanked him for his time and left the premise.

He called later that afternoon and replied that their attorney said not to provide any documents to IES without a court order and to cite confidential business information as the reason.

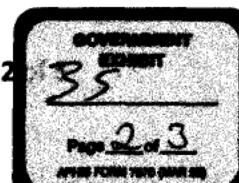

On May 23, 2013, Investigator (b)(6), (b)(7)(C) and I served (b)(6), (b)(7)(C) with a Subpoena Duces Tecum requiring (b)(4) to produce and relinquish documents and seeds pertaining to the acquisition and sales of WB-528, Rod and Coda Club wheat from 2009 to the present.

On May 28, 2013, Investigator (b)(6), (b)(7)(C) and I met with (b)(6), (b)(7)(C) and two other (b)(4) employees to answer questions and concerns they had regarding the Subpoena Duces Tecum.

On May 28 & 29, 2013, Investigator (b)(6), (b)(7)(C) and I made copies of the documents required by (b)(4) to produce via the Subpoena Duces Tecum.

On May 30, 2013, I acquired eleven seed samples from (b)(6), (b)(7)(C) and shipped them to the GIPSA lab in Kansas City for glyphosate resistant testing via UPS tracking number 1Z072R3Y2491398350.

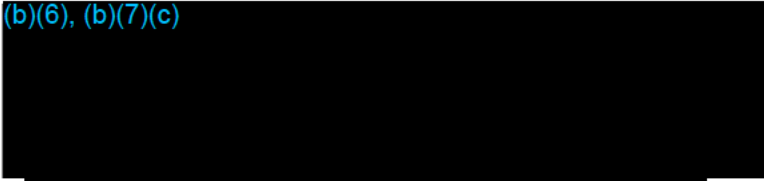

On June 3, 2013, Investigator (b)(6), (b)(7)(C) and I met with (b)(6), (b)(7)(C) regarding his concerns on the status of the investigation and the subpoena requirements. We also discussed obtaining a harvested grain sample from the affected field in 2012. (b)(6), (b)(7)(C) was a little difficult and did not want to cooperate with us. He asked for additional information before he would provide the sample. However after some negotiation Investigator (b)(6), (b)(7)(C) obtained the requested sample of (b)(7)(C)

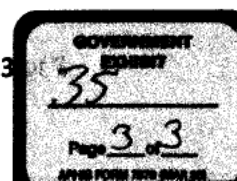

grain on June 6, 2013. That same day I sent this sample to the GIPSA lab in Kansas City for glyphosate resistant testing via UPS tracking number 1Z072R3Y0196166152.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and that this declaration was executed on June 10, 2013.

(b) (4), (b) (6), (b) (7)(C)

Telephone: (b) (4), (b) (6), (b) (7)(C)

You are hereby required to produce and relinquish the physical samples of wheat seed and grain, and the copies of the documents and records, identified below to Investigator (b) (7)(C), (b) (6), Investigator (b)(6), (b)(7), or any other designated Investigator, with the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES), Western Regional Office, 2150 Centre Avenue, Building B, (b)(6), (b)(7)(C) Fort Collins, Colorado, 80526-8117, within 5 days after receipt of this subpoena:

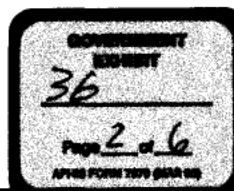

1. All records and documents pertaining or related to the acquisition by (b) (4) from January 1, 2009, to the present, of all wheat seed known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including, but not limited to,

all records and documents pertaining or related to the acquisition of WB-528, Rod, and/or Club seed (order forms, invoices, email communications, computer printouts); and

all records and documents pertaining or related to the lineage and propagation of WB-528, Rod, and/or Club seed acquired, the original origin of the seed, the source from which (b) (4) acquired the seed, the quantity and variety of seed acquired from each source, the certification status of the seed source at the time of acquisition, as well as all certification records and test results for the seed that (b) (4) acquired from each source.

2. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of seed (the WB-528, the Rod, and the Club seed) acquired by (b) (4) from January 1, 2009, to the present, from each source, even if such seed types happen to be mixed together or mixed with other seed types, and each (5kg) sample must be taken from the smallest lot form in which it was acquired from each source.

OR120018_BR_001279

3. All records and documents pertaining or related to the planting by (b) (4) from January 1, 2009, to the present, of all wheat seed known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including, but not limited to,

all records and documents pertaining or related to (b) (4) status as a certified seed producer, the certification status and test results for the seed planted, the certification records and test results for the seed that (b) (4) acquired from each different source for planting; and

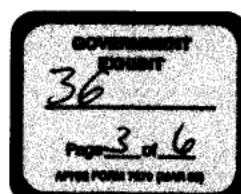

all records and documents pertaining or related to the plot location and identification, the quantity, treatment, and operating procedures regarding the planting and growing of the seed types or any other actions or activities associated with the planting and growing.

4. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of seed (the WB-528, the Rod, and the Club seed) planted by (b) (4) from January 1, 2009, to the present, even if such seed types happen to be mixed together or mixed with other seed types, and each (5kg) sample must be taken from the smallest lot planted by (b) (4)
5. All records and documents pertaining or related to the harvesting by (b) (4) from January 1, 2009, to the present, of all wheat seed known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including, but not limited to,

all records and documents pertaining or related to the methods of harvesting seed; the methods of cleaning harvested seed; the locations of cleaning harvested seed; the operating procedures regarding the cleaning of harvested seed; and the certification status of harvested seed; and

all records and documents pertaining or related to the operating procedures regarding harvesting of seeds and the operating procedures regarding use, cleaning, and maintenance of equipment used during harvesting.

6. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of the seed (the WB-528, the Rod, and the Club seed) harvested by (b) (4) from January 1, 2009, to the present, even if such seed types happen to be mixed together or mixed with other seed types, and (5kg) sample must be taken from the smallest lot harvested by (b) (4)
7. All records and documents pertaining or related to the storing and/or packaging by (b) (4) from January 1, 2009, to the present, of all wheat seed known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including, but not limited to,

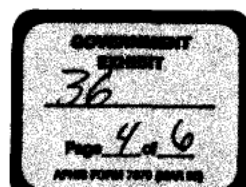

all records and documents pertaining or related to the manner and location in which the seed is stored and prepared for packaging, whether the seed types are segregated or mixed; and

all records and documents pertaining or related to the methods of cleaning and operating procedures for cleaning seed storage containers and silos; and

all records and documents pertaining or related to the packaging procedures, segregated or mixed status of seeds, the methods of combining seeds for storage, and the methods of combining seeds to fill bulk orders.

8. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of **seed** (the WB-528, the Rod, and the Club seed) stored or packaged by (b) (4) from January 1, 2009, to the present, even if such seed types happen to be mixed together or mixed with other seed types, and each (5kg) sample must be taken from the smallest lot stored or packaged by (b) (4)
9. All records and documents pertaining or related to the sales by (b) (4) from January 1, 2009, to the present, of all wheat **seed** known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including, but not limited to all invoices, purchase orders, sales orders, or any other records pertaining or related to selling, billing, and/or receipt of payments.
10. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of **seed** (the WB-528, the Rod, and the Club seed) sold by (b) (4) from January 1, 2009, to the present, even if such seed types happen to be mixed together or mixed with other seed types, and each (5kg) samples must be taken from the smallest lot sold by (b) (4)
11. All records and documents pertaining or related to the purchase, acquisition, and/or sale by (b) (4) from January 1, 2009, to the present, of all wheat **grain** (which is **not** being sold for seed or propagation) that is produced from any of the three types of wheat seed known as WB-528, Rod, and/or Club seed, even if the three respective seed types happen to be mixed together or mixed with other seed types, including but not limited to, all documents and records pertaining or related to (b) (4) purchase, acquisition, sale, processing, handling, testing of, shipping, and/or disposition of all wheat grain.
12. The production to APHIS of one five-kilogram (5kg) physical sample of each lot of wheat **grain** (which is **not** being sold for seed or propagation) that is produced from any each of the three types of **seed** (the WB-528, the Rod, and the Club seed) purchased, acquired, and/or sold by (b) (4) from January 1, 2009, to the present, even if such seed types happen to be mixed together or mixed with other seed types, and each (5kg) sample must be taken from the smallest lot from each source of wheat grain acquired by (b) (4) and the smallest lot of grain sold by (b) (4) to other entities.

These records, documents, and physical samples constitute or contain evidence and, therefore, are essential to an important ongoing USDA investigation concerning possible violations of the

Plant Protection Act (7 U.S.C. §§ 7701 *et seq.*) and the regulations issued thereunder (7 C.F.R. §§ 300.1 *et seq.*).

This subpoena is issued pursuant to section 423 of the Plant Protection Act (7 U.S.C. § 7733), and Section 1.29 of the Administrative Regulations of the United States Department of Agriculture (7 C.F.R. § 1.29).

As used above, the terms “documents” and “records” include all the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage (such as hard disks or other media that can store data), any handmade form (such as writing or drawing), any mechanical form (such as printing or typing), and any photographic form (such as prints or photocopies).

As used above, the term “physical sample” means a selection of wheat seed or grain that fairly and accurately represents and reflects the overall composition of the wheat seed or grain variety (or mix) sampled, and that is affixed with any and all unique identification marks or characteristics identified on or associated with the variety or mix sampled.

Declaration of (b)(6), (b)(7)(C) (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(C) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(C), Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 05/30/13, I met with (b)(6), (b)(7)(C) at his residence located (b)(6), (b)(7)(C) home phone number is (b)(6), (b)(7)(C). The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) stated that he had planted a mix of (b)(4) (b)(4) and Rod Tubs winter wheat on land (b)(6), (b)(7)(C). He also stated that he had planted a mix of Rod and Steve's winter wheat on land he owned in (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) (b)(4)

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields. He also stated "Roundup always works".

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consisting of one page. End of Statement (b)(6), (b)(7)(C)

Declaration of (b)(6), (b)(7)(C) (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(C) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 05/30/13, I met with (b)(6), (b)(7)(C), Owner of (b)(6), (b)(7)(C)

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C)

(b)(4) (b)(4)

(b)(4)

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

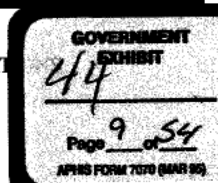

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Declaration of (b)(6), (b)(7)(C) (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C) (b)(6), (b)(7)(C). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(C) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 05/30/13, I met with (b)(6), (b)(7)(C) at his residence located (b)(6), (b)(7)(C) home phone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

When I arrived at (b)(6), (b)(7)(C) facilities, I explained to him that I was with USDA and that I wanted to ask him a few questions regarding his planting of winter wheat. (b)(6), (b)(7)(C) informed me he did not wish to answer my questions and then asked what it was that I was needing. I told (b)(6), (b)(7)(C) that I had been asked to contact him and obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after the fields had been harvested on the land he farmed.

(b)(6), (b)(7)(C) again stated he did not care to answer my questions because USDA asked too many questions that were none of their business. I told (b)(6), (b)(7)(C) understood his reluctance to answer my questions and we discussed his reluctance to participate in my survey. I then thanked (b)(6), (b)(7)(C) for his time and started to leave, at this point (b)(6), (b)(7)(C) told me he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in fields he framed.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consisting of one page.

AUTHORITY NO: 3419

OR120018_BR_001566

Declaration of (b)(6), (b)(7)(b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/31/13, I met with (b)(6), (b)(7)(c) of the (b)(4) office phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not any of the (b)(4) members had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after their fields had been harvested.

(b)(6), (b)(7)(c) stated that (b)(4) purchased seed as a member group and marketed their grain together in an effort to reduce input costs and increase profits for its members.

(b)(6), (b)(7)(c) stated that (b)(4) (b)(4) (b)(4) b winter wheat for their members to plant in 2009, 2010, 2011, and 2012.

(b)(6), (b)(7)(c) stated (b)(4) and had hauled the seed to their facilities, where their members purchased it from the co-op and took delivery of it.

(b)(6), (b)(7)(c) stated the trucks that were used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the members trucks were also thoroughly cleaned prior to picking up seed at (b)(4).

He also stated that the (b)(4) members thoroughly clean their drills after seeding.

(b)(6), (b)(7)(c) stated that nearly all of (b)(4) members seeded these varieties of winter wheat on dry-land farm ground and were using a three year rotation consisting of winter wheat, peas, and spring wheat so they were reseeded their fields shortly after being harvested.

(b)(6), (b)(7)(c) stated (b)(4) members control grasses and volunteer grains in their pea fields using glyphosate products, which they almost all apply by ground sprayer.

(7)() (7)()

(b)(6), (b) also stated that nearly all of the (b)(4) members have the field men from the company that they are purchasing herbicides from come to their fields and determine what sprays and fertilizers they should use.

(b)(6), (b) also stated that he felt sure that if one of these field men had noticed a problem with of the glyphosate product that he had recommended to control volunteer wheat plants not working he would have brought it to the attention of owner.

(b)(6), (b) stated that he had not heard of anyone who had experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields.

(b)(6), (b) also stated that to his knowledge, Monsanto had never had any farm trials of field trials in their area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

APRIS FORM 7070 (MAR 98)

OR120018_BR_001570

Declaration of (b)(6), (b)(7)(b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/01/13, I attempted to locate (b)(6), (b)(7)(c). When I could not locate a physical address for (b)(6), (b)(7)(c) nor locate anyone that could tell me where (b)(6), (b)(7)(c) resided, I phoned (b)(6), (b)(7)(c) at his home phone number (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) was reluctant to speak with me but as we visited about my reason for calling him, I obtained the following information from him.

(b)(6), (b)(7)(c) stated that he had planted (b)(4), (b)(4) on land he owned in 2009, 2010, 2011, and 2012.

(b)(6), (b)(7)(c) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks he owned.

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed.

(b)(6), (b)(7)(c) stated that he seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated he seeded his farm ground in a three crop rotation of winter wheat, spring wheat, and peas one after another.

(b)(6), (b)(7)(c) stated he chem-fallowed his ground in the spring and fall before planting and after harvest with Roundup or Glystar.

(b)(6), (b)(7)(c) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

When I asked (b)(6), (b)(7)(c) from whom he purchased his herbicides, he hung up the phone on me. I called (b)(6), (b)(7)(c) back thinking that we had gotten disconnected, (b)(6), (b)(7)(c) answered the phone and in the background, I could hear (b)(6), (b)(7)(c) telling her to tell me that he was too busy to talk to me.

Subscribed, executed, and affirmed to
On this 1st day of June 2013.

Declaration of (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I thanked (b)(6), (b)(7) for her time and told her I would call back later to see if (b)(6), (b)(7) had time to finish our conversation and ended my (b)(6), (b)(7). I attempted to reach (b)(6), (b)(7) on three separate occasions in the afternoon and evening of 06/01/13, to complete my questioning of him, each time I left him a message asking him to call me when he had time to complete my questions. (b)(6), (b)(7) has not attempted to call me back.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.
This declaration consists of two pages.

APHIS FORM 7070 (MAR 00)

Declaration of (b)(6), (b)(7)(b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/01/13, I met with (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c) home phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated he had never planted any (b)(4), (b)(4) winter wheat on land he owned.

(b)(6), (b)(7)(c) stated he had planted (b)(4) winter wheat on the land he farmed in 2009, and 2010.

(b)(6), (b)(7)(c) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by him.

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed.

(b)(6), (b)(7)(c) stated that he seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated he summer fallowed this ground after harvest by disking it and in the spring by chisel plowing it.

(b)(6), (b)(7)(c) stated he ground sprayed his fields with a blend of (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) stated he purchased his herbicides from (b)(4).

(b)(6), (b)(7)(c) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields nor had he ever heard of anyone else experiencing a failure of a glyphosate product to control volunteer wheat plants in their fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

I declare that my name is (b)(6), (b)(7)(c), (b)(7)(D) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/31/13 and 06/01/13, on several separate occasions I attempted to contact, (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c), each time when my attempts to contact (b)(6), (b)(7)(c) failed I attempted to phone (b)(6), (b)(7)(c) but his answering machine was (b)(6), (b)(7)(c). On 06/01/13, I left a note on (b)(6), (b)(7)(c) door asking him to please call me at his conveyance. On 06/02/13, (b)(6), (b)(7)(c) phoned me and at that time, we discussed the following. (b)(6), (b)(7)(c) home phone number is (b)(6), (b)(7)(c) and his cell phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated had planted (b)(4), (b)(4) winter wheat on land he farmed in 2012. (b)(6), (b)(7)(c) stated that he had not planted any (b)(4) winter wheat on land he farm for many years.

(b)(6), (b)(7)(c) stated he had purchased his seed in bulk from (b)(4) seed and he had hauled the seed to his facilities in trucks owned by him.

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed.

(b)(6), (b)(7)(c) stated that he seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated chem-fallow all of his farm ground.

(b)(6), (b)(7)(c) stated he ground sprayed his fields with (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that he (b)(6), (b)(7)(c) his first spraying around April 15th and his second spraying approximately 45 days later around June 1st using sprayers he owns.

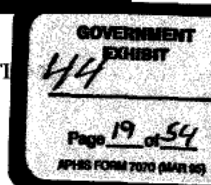

(b)(6), (b)(7)(c) stated he and a neighbor do share a drill and they also help each other farm.

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

I declare that my name is (b)(6), (b)(7)(c), (b)(7)(D) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/31/13, 06/01/13, and 06/03/13, on several separate occasions I attempted to contact, (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c). On two occasions, I spoke to (b)(6), (b)(7)(c) was not at home on these occasions. Each time I spoke with (b)(6), (b)(7)(c), I told her who I was and why I wished to talk to (b)(6), (b)(7)(c) and I then left her my business card and asked her to have her husband call me at his convenience. (b)(6), (b)(7)(c) gave me (b)(6), (b)(7)(c) cell phone number and I left several messages on (b)(6), (b)(7)(c) phone asking him to call me. On 06/03/13, I was able to reach (b)(6), (b)(7)(c) phone and at that time, we discussed the following. (b)(6), (b)(7)(c) home phone (b)(6), (b)(7)(c) number is (b)(6), (b)(7)(c) and his cell phone is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated he had planted (b)(4), (b)(4) winter wheat mixed with triffecta winter wheat on land he farmed in 2009.

(b)(6), (b)(7)(c) stated that he had not planted any (b)(4) winter wheat on land he farm for many years.

(b)(6), (b)(7)(c) stated he had purchased his seed in bulk from (b)(4) and he had hauled the seed to his facilities in trucks owned by him.

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed and when changing varieties of seed or fields.

(b)(6), (b)(7)(c) stated that he seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated he chem-fallow all of his farm ground. He also stated that farmed this ground continuously in a three crop rotation of winter wheat, spring wheat, and peas.

(b)(6), (b)(7)(c) stated he ground sprayed his fields with (b)(6), (b)(7)(c). He also stated that he did have his fields areal sprayed for rust.

Subscribed, executed, and affirmed to
On this 3rd day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(b)(6), (b)(7)(c)
(7)() (7)()

(b)(6), (b)(7) stated that he (b)(6), (b)(7) his first spraying in the fall around November and his second spraying in March using (b)(7)(c) sprayers he owns.

(b)(6), (b)(7) stated he purchased his herbicides from (b)(4)

(b)(6), (b)(7) stated that neither he nor any one he knew had experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields.

(b)(6), (b)(7) also stated he and his neighbors all see each other's fields all the time and a failure of a glyphosate product would be noticed by them very quickly.

(b)(6), (b)(7) then questioned if there could be a possibility that wheat could have developed a resistance to Roundup from years of being sprayed with it as weeds had done?

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consists of two pages.

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

I declare that my name is (b)(6), (b)(7)(c), (b)(7)(D). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/31/13, 06/01/13, and 06/03/13, on several separate occasions I attempted to contact, (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c). On two occasions, I spoke to (b)(6), (b)(7)(c) (b) as not at home on these occasions. Each time I spoke with (b)(6), (b)(7)(c), I told her who I was and why I wished to talk to (b)(6), (b)(7)(c) and I then left her my business card and asked her to have her husband call me at his convenience. (b)(6), (b)(7)(c) gave me (b)(6), (b)(7)(c) cell phone number and I also left several messages on (b)(6), (b)(7)(c) phone asking him to call me. On 06/03/13, I was able to reach (b)(6), (b)(7)(c) by phone and at that time, we discussed the following. (b)(6), (b)(7)(c) home phone (b)(6), (b)(7)(c) number is (b)(6), (b)(7)(c) and his cell phone is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated had planted (b)(4), (b)(4) winter wheat mixed with triffecta winter wheat on land he farmed in 2009.

(b)(6), (b)(7)(c) stated that he had not planted any (b)(4), (b)(4) winter wheat on land he farm for many years.

(b)(6), (b)(7)(c) stated he had purchased his seed in bulk from (b)(4), (b)(4) and he had hauled the seed to his facilities in trucks owned by him.

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed and when changing varieties of seed or fields.

(b)(6), (b)(7)(c) stated that he seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated he chem-fallow all of his farm ground. He also stated that farmed this ground continuously in a three crop rotation of winter wheat, spring wheat, and peas.

(b)(6), (b)(7)(c) stated he ground sprayed his fields with (b)(6), (b)(7)(c). He also stated that he did have his fields areal sprayed for rust.

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/03/13, I attempted to contact (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c) home phone number is (b)(6), (b)(7)(c). When I arrived at (b)(6), (b)(7)(c) residence, I made contact with (b)(6), (b)(7)(c) who told me (b)(6), (b)(7)(c) was out farming. I told (b)(6), (b)(7)(c) who I was and why I was attempting to make contact with (b)(6), (b)(7)(c) then gave me her husband's cell phone number (b)(6), (b)(7)(c) and told me she would also let her husband know I wanted to visit with him. A short time later, I spoke with (b)(6), (b)(7)(c) by phone and at that time, (b)(6), (b)(7)(c) provided me with the following information.

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated that he had planted (b)(4) winter wheat on land owned by (b)(6), (b)(7)(c) in 2009, 2010, 2011, and 2012.

(b)(6), (b)(7)(c) had not planted (b)(4) in the past five years and they had never planted any (b)(4) winter wheat.

(b)(6), (b)(7)(c) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) stated the trucks that (b)(6), (b)(7)(c) used to haul this seed were thoroughly cleaned prior to transporting this seed to his facilities and the drills used to seed this seed were thoroughly cleaned after seeding of this seed, when changing varieties, or when changing fields.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) mainly summer-fallowed this ground and sprayed it with a high rate of Roundup in the early spring and late fall using a ground sprayer. He also stated that (b)(6), (b)(7)(c).

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

I declare that my name is (b)(6), (b)(7)(c), (b)(7)(D) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/31/13, 06/01/13, and 06/03/13, on several separate occasions I attempted to contact (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c). Each time when my attempts to contact (b)(6), (b)(7)(c) failed, I left a note on (b)(6), (b)(7)(c) door asking him to please call me at his conveyance. On 06/03/13, during one of my attempts to contact, (b)(6), (b)(7)(c), I made contact with his partner (b)(6), (b)(7)(c). I informed (b)(6), (b)(7)(c) who I was and why I was looking to make contact with (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) informed me that (b)(6), (b)(7)(c) was away on a fishing trip and then asked if she could help me, as she was the one that applied all the chemicals and went to all the wheat board meetings. At that point I, went over the survey with (b)(6), (b)(7)(c) and she felt confident that she could answer my questions concerning their operation.

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) business name had been changed (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) had planted a mixture of (b)(4), (b)(4) winter wheat on land they leased in (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) had not planted any (b)(6), (b)(7)(c) winter wheat on land they leased for many years.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had purchased their seed in bulk from (b)(4), (b)(4) and had hauled the seed to their facilities in trucks owned by (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) stated the trucks that he used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed and before moving from field to field.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) seeded this winter wheat on dry-land farm ground.

Subscribed, executed, and affirmed to
On this 3rd day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)() (b)(6), (b)(7)()

(b)(6), (b)(7) stated (b)(6), (b)(7) chem-fallow all of their farm ground.

(b)(6), (b)(7) stated they ground sprayed their fields with (b)(4)

(b)(4) (b)(6), (b)(7)(c)

(b)(6), (b)(7) stated that (b)(4) custom applied (b)(6), (b)(7)(c)

herbicides for them since 2009.

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) first spraying is done in March when things green up and then in June after harvest.

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) owns no equipment of their own and they have all there farming custom done for them.

(b)(6), (b)(7) stated that different individuals do the custom work for (b)(6), (b)(7)(c) each year.

(b)(6), (b)(7) stated that neither she or (b)(6), (b)(7)(c) nor any one they knew had experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consists of two pages.

AFHS FORM 2070 (MAR 98)

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/01/13, I met with (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c) home phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

During our meeting, (b)(6), (b)(7)(c) stated that his (b)(6), (b)(7)(c) would be better able to answer my questions because (b)(6), (b)(7)(c) was now doing most of the farming. (b)(6), (b)(7)(c) then provided me with (b)(6), (b)(7)(c) phone number (b)(6), (b)(7)(c).

On 06/01/13, I contacted (b)(6), (b)(7)(c) by phone at (b)(6), (b)(7)(c). At this time I and (b)(6), (b)(7)(c) discussed (b)(6), (b)(7)(c) farming practices and procedures.

On 06/04/13, I again met with (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c) to gather some additional clarification regarding my questions related to (b)(6), (b)(7)(c) farming practices and procedures.

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from them regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had planted a (b)(4), (b)(4) winter wheat mix on land they owned 2012. They also stated this was the first time they had planted (b)(4) more than eight years.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) had not planted any (b)(4) winter wheat on their farms for many years (a least five of more).

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had purchased this seed in bulk from (b)(4) and had hauled the seed to their facilities in trucks owned by (b)(6), (b)(7)(c).

Subscribed, executed, and affirmed to
On this 4th day of June, 2013.

Declaration of (b)(6), (b)(7)(c)
(7)() (7)()

(b)(6), (b)(7)(c) stated that the trucks that (b)(6), (b)(7)(c) used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the drills used to seed this seed were thoroughly cleaned before and after the seeding of this seed and when changing varieties or fields.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) seeded this winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that the only time they have ever had a glyphosate product not work as well as they had expected it to, was when the field they had sprayed had gotten rained on right after they had sprayed it and they expected that they would have to re-spray this field when the rain started.

(b)(6), (b)(7)(c) stated that the volunteer wheat and other weeds in this field looked sick 2-3 days after it had rained the spray off. But not as sick, as they would have expected them to be had it not rained off their spray, so they decided to re-spray this field and after re-spraying this field they noted that all the volunteer wheat and other weeds in this field were completely dead.

NOTE:

(b)(6), (b)(7)(c) contributed some of the poor results of the first spraying of this field to their use of a Chinese manufactured glyphosate product, in which he had seen some crystalizing in the bottom of the containers, which he felt was an indication that the spray could have been old.

(b)(6), (b)(7)(c) stated that the Chinese manufactured glyphosate might have not been as effective as a USA manufactured glyphosate and there had been some crystalizing of the spray in the bottom of the containers of Chinese manufactured glyphosate product. But he felt that 100% of the failure of this glyphosate product to fully kill all the plants it had been applied to was due to it having been rained off very shortly after having been applied.

(b)(6), (b)(7)(c) stated that they had purchased the Chinese manufactured glyphosate product from

(b)(6), (b)(7)(c) stated Chinese manufactured glyphosate products which they had used were

(b)(6), (b)(7)(c) stated they could not get the labels off the containers of these products, but they did locate and provided me with a product use book for (b)(6), (b)(7)(c)

Subscribed, executed, and affirmed to
On this 4th day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) both stated that (b)(6), (b)(7)(c) had never experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields, nor had they ever heard of anyone else experiencing a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consists of two pages.

AFWS FORM 7070 (MAR 95)

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/01/13, 06/03/13, and 06/04/13, I attempted to contact (b)(6), numerous times at their residence located at (b)(6), (b)(7)(c) without success, each time I left a note with my card on their door asking them to please contact me. I also attempted to call the (b)(6), (b)(7)(c) and found that the phone number listed for them had been disconnected. After having no success contacting the (b)(6), (b)(7)(c) I contacted the local Post Office, the surrounding area Post Offices, the Farm Credit Office, the ASCS Office, and the local Sheriff's Office, along with IES Intl in an attempt to locate the (b)(6), (b)(7)(c). On 06/05/13, (b)(6), (b)(7)(c) phoned me asking if I was the person that had been looking for (b)(6), (b)(7)(c). I confirmed that I had been looking for (b)(6), (b)(7)(c), I then told (b)(6), (b)(7)(c) that I would like meet with (b)(6), (b)(7)(c) and obtain some information from them regarding their winter wheat seeding's. During this conversation, (b)(6), (b)(7)(c) agreed to meet with me on 06/06/13, in (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated his current home phone number was (b)(6), (b)(7)(c) and his current cell phone number was (b)(6), (b)(7)(c).

On 06/06/13, I met with (b)(6), (b)(7)(c) at the Holiday Inn Express in (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from them regarding whether or not they had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after their fields had been harvested.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) had planted (b)(4), (b)(4) winter wheat on land they leased in 2010.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) had also planted some (b)(6) winter wheat on land they leased, but he could not remember exactly what years they had done so.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had never planted any (b)(6) variety winter wheat.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had purchased this seed in bulk from (b)(4) and they had hauled this seed to their facilities in trucks owned by them.

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

(b)(6), (b)(7)(c)

DESIGNATED PURSUANT TO 7 U.S.C. 2217 TO

Page 35 of 54

APHIS FORM 7070 (MAR 05)

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

(b)(6), (b)(7) stated the trucks that they used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the drills used to seed this seed were thoroughly cleaned after seeding of this seed, when changing varieties of seed, and or when moving to different fields.

(b)(6), (b)(7) stated that he and his wife seeded these varieties of winter wheat on dry-land farm ground they leased.

(b)(6), (b)(7) stated he and his wife chem-fallowed their ground after harvest in the fall (November / December) with Roundup or RT3 after chiseling the ground and allowing any seed present to germinate and again in the spring before planting as soon as they could get into the fields (February / March) using a ground sprayer they owned.

(b)(6), (b)(7) stated that they mixed Sticker surfactant with the RT3 and sometimes the Roundup if conditions were poor to help the spray stay on the plants when spraying it.

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) purchased their herbicides from (b)(4) and they filled their sprayer tanks at the McGregor plant using city water.

(b)(6), (b)(7) stated he and his wife did hire a custom applicator to aerial spray their fields for rust.

(b)(6), (b)(7) stated that there were small test plots on his farm ground this year and that there had been most years, he stated that he and his wife were pretty progressive and participated in field trials to better their crop production. He also stated there were several other farmers in his area that also had these test plots.

(b)(6), (b)(7) stated that these test plots were very small plots (maybe 25 foot square) and were being run by (b)(4) and they were for rust resistance or increased yield varieties testing.

(b)(6), (b)(7) stated he thought the small amount of grain harvested from these test plots was being taken back to labs for analyzing and testing after harvest.

(b)(6), (b)(7) stated that he and his wife had never experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields nor had they ever heard of anyone else who had experience a failure of the glyphosate product that they had used to control volunteer wheat plants in his fields.

(b)(6), (b)(7) stated that there was no need to mix any other herbicides with Roundup when spraying with it because Roundup when sprayed at a high rate killed everything.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consists of two pages.

End of Statement

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(C), (b)(7)(D)

I declare that my name is (b)(6), (b)(7)(C), (b)(7)(D) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/01/13, 06/03/13, and 06/04/13, I attempted to contact (b)(6), (b)(7)(C) numerous times at their residence located at (b)(6), (b)(7)(C) without success, each time I left a note with my card on their door asking them to please contact me. I also attempted to call the (b)(6), (b)(7)(C) and found that the phone number listed for them had been disconnected. After having no success contacting the (b)(6), (b)(7)(C)s, I contacted the local Post Office, the surrounding area Post Offices, the Farm Credit Office, the ASCS Office, and the local Sheriff's Office, along with IES Intl in an attempt to locate the McCaw's. On 06/05/13, (b)(6), (b)(7)(C) phoned me asking if I was the person that had been looking for (b)(6), (b)(7)(C). I confirmed that I had been looking for (b)(6), (b)(7)(C), I then told (b)(6), (b)(7)(C) that I would like meet with (b)(6), (b)(7)(C) and obtain some information from them regarding their winter wheat seeding's. During this conversation, (b)(6), (b)(7)(C) agreed to meet with me on 06/06/13, in (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) stated his current home phone number was (b)(6), (b)(7)(C) and his current cell phone number was (b)(6), (b)(7)(C).

On 06/06/13, I met with (b)(6), (b)(7)(C) at the Holiday Inn Express in (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from them regarding whether or not they had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after their fields had been harvested.

(b)(6), (b)(7)(C) stated (b)(6), (b)(7)(C) had planted (b)(4), (b)(4) winter wheat on land they leased in 2010.

(b)(6), (b)(7)(C) stated that (b)(6), (b)(7)(C) had also planted some (b)(6), (b)(7)(C) winter wheat on land they leased, but he could not remember exactly what years they had done so.

(b)(6), (b)(7)(C) stated (b)(6), (b)(7)(C) had never planted any (b)(6), (b)(7)(C) winter wheat.

(b)(6), (b)(7)(C) stated (b)(6), (b)(7)(C) had purchased this seed in bulk from (b)(4), (b)(4) and they had hauled this seed to their facilities in trucks owned by them.

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

(b)(6), (b)(7)(C)

Declaration of (b)(6), (b)(7)(c), (b)(7)(D)

(b)(6), (b)(7) stated the trucks that they used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the drills used to seed this seed were thoroughly cleaned after seeding of this seed, when changing varieties of seed, and or when moving to different fields.

(b)(6), (b)(7) stated that (b)(6), (b)(7)(c) seeded these varieties of winter wheat on dry-land farm ground they leased.

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) purchased their herbicides from (b)(4) and they filled their sprayer tanks at the (b)(4) plant using city water.

(b)(6), (b)(7) stated (b)(6), (b)(7)(c) did hire a custom applicator to aerial spray their fields for rust.

(b)(6), (b)(7) stated that there were small test plots on his farm ground this year and that there had been most years, he stated that (b)(6), (b)(7)(c) pretty progressive and participated in field trials to better their crop production. He also stated there were several other farmers in his area that also had these test plots.

(b)(6), (b)(7) stated that these test plots were very small plots (maybe 25 foot square) and were being run by (b)(4)

(b)(6), (b)(7) stated he thought the small amount of grain harvested from these test plots was being taken back to labs for analyzing and testing after harvest.

(b)(6), (b)(7) stated that (b)(6), (b)(7)(c) had never experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields nor had they ever heard of anyone else who had experience a failure of the glyphosate product that they had used to control volunteer wheat plants in his fields.

(b)(6), (b)(7) stated that there was no need to mix any other herbicides with Roundup when spraying with it because Roundup when sprayed at a high rate killed everything.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

End of Statement (b)(6), (b)(7)(c)

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(c), (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c), (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/06/13, I met with (b)(6), (b)(7)(c) at his residence located at (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) home phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not they had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) stated that he had planted a (b)(6), (b)(7)(c) mixture of winter wheat on land (b)(6), (b)(7)(c) owned in 2011 and 2012.

(b)(6), (b)(7)(c) had never planted any (b)(4), (b)(4). (b)(6), (b)(7)(c) had planted (b)(4) winter wheat in 2011.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had also planted (b)(4), (b)(4) varieties of winter wheat in the past.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) also planted (b)(4), (b)(4).

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) had purchased the seed they planted in bulk from (b)(4), (b)(4) and they had hauled this seed to their facilities in trucks owned by (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) stated the trucks that they used to haul this seed were thoroughly cleaned prior to transporting this seed to their facilities and the drills used to seed this seed were thoroughly cleaned after seeding of this seed, when changing varieties of seed, and or when moving to different fields.

(b)(6), (b)(7)(c)

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

Declaration of (b)(6), (b)(7)(c), (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) seeded these varieties of winter wheat on dry-land farm ground that they owned. (b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) had planted 2600 acres of winter wheat in 2012.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) summer fallowed / minimum tilled their ground two to three times a year using a sweep and or chisel plow and they applied fertilizer and E99, Maverick or Sinclair broad leaf herbicide in the fall and spring while summer fallowing and Roundup or RT3 in March using a ground sprayer they owned.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) purchased their herbicides from (b)(6), (b)(7)(c) advised them on the products to use.

(b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) did hire a custom applicator to aerial spray their fields for rust and some of their pasture.

(b)(6), (b)(7)(c) stated that (b)(6), (b)(7)(c) did keep some of the grain that they grew for seed for their owned use.

(b)(6), (b)(7)(c) stated that he did currently have a small test plot on his land in which Monsanto was currently testing the effectiveness of the use of Power Shot to control cheat grass (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that he had never heard of any Monsanto test plots or field trials regarding roundup ready wheat in his area.

(b)(6), (b)(7)(c) stated he (b)(6), (b)(7)(c) had never experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields nor had they ever heard of anyone else who had experience a failure of the glyphosate product that they had used to control volunteer wheat plants in his fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge. (b)(6), (b)(7)(c)

This declaration consists of two pages.

Subscribed, executed, and affirmed to
On this 6th day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(b)(6), (b)

(7)() (7)()

I declare that my name is (b)(6), (b)(7)(b)(6), (b)(7)() I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)() My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)()

On 06/07/13, I met with (b)(6), (b)(7)(c), (b)(4) office located at (b)(6), (b)(7)(c) office phone number is (b)(6), (b)(7)() and his cell phone number is (b)(6), (b)(7)(c) (7)()

The purpose of my contacting (b)(6), (b)(7)() was to obtain information from him regarding whether or not he had experienced and/or had been informed by anyone he had sold seed to of any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after fields had been harvested.

(b)(6), (b)(7)() informed stated he had recently purchased (b)(6), (b)(7)(c), (b)(4)

(b)(6), (b)(7)() confirmed that (b)(4) had purchased (b)(6), (b)(7)() winter wheat from (b)(4) in 2011. (b)(6), (b)(7)() stated that all of this seed was untreated seed, which was not intended for crop production. (b)(6), (b)(7)() stated this seed was purchased for resale as cover crop seed to control erosion. (7)()

(b)(6), (b)(7)() stated that (b)(4) had transported this seed to their facilities in trucks they owned, which had been cleaned prior to transporting this seed.

(b)(6), (b)(7)() stated (b)(4) places this seed in an empty hopper bin, which they had previously been used to store cover crop seed when it arrived at their facilities.

(b)(6), (b)(7)() stated (b)(4) had resold all this (b)(6), (b)(7)() seed to local farmers to be used as a cover crop to prevent wind erosion in their fields and or to keep blowing dust from their fields from reducing visibility along highways or effecting city residence living along the edges of their fields.

(b)(6), (b)(7)() stated that (b)(4) routinely sold triticale seed and or cheap low-grade winter wheat seed to local farmers who then seeded it as a cover crop to prevent wind erosion.

Subscribed, executed, and affirmed to
On this 7th day of June, 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(C), (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) stated (b)(4) purchased this (b)(6), (b)(7)(C) seed from (b)(4) because they had run out of the triticale seed and the cheap winter wheat seed they had obtained to sell local farmers for cover crop use. But they still had some farmers looking for cheap cover crop seed and this was the cheapest seed they could find at the time.

(b)(6), (b)(7)(C) stated that when the hopper bin they had placed this (b)(6), (b)(7)(C) seed in became empty, (b)(4) refilled this bin with triticale and or winter wheat seed, which they then sold for as cover seed.

(b)(6), (b)(7)(C) stated that the farmers around (b)(6), (b)(7)(C) did not plant white wheat as a crop because of the lack of moisture received in the area.

(b)(6), (b)(7)(C) stated the farmers around (b)(6), (b)(7)(C) planted red wheat, potatoes, and onions. He also stated that these farmers used cover crops to control wind erosion between harvest and re-planting and then plowed these cover crops under when planting their crops.

(b)(6), (b)(7)(C) stated that neither he nor any of the farmers he has sold seed to had ever experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields

(b)(6), (b)(7)(C) provided me with records documenting to whom (b)(4) had resold the (b)(6), (b)(7)(C) winter wheat, which they had purchased from (b)(4) 09/22/11. These records document that (b)(4) this seed to six separate individuals or farms.

Enclosures:

- (b)(4), Invoice Number 26546 dated 09/23/11, documenting (b)(4) purchased clean untreated (b)(6), (b)(7)(C) winter wheat seed for (b)(4)
- (b)(4) Invoice, Invoice Number 09662. (b)(6), (b)(7)(C), (b)(4)
- (b)(4) Invoice, Invoice Number 09637. (b)(6), (b)(7)(C), (b)(4)
- (b)(4) Invoice, Invoice Number 09773. (b)(6), (b)(7)(C), (b)(4)
- (b)(4) Invoice, Invoice Number 09779. (b)(6), (b)(7)(C), (b)(4)
- (b)(4) Invoice, Invoice Number 10000. (b)(6), (b)(7)(C), (b)(4)
- (b)(4) Invoice, Invoice Number 10509. (b)(6), (b)(7)(C), (b)(4)

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

I declare that my name is (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(C) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C) My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C)

On 06/11/13, I contacted (b)(6), (b)(7)(C) of (b)(4) located at (b)(6), (b)(7)(C) phone number is (b)(4) and (b)(6), (b)(7)(C) cell phone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(4) / (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not (b)(4) had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat.

(b)(6), (b)(7)(C) stated that (b)(4) had planted (b)(4) winter wheat in the fall of 2011, which they had purchased from (b)(4)

(b)(6), (b)(7)(C) stated (b)(4) had planted this (b)(4) winter wheat seed as a cover crop to reduce wind erosion in a field they had leased to grow potatoes in for the 2001, growing season after the potatoes had been harvested from this field, per their lease agreement with the owner of this land.

(b)(6), (b)(7)(C) stated (b)(4) planted this (b)(4) seed in the fall of 2011, and in the spring of 2012, the landowner plowed the winter wheat under and seeded (b)(6), (b)(7)(C) in this field. (b)(6), (b)(7)(C) stated that no winter wheat came back in this field after being plowed under and seeded to (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) stated he nor (b)(4) or any one he knew, had never experienced a failure of the glyphosate product that they had used to control volunteer wheat plants in their fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

This declaration consists of one page.

Declaration of (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) Borchert, I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/11/13, I contacted (b)(6), (b)(7)(c) / (b)(4), (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c) cell phone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not (b)(4) had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat.

(b)(6), (b)(7)(c) stated (b)(4) had planted (b)(4) winter wheat in 2011, which they had purchased from (b)(4).

(b)(6), (b)(7)(c) stated (b)(4) had planted this winter wheat seed for use as a cover crop in an effort to reduce wind erosion in the rows of their onion fields.

(b)(6), (b)(7)(c) stated (b)(4) planted this seed in their onion fields in the fall of 2011, after harvest and in the spring of 2012, they sprayed this winter wheat with Roundup prior to planting onions in these fields.

(b)(6), (b)(7)(c) stated that this Roundup spray killed all the winter wheat planted in their fields very well and no wheat plants returned after spraying the fields with Roundup.

(b)(6), (b)(7)(c) stated that (b)(4) had never planted any winter wheat on their land as a crop for harvesting. He stated that when (b)(4) planted wheat on their land for harvesting they only planted hard red spring wheat.

(b)(6), (b)(7)(c) stated that neither he nor (b)(4) or anyone they knew had never experienced a failure of the glyphosate product that they had used to control winter wheat plants in their fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Declaration of (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(C) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/12/13, I contacted (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) resides at (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) cell phone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he (b)(4), (b)(7)(C) had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat.

(b)(6), (b)(7)(C) stated that (b)(4), (b)(7)(C) had planted (b)(6), (b)(7)(C) winter wheat in 2012, which he purchased from (b)(4), (b)(7)(C).

(b)(6), (b)(7)(C) stated he had planted this winter wheat seed as a cover crop in an effort to reduce wind erosion in a large area that he cleared off to build a shop / service building and a fenced equipment storage facility.

(b)(6), (b)(7)(C) stated he had planted this seed on this bare area in the fall of 2012, and when doing so he had seeded it very heavily to get a good cover on the ground in order to prevent the soil from blowing during the winter. (b)(6), (b)(7)(C) stated in the spring of 2013, he sprayed this winter wheat and then worked into the ground prior to erecting buildings on the site and laying down rock and gravel on it for driveways and an equipment storage area.

(b)(6), (b)(7)(C) stated that none of this winter wheat came back after he sprayed, worked it, and laid gravel down on it.

(b)(6), (b)(7)(C) stated that he (b)(4), (b)(7)(C) had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants nor had he ever heard of anyone else having a failure of a glyphosate product when attempting to control volunteer wheat plants.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B-(b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 06/03/13, I coordinated with (b)(6), (b)(7)(c), who is the owner of (b)(4), (b)(6), (b)(7)(c) while at (b)(4), (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) telephone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(c) explained that he had planted a (b)(4) wheat in 2011 and a blend of (b)(4) (b)(4) in 2012 on (b)(4), (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated that he (b)(6), (b)(7)(c) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(4), (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated the trucks that he used to haul the seed were thoroughly cleaned (blown out) prior to transporting the seed to his fields.

(b)(6), (b)(7)(c) stated that he seeded this seed with a drill and the drill was clean, vacuumed and blown, thoroughly after seeding before leaving each field.

(b)(6), (b)(7)(c) stated he seeded these varieties of winter wheat on dry-land farm ground.

(b)(6), (b)(7)(c) stated he has annual crop and will rotate spring wheat, winter wheat, and other crops. (b)(6), (b)(7)(c) does utilize Roundup for the most part but has also used Glystar. It, Roundup or Glystar is applied twice and one application of axiom. (b)(6), (b)(7)(c) stated Roundup is usually applied in November and April for spring crops and axiom is applied after seeding for the winter crop. The Roundup application was applied by using a ground sprayer. He also stated that he mixed 99 or Wetsol with the Roundup as recommended.

(b)(6), (b)(7)(c) stated he purchased his herbicides from (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), (b)(7)(c) Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(c). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(c).

On 05/30/13, I met with (b)(6), (b)(7)(c) of (b)(4), (b)(6), (b)(7)(c)

Mr. Farrens telephone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7) explained that he had planted (b)(4), (b)(4) on the land he farms in 2009, 2010, 2011, and 2012. He also stated he also planted (b)(4) winter wheat in 2009, 2010, and 2011.

(b)(6), (b)(7) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in his trucks. The trucks that he used to haul the seed were thoroughly cleaned prior to transporting the seed to his fields.

(b)(6), (b)(7) stated he seeded these varieties of winter wheat on dry-land farm ground. The drills used to seed the seed were thoroughly cleaned after seeding of the seed.

(b)(6), (b)(7) stated he uses a mixture of chem-fallowed and summer (b)(6), (b)(7) utilizes Roundup RT3 and then later he will disc. The application of Roundup was applied by using a ground sprayer. He also stated that he mixed AMS Max with the Roundup when spraying it.

(b)(6), (b)(7) stated he purchased his herbicides from (b)(4).

(b)(6), (b)(7) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Declaration of (b)(6), (b)(6),
(b)(7)(C) (b)(7)(C)

I declare that my name is (b)(6), (b)(6), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/03/13, I coordinated with (b)(6), (b)(7)(C)

telephone number is (b)(6), (b)(7)(C)

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) explained that he had planted a blend mix of (b)(4), (b)(4) on land farmed by (b)(4), (b)(6), (b)(7)(C) in 2009, 2010, 2011, and 2012. (b)(6), (b)(7)(C) also planted (b)(4) winter wheat in 2009.

(b)(6), (b)(7)(C) stated that they own (b)(6), (b)(7)(C). He currently does little summer fallow and does do chem- (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) stated the trucks that he used to haul the seed were thoroughly cleaned (blown out) prior to transporting the seed to his fields.

(b)(6), (b)(7)(C) stated that he custom hires occasionally for spraying.

(b)(6), (b)(7)(C) stated that they have four or five drill units and each drill unit is cleaned completely.

(b)(6), (b)(7)(C) stated he seeded these varieties of winter wheat on dry-land farm ground.

(b)(6), (b)(7)(C) stated he utilizes spraying with Roundup RT3 and the recommended additives. After spraying they will till to ensure there are no escapes. The applications were applied by using a ground sprayer and rarely (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) stated he purchased his herbicides from (b)(4)

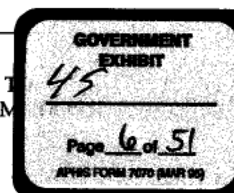

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

Subscribed, executed, and affirmed to

Declaration of (b)(6), (b)(6),
(b)(7)(C) (b)(7)

I declare that my name is (b)(6), (b)(6), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/03/13, I coordinated with (b)(4), (b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) telephone number is (b)(6), (b)(7)(C)

The purpose of my contacting (b)(6) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6) explained that he had planted a blend mix of West Breed (WB) 528 on land farmed by (b)(4), (b)(6), (b)(7)(C) in 2012.

(b)(6) stated that they lease 250 acres and all is irrigated land.

(b)(6) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(6), (b)(7)(C), (b)(4).

(b)(6) stated the trucks that he used to haul the seed were (b)(6), (b)(7)(C) cleaned (blown out) prior to transporting the seed to his fields.

(b)(6) stated that he normally does not custom hire.

(b)(6) stated that the drill for plant is cleaned by air blowing and vacuuming.

(b)(6) stated he seeded this variety of winter wheat on irrigated farm land.

(b)(6) stated he utilizes chemicals and sprays with Roundup RT3 and the recommended additives. After spraying they will till to ensure there are no escapes. The applications were applied by using a ground sprayer.

(b)(6) stated he purchased his herbicides from (b)(4)

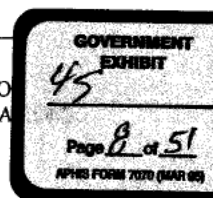

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

Subscribed, executed, and affirmed to
On this 30th day of May, 2013.

**Declaration of (b)(6), (b)(6),
(b)(7)(C) (b)(7)**

I declare that my name is (b)(6), (b)(6). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 05/30/13, I coordinated with (b)(6), (b)(7)(C) who is one of the owners of (b)(4), (b)(6), (b)(7)(C) while at (b)(6), (b)(7)(C) telephone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) explained that he had planted a blend mix of (b)(4), (b)(4) on land farmed by (b)(4), (b)(6), (b)(7)(C) in 2009, 2010, 2011, and 2012.

(b)(6), (b)(7)(C) stated that (b)(6), (b)(7)(C).

(b)(6), (b)(7)(C) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(4), (b)(6), (b)(7)(C).

(b)(6), (b)(7)(C) stated the trucks that he used to haul the seed were thoroughly cleaned (blown out) prior to transporting the seed to his fields.

(b)(6), (b)(7)(C) stated that he custom hires (b)(6), (b)(7)(C) to seed this seed. The drill is clean when it comes onto the property and is cleaned thoroughly after seeding before leaving the property.

(b)(6), (b)(7)(C) stated he seeded these varieties of winter wheat on dry-land farm ground.

(b)(6), (b)(7)(C) stated he utilizes crop rotation of spring crop then winter wheat and uses Roundup after harvest and prior to seeding. The application was applied by using a ground sprayer and rarely (b)(6), (b)(7)(C). He also stated that he mixed Surfactants with the Roundup when spraying to ensure that the chemicals will adhere better.

(b)(6), (b)(7)(C) stated he purchased his herbicides from (b)(4).

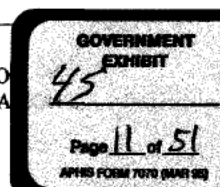

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 05/31/13, I met with (b)(6), (b)(7)(C) is currently farming land that belongs to (b)(6), (b)(7)(C) owns about (b)(6), (b)(7)(C) farms for her. (b)(6), (b)(7)(C) telephone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure of the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) explained that he had planted (b)(4) (b)(4) on the land he farms in 2009 and 2012. He also stated that he planted Rod winter wheat in 2009.

(b)(6), (b)(7)(C) stated he purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in his trucks. The trucks that he used to haul the seed were thoroughly cleaned prior to transporting the seed to his fields.

(b)(6), (b)(7)(C) seeded these varieties of winter wheat on dry-land farm ground. The drills used to seed the seed were thoroughly cleaned, blown and vacuumed, after seeding of the seed.

(b)(6), (b)(7)(C) stated he chem-fallowed the land. He utilizes Roundup RT3 with Synergize, and Sterling Blue. He will normally apply three or four times each year. The application of Roundup was applied by using a ground sprayer.

(b)(6), (b)(7)(C) stated he purchased his herbicides from (b)(4).

(b)(6), (b)(7)(C) stated that he had never experienced a failure of the glyphosate product that he had used to control volunteer wheat plants in his fields.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/03/13, I coordinated with (b)(6), (b)(7)(C), who is the (b)(6), of (b)(4), (b)(6), (b)(7)(C) while at (b)(6), (b)(7)(C) telephone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) explained that he had planted Rod winter wheat in 2010 and 2011. He also believed he planted a blend of (b)(4) in 2011 on land farmed by (b)(4), (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) stated that he owns about 270 acres and leases 1630 acres.

(b)(6), (b)(7)(C) stated he had purchased this seed in bulk from (b)(4) and had hauled the seed to his facilities in trucks owned by (b)(4), (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) stated the trucks that he used to haul the seed were thoroughly cleaned prior to transporting the seed to his fields.

(b)(6), (b)(7)(C) stated that he seeded this seed with a drill and the drill was clean thoroughly after seeding before leaving each field. (b)(6), (b)(7)(C) stated he seeded these varieties of winter wheat on dry-land farm ground. He uses both chem-fallow and summer (b)(6), (b)(6), (b)(7)(C) does utilize Roundup for the most part but has also used Glystar too. The Roundup or Glystar is applied 3 or 4 times depending on the weather. (b)(6), (b)(7)(C) stated Roundup is applied post harvest as needed. With the chem-fallow the application is applied once in the fall, spring, and summer. The Roundup application was applied by using a ground sprayer. He also stated that he mixed ammonium sulfate and XL90 with the Roundup as recommended.

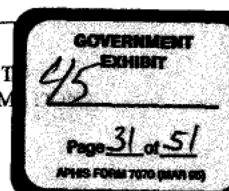

(b)(6), (b)(7)(C) stated he purchased his herbicides from (b)(4). Further, (b)(6), (b)(7)(C) stated that he had purchased a new drill and that the old one was rented out to customers at the (b)(4) handled everything regarding the equipment being rented.

Declaration of (b)(6), (b)(6),
(b)(7)() (b)(7)

I declare that my name is (b)(6), (b)(6), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal (b)(6) Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(6), (b)(7)(c) (b)(6), (b)(7)

On 06/06/13, I coordinated with (b)(6), (b)(7)(c) (b)(4), (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) telephone number is (b)(6), (b)(7)(c). In addition, (b)(6), (b)(7) had conference called in (b)(6), (b)(7)(c) (b)(4) and (b)(6), (b)(6), (b)(7)(c) (b)(4) (b)(7)

(b)(6), (b)(7) stated that he has never worked for (b)(4). He stated that he has been working for (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

In regards to test plots, (b)(6), (b)(7) stated that there have been test plots in this area since 2000 that he was aware of. The test plots were all yield trials. No GMO trials were conducted. (b)(6) further explained that when they harvested the test plots they would donate the yielded wheat to people in the local community. They tried to bring the wheat to the local grain elevator, (b)(4), but they would not pay for the seed because it was a mixture. (b)(6) stated that they began to donate the wheat to the local community. They would provide wheat each year after a yield trial to people in the community who would feed livestock or wildlife during the winter. (b)(6), (b)(7)(c)

(b)(6), (b)(7) reiterated that there was no GMO wheat in any of his test plots. The test plots were only yield trials and he never received any wheat from any other sources. (b)(6) stated that each year the amount of seed that the test plots yield varies depending on how the varieties performed

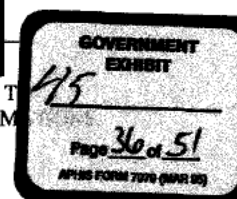

(b)(6), (b)(7) further stated that the only GMO testing with glyphosate resistant wheat that he was aware of was done by Monsanto in early 2000. (b)(6), (b)(7) believed it was a spring wheat

(b)(7)(C) (b)(7)

I declare that my name is (b)(6), (b)(6), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(c) and my cell phone number is (b)(6), (b)(7)(C).

On 06/10/13, I coordinated with (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) h's
telephone number is (b)(6), (b)(7)(c).

The purpose of my contacting (b)(6), (b)(7) was to obtain information from him regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7) explained that he had planted (b)(4) winter wheat in 2010. She also stated that they have not grown any wheat since then. (b)(6), (b)(7) stated that they farmed on approximately 40 acres of leased property.

(b)(6), (b)(7) stated they had purchased this seed in bulk from (b)(4) and had hauled the seed to their facility (b)(6), (b)(7)(c). (b)(6), (b)(7) stated the trucks that were used to haul the seed were thoroughly cleaned prior to transporting the seed to his fields.

(b)(6), (b)(7) stated that they seeded this seed with a drill and the drill was clean thoroughly after seeding before leaving the field. (b)(6), (b)(7) stated they seeded this variety of winter wheat on dry-land farm ground. They used a form of summer (b)(6), (b)(6), (b)(7) stated they utilize at least one application of Roundup. (b)(6), (b)(7) was not sure if they have ever used Glystar. The chemicals are recommended to them by (b)(6), (b)(7)(c). After the Roundup is applied, usually in the spring, they will go in later in the summer and disc the land. The Roundup application was applied by using a ground sprayer. She also stated that she was not sure of the mixture and claimed that it was done for them by (b)(6), (b)(7)(c).

(b)(6), (b)(7) stated that she had never experienced a failure of the glyphosate product that she had used to control volunteer wheat plants in their fields.

(b)(7)(C) (b)(7)

I declare that my name is (b)(6), (b)(6). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein to be true based on personal firsthand knowledge:

I am currently employed as a (b)(6), Investigator with the United States Department of Agriculture (USDA), Animal Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been employed in this position for approximately (b)(6), (b)(7)(C). My business address is USDA, APHIS, IES, 2150 Centre Avenue, Bldg (b)(6), (b)(7)(C) Fort Collins, CO 80526. My office telephone number is (b)(6), (b)(7)(C) and my cell phone number is (b)(6), (b)(7)(C).

On 06/10/13, I coordinated with (b)(6), (b)(7)(C) explained that he is the (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) stated that they have (b)(6), (b)(7)(C) telephone number is (b)(6), (b)(7)(C).

The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information from her regarding whether or not he had experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields had been harvested.

(b)(6), (b)(7)(C) explained that he had planted Coda Club winter wheat in (b)(6), (b)(7)(C) and it was for seed production. (b)(6), (b)(7)(C) stated that they did have a field consultant and identified him as (b)(6), (b)(7)(C) stated that there was approximately (b)(6), (b)(7)(C) of dry land farm ground.

(b)(6), (b)(7)(C) stated that he purchased this seed in bulk from (b)(6), (b)(7)(C) and (b)(6), (b)(7)(C). The seed was hauled by them in their truck. The truck that was used to haul the seed was thoroughly cleaned (blown out) prior to transporting the seed to their fields.

(b)(6), (b)(7)(C) stated they seeded these varieties of winter wheat on dry-land farm ground. The same drill was used to seed and it was cleaned thoroughly after seeding each field. (b)(6), (b)(7)(C) also stated that they have grown GMO seed corn but they have never had GMO wheat nor have they had a problem with their wheat being resistant to Roundup.

(b)(6), (b)(7)(C) claimed he used summer fallow method to farm. (b)(6), (b)(7)(C) did use chemicals for farming. The method he uses is recommended by his (b)(6), (b)(7)(C) from (b)(6), (b)(7)(C). Usually one application of Roundup is used. The field was also mold board plowed this year. The application of Roundup is in the spring and then the fields are disked or plowed. (b)(6), (b)(7)(C) stated the application is applied by using a ground sprayer. He also stated that the chemicals are a

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) I am over the age of 18 and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge.

I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been in this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reach by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) @aphis.usda.gov.

As an investigator, I am responsible for conducting investigations as applicable to APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and/or documentary evidence, and create investigative reports.

On 05/30/13, at approximately 10:30 AM PST, I arrived at the address of (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) The purpose of the interview was to determine if (b)(6), (b)(7)(c) had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products. Upon arriving I contacted (b)(6), (b)(7)(c), who identified himself as the (b)(6), (b)(7)(c) agreed to verbally answer questions regarding the field which (b)(6), (b)(7)(c). However, he would not provide a signed statement of any type.

(b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) As well, he was a (b)(6), (b)(7)(c) and the (b)(6), (b)(7)(c) had been farmed since (b)(6), (b)(7)(c), and since that time his family had been (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) Additionally, (b)(6), (b)(7)(c) remarked that his equipment was owned and operated solely by (b)(6), (b)(7)(c) As well, they did not share any of their equipment with any other farms, nor did they farm any other fields, and they did their own cutting.

Declaration of (b)(6), (b)(7)(c)
() () ()

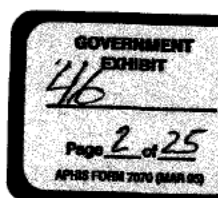

According to (b)(6), (b)(7)(c) he also utilized wheat. As well, neither Rod wheat nor any type of Club wheat had ever been planted or used in the (b)(6), (b)(7)(c) further stated that 2011 was the last year wherein WB-528 had been purchased from the (b) (4) in (b)(6), (b)(7), to use in the field. (b) further explained (b)(6), (b)(7)(c) would buy a small load of WB-528 seed, (b) approximately 90 bags, and they would transport the bags from the store to the farm in a flatbed truck they owned. He further stated they did not keep any samples of seed or wheat they raised, but that it was certified. (b)(6), (b)(7) continued stating that they would use either RT3 Round-Up or Sterling Blue as herbicides during the fallowing of their crops. He added these herbicides were usually purchased at the local (b) (4) and the application process was almost exclusively by ground spraying.

(b)(6), (b)(7) stated they had never had any problem with the fallowing processes and the herbicides they used were always effective. As well, there had never been any incidents wherein their crops were or had been resistant to the treatment by the herbicides they used. Additionally, no part of their crops or field had ever been used for testing. (b)(6), (b)(7) commented he knew of no other farmers in his area that may have had problems with volunteers having been resistant to herbicidal treatment.

I declare, under the penalty of perjury, that the foregoing is true and correct to the best of my knowledge. This declaration was executed on May 30th, 2013.

(b)(6), (b)(7)(c)

Investigator ((b) (6)), USDA, APHIS, IES

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of 18 and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge.

I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been in this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reach by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) @aphis.usda.gov.

As an investigator, I am responsible for conducting investigations as applicable to APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and/or documentary evidence, and create investigative reports.

On 05/30/13, at approximately 09:30 AM PST, I arrived at the address of (b)(6), (b)(7)(c) purpose of the visit was to interview a (b)(6), (b)(7)(c) in an effort to determine if he had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products. I subsequently contacted (b)(6), (b)(7)(c) He identified himself and that he operated the (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) agreed to verbally answer questions but would not provide a signed statement. (b)(6), (b)(7)(c) related he owned and operated approximately (b)(6), (b)(7)(c) dedicated for soft white wheat, barley, and alfalfa/hay. (b)(6), (b)(7)(c) stated he utilized WB-528 winter wheat in (b)(6), (b)(7)(c) purchased from (b)(4) ((b)(4)) and had no problems with resistant winter wheat volunteers. He explained that he both irrigated and chemically fallowed his fields.

Declaration of (b)(6), (b)(7)(c)
(7)()) (7)()

(b)(6), (b)(7)(c) stated that he utilized generic glyphosate products, which he purchased from the (b) (4) He was not specific as to which brands he purchased and used.

(b)(6), (b)(7)(c) stated he never had any issues with the chemical following processes and the herbicides he used were always effective. As well, there had never been any incidents wherein his crops had shown resistant to treatment by the herbicides he used.

(b)(6), (b)(7)(c) stated he purchased certified grain from (b) (4) in bulk; sold his wheat to (b) (4) transported it himself; did not keep any grain for replanting; did not keep seed or grain samples from planted crops; did all of his own farming; used all of his own equipment; had effective cleaning procedures for any combines and equipment used; had no test plots on his acreage; had no neighboring test plots; and had never heard of any concerns from his neighbors regarding glyphosate resistant volunteers.

I declare, under the penalty of perjury, that the foregoing is true and correct to the best of my knowledge. This declaration was executed on May 30th 2013.

As an investigator, I am responsible for conducting investigations as applicable to APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and/or documentary evidence, and create investigative reports.

On 05/31/13, at approximately 12:30 PM PST, I arrived at the address of (b)(6), (b)(7)(c) The purpose of the interview was to determine if a (b)(6), (b)(7)(c), of (b)(6), (b)(7)(c) had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products. Upon arriving I contacted (b)(6), (b)(7)(c) who identified himself as the (b)(6), (b)(7)(c) agreed to verbally answer questions regarding the fields he managed, however, he would not provide a signed statement.

(b)(6), (b)(7)(c) stated he (b)(6), (b)(7)(c) (b)(4) Adding that the (b)(6), (b)(7)(c) and the (b)(6), (b)(7)(c) operated on approximately (b)(6), (b)(7)(c). According to (b)(6), (b)(7)(c), the acreage in these fields was predominately wheat, with the exception of (b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(c)

(b)(7)(C) (b)(7)(C)

(b)(6), (b)(7) stated he did utilize WB-528 for his winter wheat in the (b)(6), (b)(7)(c), however had planted in the fall of 2012 only. Adding that they recently conducted a chemical fallow on both of these fields and nothing was found resistant to Round-up or any of the herbicides they utilized. (b)(6), (b)(7) further remarked that 1/3 of the fields were ground sprayed/chemical fallowed with WB-Skies and 2/3 of the fields was ground sprayed with Oregon 102. He further commented that the round up surfactants utilized were Interlock and Synergize.

(b)(6), (b)(7) stated that the (b)(4) (b)(7)(c) purchased/sold its grain to the (b)(4) (b)(7)(c) (b)(6), (b)(7) which went to the river; and grain from the (b)(6), (b)(7)(c) was purchased/sold to (b)(4) (b)(7)(c). He then added that the (b)(4) (b)(7)(c) had used WB-528 for the last three years, using seed from the (b)(4) (b)(7)(c) and had no problems at all with glyphosate resistant volunteers.

According to (b)(6), (b)(7), no part of the crops in either of these fields had ever been used for testing. He further commented he knew of no other farmers in these areas that may have had problems with volunteers being resistant to herbicidal treatment.

I declare, under the penalty of perjury, that the foregoing is true and correct to the best of my knowledge. This declaration was executed on May 31st, 2013.

(b)(6), (b)(7)(c) @aphis.usda.gov.
(7)() (b)(7)(c)

As an investigator, I am responsible for conducting investigations as applicable to APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and/or documentary evidence, and create investigative reports.

On 06/01/13, at approximately 11:00 AM PST, I arrived at the address of (b)(6), (b)(7)(c) in attempt to interview (b)(6), (b)(7)(c). The purpose of the interview was to determine if (b)(6), (b)(7)(c) had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products. I subsequently contacted (b)(6), (b)(7)(c). He identified himself as (b)(6), (b)(7)(c) and that he operated the (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) agreed to verbally answer questions but would not provide a signed statement.

(b)(6), related he owned and operated approximately (b)(6), (b)(7)(c) were seeded every year and the other (b)(6), (b)(7)(c) were unused land. According to (b)(6), his crops consisted primarily of wheat (b)(6), (b)(7)(c) stated he utilized WB-528 winter wheat every year since (b)(6), (b)(7)(c) He also commented he had run Rod winter wheat in (b)(6), (b)(7)(c) and that both the WB-528 and the Rod wheat would be chemically fallowed every year.

Declaration of (b)(6), (b)(7)(c)
(7)()) (7)()

(b)(6), further remarked that he utilized different glyphosate products, which he purchased from a variety of different places. He was not specific as to which brands he purchased and used, or as to whom he purchased these products from. According to (b)(6), he ground sprayed 99% of the time and would mix the round-up with ammonium sulfate, water, and other surfactants. He was not specific as to which brands of surfactants he used. (b)(6), stated he had never had any problem with the chemical fallowing processes and the herbicides he used were always effective. As well, there had never been any incidents wherein his crops had shown resistant to treatment by the herbicides he used.

(b)(6), stated he purchased 85% of his grain from (b)(4) 15% from (b)(4); did not keep any grain for replanting; did not keep seed or grain samples from planted crops; did all of his own farming; used all of his own equipment; had effective cleaning procedures for any combines and equipment used; had no test plots on his acreage; had no neighboring test plots; and had never heard of any concerns from his neighbors regarding glyphosate resistant volunteers.

I declare, under the penalty of perjury, that the foregoing is true and correct to the best of my knowledge. This declaration was executed on June 1st 2013.

(b)(6), (b)(7)(c)

Declaration of (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of 18 and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge.

I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have been in this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (970) 494-7485. I can also be reach by cell at (b)(6), (b)(7)(c) and/or by email at

(b)(6), (b)(7)(c)

As an investigator, I am responsible for conducting investigations as applicable to APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and/or documentary evidence, and create investigative reports.

On 06/04/13, at approximately 12:45 AM PST I arrived at the address of (b)(6), (b)(7)(c) with a telephone number of (b)(6), (b)(7)(c) The purpose of the visit was to interview a (b)(6), (b)(7)(c) in an effort to determine if he had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products.

I contacted (b)(6), (b)(7)(c) and asked him if he had experienced any failures in controlling volunteer winter wheat plants in fields treated with glyphosate products. (b)(6), (b)(7)(c) responded by stating he farmed wheat and a (b)(4) on approximately (b)(6), (b)(7)(c) of land located at (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated he had not used any WB-528; rather he had utilized "OR-102" for the past six years. Additionally, (b)(6), (b)(7)(c) also commented that in addition to OR-102 he utilized (b)(4) (b)

Declaration of (b)(6), (b)(7)(c)

() () () ()

(b)(6), (b)(7) related he had not used Rod winter wheat for over ten years and had never used Coda Club or Club. According to (b)(6), (b)(7), he purchased his seed from (b)(4) in bulk form, hauled all of his own seed and grain using his personally owned equipment and trucks. (b)(6), (b)(7) informed that the harvested product is delivered "to the river" for transport. He explained further, stating that his fields were split between irrigated land and dry-land crops. According to (b)(6), (b)(7) he irrigated the crops containing Red Wheat and cropped OR-102 for his dry-land fields. In relation to his dry-land fields he would minimal till and depended primarily on chemical fallowing every year to rid the crops of any volunteer plants.

(b)(6), (b)(7) stated he utilized a Monsanto brand of glyphosate, predominately RT3. Additionally, he would mix water, water softener, and fertilizer with RT3 to help burn-down volunteers. However, according to (b)(6), (b)(7), the Monsanto brand of RT3 was usually all that was needed and used. (b)(6), (b)(7) stated the application was almost exclusively by ground spraying and he typically purchased his products from (b)(4)

(b)(6), (b)(7) related he did not lease any of his land or acreage, did not keep any of his seed or grain from prior crops and/or harvest, did not store any seed or grain on his property, nor did he know of any neighbors in close proximity with test plots. (b)(6), (b)(7) also related that in (b)(6), (b)(7)(c)

(b)(6), (b)(7) remarked he had not heard of any other farmers having problems with glyphosate resistant volunteers. (b)(4)

in effort to determine if any records existed in regard to the types of herbicides that may have been used regarding the test plot in 2009, as related by (b)(6)(b)(6). The (b)(6), (b)(7)(c), was out of the office not to return until 06/07/13.

Declaration of (b)(6), (b)(7)(c)

6. (b)(6), (b)(7)(c) states he plants both dry land and irrigated farms and that he does not follow their fields using conventional tillage practices.
7. (b)(6), (b)(7)(c) states he does plant GMO crops that he currently has corn planted and pointed to a sign on the field saying it is a liberty Link product.
8. (b)(6), (b)(7)(c) was questioned about his wheat plantings.
9. (b)(6), (b)(7)(c) could not confirm what varieties he planted in 2009, 2010, 2011 or 2012.
10. (b)(6), (b)(7)(c) did not know if they had not planted any Rod wheat, Coda Club wheat, or any other club wheat varieties within the last five years.
11. (b)(6), (b)(7)(c) states that buys his seed from (b)(6), (b)(7)(c)
12. (b)(6), (b)(7)(c) states that they never Round Up there wheat.
13. (b)(6), (b)(7)(c) states state that they think that they planted a "gysopum" wheat 3 or 4 years ago.
14. (b)(6), (b)(7)(c) states that it was about a (b)(6), (b)(7)(c)
15. (b)(6), (b)(7)(c) stated that they had to sign a confidentiality agreement with them to get the wheat.
16. (b)(6), (b)(7)(c) stated when they planted the wheat that that most of it did not come up so they had to get more seed and replant in the wheat that did come up.
17. (b)(6), (b)(7)(c) stated the field did not harvest but half a truckload and that they hauled the wheat to (b)(6), (b)(7)(c)
18. (b)(6), (b)(7)(c) stated he did not know if they had any records for the crop that he would have to (b)(6), (b)(7)(c) and see what they could find.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

Declaration of (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know that each of the facts set forth herein based on personal firsthand knowledge:

1. My name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) and I am a (b)(6), (b)(7)(c) Investigator for the USDA Investigative and Enforcement Services. My address is 2150 Centre Ave Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526 (b)(6), (b)(7)(c) As an investigator I conduct interviews and collect evidence for enforcement to alleged violations of the Animal Health Protection Act and the Plant Protection and Quarantine Act. I have been working in this capacity for (b)(6), (b)(7)(c)
2. On 05/31/2013 I met with (b)(6), (b)(7)(c)
3. (b)(6), (b)(7)(c) is (b)(6), (b)(7)(c)
4. (b)(6), (b)(7)(c) lives at (b)(6), (b)(7)(c)
5. (b)(6), (b)(7)(c) was questioned about his wheat plantings.
6. (b)(6), (b)(7)(c) stated I know you all are trying to get signed statements but I am not signing anything. I did think about it and I will answer some of your questions but I am not completing your questioner.
7. (b)(6), (b)(7)(c) confirmed that he planted WB528 in (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) states that he also plants other kinds of wheat.
8. (b)(6), (b)(7)(c) stated that he had not planted either Rod, Coda Club, or any of the other Club wheat.
9. (b)(6), (b)(7)(c) states that he grows wheat for use as grain and for seed wheat but that the 528 he only uses for grain.
10. (b)(6), (b)(7)(c) stated he buy all his seed from (b)(4) in bulk and haul it to his farm in his trucks.
11. (b)(6), (b)(7)(c) states that he farms all dry land and irrigated (b)(6)
12. (b)(6), (b)(7)(c) stated that he does fallow some of his fields. (b)(6)
13. (b)(6), (b)(7)(c) stated he does plant GMO crops.
14. (b)(6), (b)(7)(c) stated that they have seen no resistance to round up in any wheat.
15. (b)(6), (b)(7)(c) states all there grain is sold back to (b)(4) and that they transport the grain to market in their own truck.
16. (b)(6), (b)(7)(c) states that he harvests the wheat with their own equipment.
17. (b)(6), (b)(7)(c) states that they do not hire any custom farming out.
18. (b)(6), (b)(7)(c) states that he has not planted any Round up Ready wheat nor does he know anyone who has.

19. (b) (6) states that he does not know anyone who had had problems with round up resistant wheat in their fields. But that other farms have problems with using generic round up and that he has had the same problem in the past. And if the wheat would have been sprayed with RT3 it would have killed it.
20. (b) (6) stated that from what he was told out test was no good and USDA had not confirmed the wheat was round up ready.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

1. My name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) and I am a (b)(6), (b)(7)(c) Investigator for the USDA Investigative and Enforcement Services. My address is 2150 Centre Ave Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526, (b)(6), (b)(7)(c). As an investigator I conduct interviews and collect evidence for enforcement to alleged violations of the Animal Health Protection Act and the Plant Protection and Quarantine Act. I have been working in this capacity for (b)(6), (b)(7)(c)
2. On 05/31/2013 I met with (b)(6), (b)(7)(c)
3. (b)(6), (b)(7)(c)
4. (b)(6), (b)(7)(c) lives at (b)(6), (b)(7)(c) Phone (b)(6), (b)(7)(c)
5. (b)(6), (b)(7)(c) was questioned about his wheat plantings
6. (b)(6), (b)(7)(c) confirmed that he planted WB528 in (b)(6), (b)(7)(c)
7. (b)(6), (b)(7)(c) stated that he had not planted either Rod, Coda Club, or any of the other Club wheat.
8. (b)(6), (b)(7)(c) states that he only grows wheat for use as grain.
9. (b)(6), (b)(7)(c) stated he buy all there seed from (b)(4) in bulk and haul it to his farm in their trucks.
10. (b)(6), (b)(7)(c) states should have receipts stored in his records.
11. (b)(6), (b)(7)(c) states that he farms all both irrigated farm land and will plant from (b)(6), (b)(7)(c) of wheat a year in rotation with (b)(6), (b)(7)(c)
12. (b)(6), (b)(7)(c) stated that he farms his field every year in using tillage farming techniques.
13. (b)(6), (b)(7)(c) states only uses round up on borders
14. (b)(6), (b)(7)(c) stated he planted Roundup ready alfalfa this year.
15. (b)(6), (b)(7)(c) stated that they have seen no resistance to round up in any wheat.
16. (b)(6), (b)(7)(c) states all there grain is sold back to (b)(4) and that they transport the grain to market in their own truck.
17. (b)(6), (b)(7)(c) states that he harvest the wheat with their own equipment.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

9. (b)(6), (b)(7)(c) stated they have not planted any Rod wheat in the last (b)(6), (b)(7)(c) and the only club wheat variety the planted in Coda Club.
10. (b)(6), (b)(7)(c) states that the only wheat they grow is for use as grain.
11. (b)(6), (b)(7)(c) state they buy their seed from (b)(4) mostly in bulk and (b)(6), (b)(7)(c) hauls it to their farm or a pick up point, they will also purchase a few bags of seed to finish out planting their fields.
12. (b)(6), (b)(7)(c) state that they farm all dry land farms.
13. (b)(6), (b)(7)(c) state that they do summer fallow their fields using minimum tillage practices and weeds are primarily controlled with Herbicide mixes.
14. (b)(6), (b)(7)(c) state that they spray there field with both RT3 and Generic glyphosate and normally incorporate Banvil to kill round up resistant broadleaf weeds and that they do all the spraying themselves using a ground spray rig.

15. (b)(6), (b)(7)(c) state that they normally spray their fields late fall, end of April, and in June.
16. (b)(6), (b)(7)(c) stated that they have seen no resistance to round up in any wheat and have not noticed and wheat volunteers.
17. (b)(6), (b)(7)(c) states they do all the farming themselves with their own equipment and do not hire out any custom farm work.
18. (b)(6), (b)(7)(c) states all they market there seed to either (b) (4) .
19. (b)(6), (b)(7)(c) states that they harvest the wheat with their own equipment.
20. (b)(6), (b)(7)(c) states that they do occasionally bale wheat stubble but that they think the last time was a couple of years ago.
21. (b)(6), (b)(7)(c) state that they do not keep back any wheat for seed.
22. (b)(6), (b)(7)(c) state that they have never planted any form of Round Up ready wheat.
23. (b)(6), (b)(7)(c) state they are not aware of anyone ever planting Round Up ready wheat or having issues with resistance to Round Up.
24. (b)(6), (b)(7)(c) were aware of test plots on land owned by (b)(6), (b)(7) that (b) (4) (b) (6), (b) (7) uses to test different wheat varieties but do not know if Round Up resistant wheat was ever planted there.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

Declaration of (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know that each of the facts set forth herein based on personal firsthand knowledge:

1. My name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) and I am a (b)(6), (b)(7)(c) Investigator for the USDA Investigative and Enforcement Services. My address is 2150 Centre Ave Bldg. (b)(6), (b)(7)(c) Fort Collins, CO 80526, (b)(6), (b)(7)(c). As an investigator I conduct interviews and collect evidence for enforcement to alleged violations of the Animal Health Protection Act and the Plant Protection and Quarantine Act. I have been working in this capacity for (b)(6), (b)(7)(c)
2. On 06/04/2013 I met with (b)(6), (b)(7)(c) of the family farm (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)
3. (b)(6), (b)(7)(c) lives at (b)(6), (b)(7)(c) Phone (b)(6), (b)(7)(c).
4. I questioned (b)(6), (b)(7)(c) about their wheat plantings.
5. (b)(6), (b)(7)(c) states that he thought he had planted round up ready wheat but was not sure he showed me the invoice from (b)(4) and it indicated that he had planted (b)(6), (b)(7)(c) in (b)(6), (b)(7)(c). Which is a variety of (b)(6), (b)(7)(c) wheat.
6. (b)(6), (b)(7)(c) stated that (b)(4) had sold them the seed and that when they planted it they had to sign a confidentiality agreement.
7. (b)(6), (b)(7)(c) stated that the seed did not come up well at the initial planting so they had to replant it.
8. (b)(6), (b)(7)(c) stated the field was approximately (b)(6), (b)(7)(c) and it only yielded (b)(6), (b)(7)(c)
9. (b)(6), (b)(7)(c) stated that for the last five years they normally planted either the Tubbs or Stevens's varieties of wheat.
10. (b)(6), (b)(7)(c) was asked if he had planted WB528 this year and he stated that he did not remember what type of wheat he planted.
11. (b)(6), (b)(7)(c) state that they plant both dry land wheat varieties (b)(6), (b)(7)(c) and that crop their land every year using conventional tillage methods.
12. (b)(6), (b)(7)(c) states that all the wheat they grow is for grain.
13. (b)(6), (b)(7)(c) state that they employ a (b)(6), (b)(7)(c) (b)(4) to tells them what to spray and when. But that (b)(6), (b)(7)(c) does all the spraying himself.
14. (b)(6), (b)(7)(c) states that they do not use any Glyphosate on any wheat. The only thing that (b)(6), (b)(7)(c) could remember spraying was AXTEL but was not sure what he was treating. (b)(6), (b)(7)(c) stated that they really do not have to do much weed management in their wheat.
15. (b)(6), (b)(7)(c) stated he has never planted any Round up ready wheat.
16. (b)(6), (b)(7)(c) is not aware of any one who has ever planted round up ready wheat.

17. (b)(6), (b)(4) stated that they do have a (b)(4) on their property with (b)(4) (b)(4) but that he does not know any details about the plot a (b)(4) takes care of the plot and dictates what is done and when.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

As an investigator I conduct interviews and collect evidence for enforcement to alleged violations of the Animal Health Protection Act and the Plant Protection and Quarantine Act. I have been working in this capacity for (b)(6), (b)(7)(c)
2. On 06/05/2013 I contacted (b)(6), (b)(7)(c).
3. (b)(6), (b)(7)(c) stated that he farms in northern California and (b)(6), (b)(7)(c)
4. (b)(6), (b)(7)(c) address is (b)(6), (b)(7)(c). Phone (b)(6), (b)(7)(c).
5. (b)(6), (b)(7)(c) states he farms from (b)(6), (b)(7)(c) of wheat a year depending on rotation.
6. (b)(6), (b)(7)(c) was questioned about his wheat plantings.
7. (b)(6), (b)(7)(c) confirmed that in (b)(4) he purchased and planted WB 528 thru (b)(4)
8. (b)(6), (b)(7)(c) stated that he was unable to purchase some varieties in the California Area so he orders the wheat from (b)(4)
9. (b)(6), (b)(7)(c) states he will normally plant one year of potatoes and two years of grain. The (b)(6), (b)(7)(c) the WB 528 was planted in (b)(6), (b)(7)(c) Stevens wheat variety (b)(6), (b)(7)(c) and in 2011 it was planted in BW 528 and zerpha wheat varieties.
10. (b)(6), (b)(7)(c) stated the field is currently planted in (b)(6), (b)(7)(c).
11. (b)(6), (b)(7)(c) states he does not plant any GMO crops but that he does sell Round Up ready alfalfa.
12. (b)(6), (b)(7)(c) states that he also plants alfalfa, potatoes, onions, barley, and (b)(6), (b)(7)(c)
13. (b)(6), (b)(7)(c) stated they have not planted any Rod wheat no Coda Club wheat, or other club wheat varieties.
14. (b)(6), (b)(7)(c) states that the wheat he grows is for use as grain, that he does not grow any seed wheat.
15. (b)(6), (b)(7)(c) states he farms all irrigated farm land.
16. (b)(6), (b)(7)(c) states the bags of seed were delivered as bulk seed bags.
17. (b)(6), (b)(7)(c) states that he does not keep any tags or seed certification sheets from the seed.
18. (b)(6), (b)(7)(c) states that all his fields are farmed using traditional tillage.
19. (b)(6), (b)(7)(c) states that for weed control 1.5 pints of 2-4d and 5 oz. of Banvil per the acre and that some time they will use Axial at the rate of 16 oz. per acre.

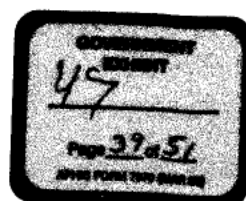

20. (b)(6), (b)(7)(c) states that they do not spray any Round Up on the fields.
21. (b)(6), (b)(7)(c) stated that he has not heard of any round up resistance to any wheat.
22. (b)(6), (b)(7)(c) states state that they have never planted any form of Round Up ready wheat.
23. (b)(6), (b)(7)(c) states that he is not aware of anyone ever planting Round Up ready wheat or having issues with resistance to Round Up.
24. (b)(6), (b)(7)(c) does not know of any test plots in the area.

Pursuant to 28 U.S.C. 1746, I declare under penalty of perjury that the foregoing is true and correct.

7. (b)(6), (b)(7)(c) state that his business farms (b)(6), (b)(7)(c)
8. (b)(6), (b)(7)(c) states he only farms wheat.
9. (b)(6), (b)(7)(c) were questioned about his wheat plantings
10. (b)(6), (b)(7)(c) confirmed that in 2009 he (b)(6), (b)(7)(c) of Coda club wheat in 2009. (b)(6), (b)(7)(c) states that he primarily plants Clearfield 102, badger, and Stephens varieties (b)(6), (b)(7)(c)
11. (b)(6), (b)(7)(c) stated they have not planted any Rod wheat in the last five years, the only club wheat variety the planted in Coda Club, and that he has never planted WB 528.
12. (b)(6), (b)(7)(c) states that the only wheat they grow is for use as grain.
13. (b)(6), (b)(7)(c) state they buy their seed from (b)(4) in bulk and that he normally uses seed tenders from (b)(4) to pick up the seed and load his grain drills.
14. (b)(6), (b)(7)(c) states that he farms (b)(6), (b)(7)(c) wheat that he chemfallows.
15. (b)(6), (b)(7)(c) state that he does summer fallow (b)(6), (b)(7)(c) using minimum tillage practices and weeds are primarily controlled with Herbicide mixes.
16. (b)(6), (b)(7)(c) state that they spray there chemfallow field with both RT3 and Generic glyphosate but that he does not mix any other chemical with the glyphosate.

17. (b)(6), (b) states that he uses RT3 at the rate of 1 quart per acre and generic at the rate of 1.5 quarts per acre.
18. (b)(6), (b) states that the herbicide is applied using ground equipment owned by crop production services and that some of the applications he does himself and some the operators for CPS apply.
19. (b)(6), (b) state that they spray their fields whenever the weeds are present enough to require it.
20. (b)(6), (b) states that he will also spray glyphosate preplanting and at harvest as a burndown.
21. (b)(6), (b) states that for broadleaf weeds that they will spray either Husky, Bronate, or 2-4D herbicide.
22. (b)(6), (b) states that for grasses in the wheat they spray the wheat with Powerflex
23. (b)(6), (b) stated that in his work he has seen no resistance to round up in any wheat that he has seen wheat that was not killed but that it was caused by an inadequate concentration of glyphosate and was killed when it was sprayed again.
24. (b)(6), (b) states he does most of the farming himself using his own equipment.
25. (b)(6), (b) states all they market there grain to either (b) (4) and (b) (4)
26. (b)(6), (b) states that they harvest the wheat with their own equipment.
27. (b)(6), (b) states that they do not bale wheat stubble that they plow it and reincorporate it in their conventional farming and they leave it standing in their (b)(6), (b)(7)
28. (b)(6), (b) states that they do not keep back any wheat for seed.
29. (b)(6), (b) states that they have never planted any form of Round Up ready wheat.
30. (b)(6), (b) states he is not aware of anyone ever planting Round Up ready wheat or having issues with resistance to Round Up.
31. (b)(6), (b) states that there are lots of companies that plant test plots in the area but if any ever planted any round up ready wheat he was not aware of it, he states that the company he works for (b) (4).

DECLARATION OF (b)(6), (b)(7)(c), (b)(6), (b)(7)(c)

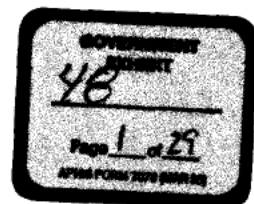

I declare that my name is (b)(6), (b)(7)(c), (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c), Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c).

2. On May 31, 2013, I met with (b)(6), (b)(7)(c) at his (b)(6), (b)(7)(c) residence located at (b)(6), (b)(7)(c). His contact number is (b)(6), (b)(7)(c). The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding his use of glyphosate products and if he experienced any failure in the effectiveness of the glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. (b)(6), (b)(7)(c) stated he and his father rotate crops, planting (b)(6), (b)(7)(c) DNS (b)(6), (b)(7)(c). They do not purchase nor plant West Breed (WB) 528, Rod, Coda Club, or any type of Club winter wheat. They do not grow (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) explained the alfalfa they grow is not the "Roundup Ready Alfalfa" weed resistant type. He stated the country they ship their alfalfa to do not accept genetically modified products. (b)(6), (b)(7)(c) stated they purchase their DNS wheat seed from (b)(6), (b)(7)(c) and it comes in large tote bags which they pick up and transport on their own flatbed trailer. He was unable to remember if they had any of the seed bag tags left in the storage area.

4. (b)(6), (b)(7)(c) stated they (b)(6), (b)(7)(c) farm. Their crops are rotated. They plow the ground prior to replanting the new crop. (b)(6), (b)(7)(c) stated they personally transport their harvest to (b)(6), (b)(7)(c) WA and vacuum and blow out the truck/equipment between crops. They do not store any of the grain on the farm nor do they hold the seed over to use to plant in the following year. (b)(6), (b)(7)(c) was not aware Monsanto had a wheat farm trial in the (b)(6), (b)(7)(c), WA area. He has never had a test plot on his farm and is not aware of any test plots in the area at this time.

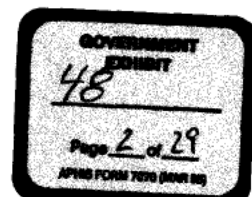

5. (b)(6), (b)(7) stated they do not keep samples from the wheat seed they plant nor from the wheat seed once it is harvested. (b)(6), (b)(7) was unable to provide information regarding what chemicals they use, if any, to control any volunteer wheat. He believes (b)(6), (b)(7) would be able to provide more information regarding the chemicals used and when, and then explained (b)(6), (b)(7) was out harvesting alfalfa and would not be available until late. He provided me with (b)(6), (b)(7) cell phone number, (b)(6), (b)(7)(c), explained he and his father were in the middle of harvesting and he had to leave.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on May 31, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(b), (b)(6),
(b)(7)(c)

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

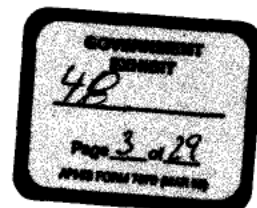

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c) My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On May 31, 2013, I called (b)(6), (b)(7)(c) on his cell phone and left a message (b)(6), (b)(7)(c) immediately returned my (b)(6), (b)(7)(c) address is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c). His home number is (b)(6), (b)(7)(c) and his cell phone number is (b)(6), (b)(7)(c). The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information from him regarding his use of glyphosate products and if he experienced any failure in the effectiveness of the glyphosate products when using them to control volunteer winter wheat after his fields were harvested.

3. (b)(6), (b)(7)(c) stated he does not purchase or plant West Bred (WB) 528, Rod, Coda Club, or any type of Club winter wheat. He does not grow (b)(6), (b)(7)(c). His main crop is (b)(6), (b)(7)(c), which is exported to (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) explained the (b)(6), (b)(7)(c) they grow is not the (b)(6), (b)(7)(c) weed resistant type. The countries he exports the (b)(6), (b)(7)(c) do not accept genetically modified products. (b)(6), (b)(7)(c) rotates his crops, growing (b)(6), (b)(7)(c).

4. The DNS wheat is grown to help clean up the ground. It is a 60/40 blend of Buckpronto and Solo. One has a higher yield and the other is higher in protein content. The DNS seed is purchased from (b)(4) (b)(4) The seeds are a private variety and (b)(6), (b)(7)(c) is required to sign an affidavit stating he will not replant the seeds. He is not aware of who owns the rights to the DNS seeds. The seed is transported in large tote backs, holding 2000 to 2200 pounds per bag. The tote bags belong to (b)(6), (b)(7)(c) and he reuses them.

5. (b)(6), (b)(7)(c) transports the filled tote bags on his flatbed trailer. There are no seed tags on the bags. (b)(6), (b)(7)(c) sprays the DNS wheat plant when it is about 6 inches tall, using "Huskey" for the weeds and "Discover" to control the growth of wild oats. He mixes the herbicides with tap water.

He does not use "Roundup" (glyphosate). He purchases his herbicides from three or four companies, such as (b)(6), (b)(7)(c). Upon harvest, (b)(6), (b)(7)(c) transports the wheat grain himself, in his grain trailer, to the (b)(4) sorts and tests it.

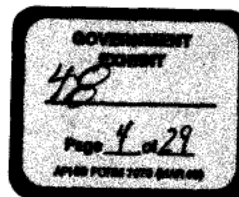

6. He does not store any of the grain on his property nor does he hold any seed over to plant on the next rotation. After harvesting the wheat grain, (b)(6), (b)(7)(c) works the straw into the ground. He has not had a problem with volunteer wheat. (b)(6), (b)(7)(c) (b)(6), (b)(7)(c). When he rotates his crops, he plows the ground prior to planting a new crop. He cleans his equipment when it gets dirty, which he elaborated is often when working in dirt. He vacuums and/or blows off the drills after each use. He does not loan out his equipment nor does he hire other equipment to help with the planting and harvesting.

7. (b)(6), (b)(7)(c) was not aware Monsanto had a wheat farm trial in the (b)(4) area, but is aware of test plots in the area, which he believes belong to (b)(4). He believes (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) has never had a test plot on his farm. (b)(6), (b)(7)(c) was in the middle of harvesting (b)(6), (b)(7)(c) and unable to meet in person.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on May 31, 2013

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Investigator

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 1, 2013, I traveled to (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c). After checking both the house and the shop, I left my business card with a message to call me. At approximately 9:50 a.m. (b)(6), (b)(7)(c) called me on my cell phone. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. (b)(6), (b)(7)(c) stated, for the past four years, he purchased and planted West Bred (WB) 528 winter wheat and, in (b)(6), (b)(7)(c) he planted Rod type winter wheat. He has not purchased or planted Coda Club winter wheat, but planted (b)(6), (b)(7)(c) which he harvested in (b)(6), (b)(7)(c). He does not grow (b)(6), (b)(7)(c). He purchases his seed from (b)(4) located at (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c), and (b)(6), (b)(7)(c) signs an affidavit, for the wheat, stating he will not keep or replant the harvested grain/seeds.

4. He does not store the harvested wheat seed or grain on his farm, but, on occasion, he will store left over seed to plant the following year. He grows (b)(6), (b)(7)(c) on his farm and stores some of the grain to feed to his cattle. (b)(6), (b)(7)(c) picks up the seed using a large trailer, which he owns. He picks up approximately 300 to 500 bushels (18,000 to 30,000 lbs.) of seed at one time. After picking up each load of seed, (b)(6), (b)(7)(c) cleans his trailer out with an air hose and sometimes steam cleans it. The seed tag information is on the receipt which has a disclaimer he has to agree to. After harvesting the wheat grain, (b)(6), (b)(7)(c) burns the straw or works it back into the ground. (b)(6), (b)(7)(c) does all dry land farming. (b)(6), (b)(7)(c) does not keep wheat samples from planting or harvesting and stated (b)(4) keeps the samples.

5. (b)(6), (b)(7)(c) chem fallows his fields in the summer and uses Round Up (glyphosate) mixed with a "sticker", M90 (Steve McGregor 90), which helps the herbicide stick to the plant. He also uses other herbicides such as Husky, Affinity, Powerflex and Orion which he mixes with tap water. He sprays the wheat in March and (b)(6). He has not had problems with volunteer wheat with any of the herbicides he uses. He cleans his equipment regularly along with cleaning it after each harvest. He uses air blowing and steam cleans. He vacuums and/or blows off the drill after each use. He owns his own equipment. He does not loan his equipment out nor does he hire other equipment to help with the planting and harvesting. (b)(6), (b)(7)(c)

6. (b)(6), (b)(7)(c) is aware Monsanto had a wheat farm trial, and believes it was about ten years ago and located by the (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) has pea test plots on his farm, planted by (b)(4), but is not aware of what they are testing for. He is not aware of any other test plots in the area.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 1, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Investigator

DECLARATION OF (b)(6), (b)(7)(C) (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C) (b)(6), (b)(7)(C). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(C). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(C) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(C).

2. On June 1, 2013, I traveled to (b)(6), (b)(7)(C) and spoke to (b)(6), (b)(7)(C). The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. (b)(6), (b)(7)(C) stated he does not purchase or plant West Breed (WB) 528, Rod, Coda Club, or any type of Club winter wheat. He does not grow soybeans, corn or sugar beets. He remembers using a mixture of Tub and Rod wheat in the past, but was unable to remember the dates. (b)(6), (b)(7)(C) plants soft white wheat and purchases his seed from (b)(6), (b)(7)(C) (b)(4) located at (b)(6), (b)(7)(C); phone (b)(4).

4. (b)(6), (b)(7)(C) is a (b)(6), (b)(7)(C). He does not store the harvested wheat seed or grain on his farm. (b)(6), (b)(7)(C) purchases his wheat seed in bulk and pays someone to transport it. (b)(6), (b)(7)(C) rents all of his equipment, but owns a tractor which he uses to put down fertilizer and herbicide. (b)(6), (b)(7)(C) purchases a premixed fertilizer and adds Round Up (glyphosate) to the mixture. After harvesting the wheat grain, his wheat is transported to (b)(6), (b)(7)(C). The straw is burned. He has not had problem with wheat volunteers. He does not keep wheat samples from planting or harvesting.

5. (b)(6), (b)(7)(C) was unaware Monsanto had a wheat farm trial, in the Walla Walla, WA area, until he recently heard about it on the news. He is unaware if there are test plots in the area and has not had test plots on his farm. He is unaware if test plots were on his farm prior to 2003. (b)(6), (b)(7)(C) identified (b)(6), (b)(7)(C) (b)(6), (b)(7)(C) and (b)(6), (b)(7)(C).

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 1, 2013.

(b)(6), (b)(7)(C) (b)(6), (b)(7)(C)
Investigator

DECLARATION OF (b)(6), (b)(7)(C)

I declare that my name is (b)(6), (b)(7)(C). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(C). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(C) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(C).

2. On June 1, 2013, I visited (b)(6), (b)(7)(C), the (b)(6), (b)(7)(C), located at (b)(6), (b)(7)(C), regarding his use of glyphosate products and if he experienced any failure in the effectiveness of the glyphosate products when using them to control volunteer winter wheat after his field were harvested. (b)(6), (b)(7)(C) contact number is (b)(6), (b)(7)(C). His cell phone number is (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) stated (b)(6), (b)(7)(C) is in charge of everything regarding the crops grown on his property. (b)(6), (b)(7)(C) residence address is (b)(6), (b)(7)(C). His contact number is (b)(6), (b)(7)(C).

3. (b)(6), (b)(7)(C) stated he does not purchase or plant West Bred (WB) 528, Rod, Coda Club, or any type of Club winter wheat. He does not plant sugar beets, but rotates crops by planting soybean and corn, both of which are the Roundup Ready type (genetically modified to resist glyphosate). He also plants (b)(6), (b)(7)(C). (b)(6), (b)(7)(C) stated the wheat he plants is "(b)(6), (b)(7)(C)", a soft white winter wheat. The wheat seed is purchased in bulk from (b)(4) in (b)(6), (b)(7)(C) WA. The seeds are contained in sacks, which contain approximately (b)(6), (b)(7)(C).

4. (b)(6), (b)(7)(C) stated the seed is transported on a flatbed trailer. He does not have any of the seed tags. The truck is cleaned prior to hauling the sacks of wheat seed. The wheat seed is planted using equipment owned by (b)(6), (b)(7)(C). They do not loan out any of the farming equipment. The drill is used for other fields, but is not loaned out or used by other growers. (b)(6), (b)(7)(C) sprays the wheat with the herbicide "Harmony". He does not use "Roundup" (glyphosate). (b)(6), (b)(7)(C) does not transport the wheat

grain once it is harvested. Someone picks it up and transports it to the (b) (6), (b) (7)(C) elevator. The wheat grain is sold to (b) (4)

5. He does not store any of the grain on the property nor does he hold any seed over for replanting. After harvesting the wheat grain, the straw is baled and hauled away. He has not had a problem with volunteer wheat. (b)(6), (b) (7)() irrigation farms and does not dry-land farm. The equipment is cleaned after each field. He does not loan out the equipment nor does he hire other equipment to help with the planting and harvesting. On occasion he will hire someone to help with the combining. He has been operating in the same fashion for the past forty years.

6. (b)(6), (b) (7)() was not aware Monsanto had a wheat farm trial in the (b) (4) , WA area until he heard it on the news a couple of days ago. There are no test plots on the farm. There has never been a test plot on the farm. He is not aware of any test plots in the area (b)(6), (b) (7)() was cutting grass hay during this interview and had to get back to work.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 1, 2013

(b)(6), (b)(7)(c)

(b)(6), (b) (b)(6), Investigator
(b)(7)() (b)(7)()

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c) My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop 3W10, Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 1, 2013, I traveled to the residence of (b)(6), (b)(7)(c), the (b)(6), (b)(7)(c), located at (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c) was not at home. I spoke to (b)(6), (b)(7)(c) and she suggested I call (b)(6), (b)(7)(c) on his cell phone (b)(6), (b)(7)(c). I called (b)(6), (b)(7)(c) on his cell phone and left a message for him to return my call. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. On June 2, 2013, (b)(6), (b)(7)(c) returned my call and stated he planted West Breed (WB) 528 winter wheat in (b)(6), (b)(7)(c). He also planted Rod type wheat approximately (b)(6), (b)(7)(c) ago. He has not purchased or planted Coda Club or any type of Club winter wheat. He grows small project fields of (b)(6), (b)(7)(c) every year. The soybeans are glyphosate resistant type. He also grows field seed (b)(6), (b)(7)(c) for (b)(4). He does not grow (b)(6), (b)(7)(c) He purchases his seed from (b)(4) located at (b)(4) phone (b)(4), and signs an affidavit stating he will not keep or replant the harvested wheat seed/grain.

4. (b)(6), (b)(7)(c) does not store harvested wheat seed/grain on his farm. Due to (b)(4) not purchasing left over custom mix seed, on occasion, he will store the left over seed in a clean steal bin. He rotates his crops. He grows wheat for two years and works the chaff back into the ground after each harvest. On the third year he will plant legumes (garbanzos). (b)(6), (b)(7)(c) picks up the wheat seed in bulk using his ten wheeler truck/trailer, picking up approximately 32,000 pounds of seed on one trip. He cleans the trailer out after each use.

5. (b)(6), (b)(7)(c) does all dry land farming except for the field corn belonging to (b)(4) He stated he practices a hybrid type of fallowing. He treats the land with fertilizer and tills it. He uses

Round Up (glyphosate) to control the low level grasses and another brand of herbicide for broad leaf weed (b)(6), (b)(7)(c). He sprays the ground in early spring and in July. He mixes the herbicide with potable water and uses ten fluid gallons per acre. He has not had problems with volunteer wheat. To prevent contamination between crops, (b)(6), (b)(7)(c) cleans his equipment in the field when needed and after every harvest using a dry method of cleaning such as air blowing and vacuuming. He vacuums and/or blows off the drill after each use and after changing seed varieties or types.

6. He owns his own equipment. He does not loan his equipment out nor does he hire other equipment to help with the planting and harvesting. (b)(6), (b)(7)(c), farms land belonging to (b)(6), (b)(7)(c) helps with the planting and harvesting of his crops and will bring his equipment over as needed. (b)(6), (b)(7)(c)

7. (b)(6), (b)(7)(c) sells his wheat grain to (b)(4). He does not keep wheat samples from planting or harvesting and stated (b)(4) keeps the samples and (b)(6), (b)(7)(c) them to the United States Department of Agriculture (USDA). (b)(6), (b)(7)(c) hauls the harvested grain to the (b)(4) terminal located on the (b)(6), (b)(7)(c)

8. (b)(6), (b)(7)(c) is not aware of any growers having problem with volunteer wheat. He explained that all fields have the possibility of contamination due to wind and other factors. He was unaware Monsanto had a wheat farm trial in the Walla Walla, WA area. He does not have test plots on his land, but is aware of test plots in the area and stated (b)(4) has wheat test plots in the Walla Walla area that he is interested in.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was made on June 2, 2012. (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Investigator

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

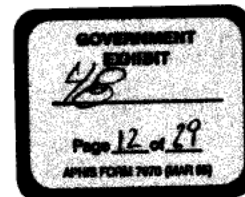

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 3, 2013, I traveled to (b)(6), (b)(7)(c) phone (b)(6), (b)(7)(c), and spoke to (b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c), (b)(6), (b)(7)(c) handles all of the farming, but was unable to provide me with his (b)(6), (b)(7)(c) contact information. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. On June 3, 2013, after speaking to (b)(6), (b)(7)(c), I called (b)(6), (b)(7)(c) and he answered the phone. He provided his residence address, (b)(6), (b)(7)(c). He was not at home and agreed to my interviewing him over the phone. (b)(6), (b)(7)(c) stated he planted West Bred (WB) 528 winter wheat and Rod type winter wheat during (b)(6), (b)(7)(c). He did not purchase or plant Coda Club or any type of Club winter wheat. He does not grow (b)(6), (b)(7)(c). He purchases his wheat seed from (b)(4), (b)(4) located at (b)(4), (b)(4); phone (b)(4), and signs an affidavit stating he will not keep or replant the harvested wheat seed/grain. He does not know the origin of the seeds (b)(4) sells to him.

4. He purchases his wheat seed in bulk and transports it himself in his own trailer. He cleans the trailer by sweeping and blowing it out. He was unable to provide seed tags. He dry farms and explained he chem fallows in the fall and does not spray for weeds in the spring. When he chem fallows, he treats the ground with RT-3/Roundup (glyphosate) herbicide, made by Monsanto, using a ground sprayer. He mixes the herbicide with tap water and sometimes included additives, but did not state what kind. He sprays in the fall around September. He has not had problems with volunteer wheat living after spraying with the glyphosate. If he has tough to kill weeds, he will add something extra to help kill them. He was unable to remember the name of the additional product. He has not heard of any of the other growers having problems with volunteer wheat surviving after glyphosate applications, or any other herbicide treatments.

5. (b)(6), (b)(7)(c) purchases his herbicides (b)(6), (b)(7)(c). He cleans his sprayer, by washing and flushing the booms and filters, between and after applications and before starting another field. If he is using the same chemical for more than one field, he will not clean

the sprayer prior to spraying another crop/field. He does all of his own farming and owns all of his farming equipment. On occasion, he will hire additional help in the Fall or rent a drill to use on certain acreage. He uses the drill until the field is finished. He has his own drill and cleans it between crops by blowing it off with high air pressure. After harvesting the wheat grain, he normally burns or plows the straw under. Last year he baled and sold some of the straw. He believes it was used for animal bedding. He does not store the harvested wheat seed/grain on his farm and does not keep any of the grain for replanting.

6. (b)(6), (b)(7)(c) cleans his equipment prior to harvesting and between planting different varieties of wheat by blowing the tanks out and cleaning off the chaff. At the end of the season he does a thorough cleaning of his equipment. He does not use his drill on other fields and does not loan his drill or any of his equipment out, but used his drill at his (b)(6), (b)(7)(c), place (b)(6), (b)(7)(c) to plant seed the last couple of years. All of the (b)(6), (b)(7)(c)

(b)(4) He does not store any of the harvested grain on his farm and does not hold seed over to plant the following year. He does not keep samples of the wheat seed or samples of the wheat grain when he harvests.

7. (b)(6), (b)(7)(c) has seen test plots in the area, but is unaware of what crops they are testing. He has test plots on his farm consisting of grain and dry peas. The test plots belong to CPS. (b)(6), (b)(7)(c) believes he heard about the Monsanto wheat farm trial, in the Walla Walla, WA area, but believes it was a long time ago. (b)(6), (b)(7)(c) stated (b)(6), (b)(7)(c) and (b)(6), (b)(7)(c). They have their own farms and are not in business with each other.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)
(b)(6), (b)(7)(c)
(b)(6), (b)(7)(c)

Investigator

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c).

2. On May 31, 2013, I traveled to the residence of (b)(6), (b)(7)(c), located at (b)(6), (b)(7)(c) phone (b)(6), (b)(7)(c). No one was home. I left my card with a note asking (b)(6), (b)(7)(c) to please call me. At approximately 12:20 p.m., (b)(6), (b)(7)(c) returned my call and informed me (b)(6), (b)(7)(c) provided me with (b)(6), (b)(7)(c) cell phone number (b)(6), (b)(7)(c) and suggested I call and leave a message for him. (b)(6), (b)(7)(c) answered his cell phone and asked me to contact him on Monday (June 3, 2013). The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his field were harvested.

3. On June 3, 2013, I called (b)(6), (b)(7)(c) number and (b)(6), (b)(7)(c) answered. She stated (b)(6), (b)(7)(c) was out in the field and suggested I speak to her (b)(6), (b)(7)(c) who handles (b)(6), (b)(7)(c) all of the office and paperwork. She provided me with his cell phone number (b)(6), (b)(7)(c). At 9:49 a.m. (b)(6), (b)(7)(c) called me on my cell phone. He stated he was the (b)(6), (b)(7)(c)

He explained (b)(6), (b)(7)(c)

4. (b)(6), (b)(7)(c) stated he spends 30% of his time in the office and 70% of his time, on the tractor, working in the fields. He believed they planted West Bred (b)(4) winter wheat in (b)(6), (b)(7)(c). He believes they have planted Rod type wheat also. They have not purchased or planted Coda Club or any type of Club winter wheat. He explained they plant different varieties of wheat each year.

He does not grow soybeans, corn or sugar beets, but does grow canola. He purchases his wheat seed from (b) (4) (b) (4) located at (b) (4); phone (b) (4), and signs an affidavit stating he will not keep or replant the harvested wheat seed/grain. He stated all of the Clearfield variety of wheat requires them to sign documents stating they will not replant. He felt they had to sign more paperwork this year than in the previous years. He does not remember if he kept a copy of all the documents.

5. (b)(6), (b)(7)(c)

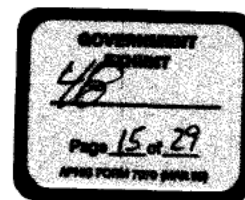

(b)(6), (b)(7)(c) He was unable to provide a copy of the seed tags. Prior to transporting the seeds, he cleans the grain box (on the truck) with a pressure washer. The farm utilizes both the chem fallow and summer fallow methods. The chem fallowed ground is treated with RT-3 Roundup (glyphosate) herbicide, made by Monsanto, via ground pulse sprayer, once in the spring. He then cultivates the land, later adding fertilizer and then tills. He has not had problems with volunteer wheat living after spraying with the glyphosate. He stated they sprayed the wheat today and it worked great. On occasion he has problems with weeds not drying, but not the wheat.

6. (b)(6), (b)(7) purchases his herbicides from (b)(6), (b)(7)(c)

(b)(6), (b)(7) He mixes the herbicide with well water and sometimes adds fertilizer, Solution 32 (1/2 gallon to 100 gallons). His sprayer is cleaned when they change from spraying the glyphosate to another product. He stated they do all their own farming and own most of their farming equipment. They lease three combines each year and use them all season. The equipment is cleaned off with a large commercial blower each night. After harvesting the wheat grain, the straw is baled by a custom hay company and hauled away. (b)(6), (b)(7) does not store the harvested wheat seed/grain on his farm and has not kept any grain, for replanting, for over five years.

7. He does not use his drills for other fields or loan them to other growers. He uses a separate drill for the canola. He does not loan his equipment out nor lease his land out. He has not heard any of the other growers having problems with volunteer wheat surviving after glyphosate applications or any other herbicide treatments. He farms his own land and leases additional farm land. He has been operating in this same fashion for over ten years. Prior to dry farming, they used to plow.

8. After harvesting, he hauls the wheat grain to (b)(6), (b)(7)(c), belonging to (b) (4) or the (b)(6), (b)(7)(c). He does not store any of the harvested grain on his farm and does not hold seed over to plant the following year. He does not keep samples of the wheat seed or samples of the wheat grain when he harvests. There are no test

plots on his farm. He has seen a (b)(6), (b)(7)() sign for test plots in the area, but is unaware of what crops they are testing. Approximately five years ago he had a barely test crop on his farm. (b)(6) was unaware Monsanto had a wheat farm trial in the Walla Walla, WA area. (b)(6) was unable to meet with me due to working in the field.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 3, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)

Investigator

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c).

2. On June 1, 2013, I traveled to (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c), phone (b)(6), (b)(7)(c), and owned by (b)(6), (b)(7)(c). The address was a large field of wheat. I called (b)(6), (b)(7)(c) and left a message for him to please call me. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate herbicide on his wheat and if he experienced any failure in the effectiveness of the glyphosate when using it to control volunteer winter wheat after his fields are harvested. On June 3, 2013, I called (b)(6), (b)(7)(c) and made contact. After introducing myself, (b)(6), (b)(7)(c) he was busy and asked me to call him back in thirty minutes. When I called back, he did not answer. I left a message for him to please call me back. On June 5, 2013, I called and left (b)(6), (b)(7)(c) another message to please call me. At approximately 12:30 p.m., (b)(6), (b)(7)(c) returned my (b)(6), (b)(7)(c).

3. (b)(6), (b)(7)(c) was working in the fields, but agreed to an interview over the phone. (b)(6), (b)(7)(c) planted West Bred (WB) 528 winter wheat from 2010-2012. He planted Rod approximately eight or nine years ago, but not recently. He has not planted Coda Club or any Club type winter wheat. He does not grow soybeans, corn or sugar beets. He purchases his wheat seed from (b)(4). (b)(4). He does not know the origin of the seed sold to him by (b)(4) but believes (b)(6), (b)(7)(c), (b)(4) would know where the seed originated from.

4. (b)(6), (b)(7)(c) buys his wheat seed in bulk. He does not have any of the seed tags. He uses his own truck to pick up the seed and cleans it with high powered air blower prior to picking up other types of seed. Seventy percent of his wheat is grown on dry land farm ground. The wheat is an annual crop and he rotates his wheat crop with peas. He does not till the ground. He uses a ground sprayer to spray Round Up (glyphosate) on his wheat fields two to three times a year, but has sprayed his crops by

air on occasion. He does not mix anything with the Round Up, except well water, and, on occasion, adds Sharpen depending on the weed types he wants to (b) (6). He has not experienced any problems with the glyphosate killing volunteer wheat, but stated if it rains thirty minutes after spraying he will have to re-spray. He rinses his sprayer clean with water if he will be using the same product again. He will sterilize the sprayer with a sanitizer (Aqua Ammonia) if changing to a different herbicide. He noticed, in the past ten years, Round Up is not as effective, estimating it to be about 98% effective. He sprays his fields with glyphosate in early Fall and, if there is a lot of rain, he will re-spray in October or November. He re-sprays in February or March. He purchases his herbicide at (b)(6), (b)(7)(c)

5. (b)(6), (b)(7) does all of his own farming and uses and owns all of his farming equipment.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) He does not loan his equipment or drill to other growers nor uses his equipment or drill on any other fields. No other growers have used his (b) (6). He cleans out his drill between crops using forced air. He cleans his equipment off after every field using forced air and hand wiping off the dirt and chaff. He sells his wheat grain to (b)(4), (b)(6), (b)(7)(c)

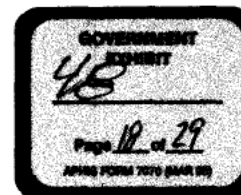

(b)(6), (b)(7)(c) and (b) (4) After harvesting, he bales the straw or leaves it in the field. He does not keep any of the grain for replanting. He does not keep any wheat samples from planting or harvesting. (b) (4) takes and keeps samples of the wheat grain.

6. (b)(6), (b)(7) is not aware of any growers having problems killing volunteer wheat, other than the recent incident he heard about on the news. He does not have test plots on his farm. He is aware of test plots in the area and believes they belong to (b) (4) and believes they are wheat plots of newer crop. He has never had test plots on his farm. He stated he knew about the Monsanto wheat farm trial, but was too busy to do much research about it. He did not know where or when Monsanto's wheat farm trial was.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 4, 2013

(b)(6), (b)(7)(c)

(b)(6), (b) (b)(6), Investigator
(b)(7)() (b)(7)()

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c) My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 1, 2013, I traveled to (b)(6), (b)(7)(c) (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c), and owned by (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I left my card in the mailbox with a message to please call me. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding his use of glyphosate herbicide on his wheat and if he experienced any failure in the effectiveness of the glyphosate when using it to control volunteer winter wheat after his fields were harvested.

3. On June 3, 2013, (b)(6), (b)(7)(c) returned my call and agreed to a phone (b)(6), (b)(7)(c) He stated he planted West Bred (WB) 528 winter wheat from (b)(6), (b)(7)(c) He did not plant Rod, or Coda Club, but believes he has planted a Club type winter wheat. He does not grow soybeans or sugar beets, but, for the past three years, grows (b)(6), (b)(7)(c) for (b)(4) (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) He purchases his wheat seed from (b)(4) (b)(4)

4. (b)(6), (b)(7)(b)(6), (b)(7)(c) The only additional address is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) does all dry land farming and rotates his wheat crops with legume (garbanzo) and peas. He has 3 drills and cleans his drills out good between crops. A different drill is used to plant the corn, for Pioneer, and they inspect it prior to use and after seeding each plot. The (b)(6), (b)(7)(c) is grown on one acre plots and they check everything. He does not use his drill on farms other than his. No other grower uses his drill. He primarily buys the wheat seed in bulk, but on occasion he will pick up a few bags of seed when needed to complete a field. If he does not use all of his seed during planting he will keep it on his farm. Normally there is less than one thousand pounds of seed left over. He does not have any of the seed bag tags.

5. He uses his own truck to pick up the seed and cleans it with high powered air and vacuum prior to picking up other load of seed. He doubts this method is 100% effective and stated he does not raise certified seed. He chemical fallows and summer fallows. He uses Round Up (glyphosate), and other brands, containing glyphosate and, on occasion, will add Sharpen to the glyphosate. He believes the Sharpen provides better and longer weed control (broad leaves and grasses) between herbicidal treatments. He mixes 64 oz. per 10 gallons of tap water for heavy weeds and 16 oz. per 10 gallons of tap water for light weeds. He sprays his fields one time in Spring (March-May) and one time in the summer. He will spot spray for California Thistles when needed. He purchases his herbicide from (b)(6), (b)(7)(c). (b)(4) provides the herbicides for their corn plots, and he uses a different sprayer, which (b)(4) inspects prior to spraying. He has not experienced any problems with the glyphosate not killing the volunteer wheat.

6. (b)(6), (b)(7) does all of his own farming and has been operating in the same way since the (b)(6), (b)(7)(c). He does (b)(6), (b)(7)(c). He owns all of his equipment. On occasion, during spraying and seeding, he may rent (custom hire) equipment and help. During planting, he keeps his equipment clean by doing a quick cleaning between farms and a good cleaning between crops. He does not do a thorough cleaning when he goes from one of his wheat crops to the other. After harvesting he incorporates the straw back into the soil or, on occasion, he will burn the straw. He sells his wheat grain to (b)(4) hauling it to the nearest (b)(4) elevator. He does not keep wheat samples from planting or harvesting.

7. (b)(6), (b)(7) is not aware of any growers having problem killing volunteer wheat. He was aware of the wheat farm trial, done by Monsanto, but was unaware of where in the (b)(4) WA area the trial was held, and stating it was not done on his place. (b)(6), (b)(7) has a lot of test plots on his farm. They belong to (b)(4) and (b)(6), (b)(7). Some are dry ground some are irrigation. The plots are under their ((b)(4) and (b)(6), (b)(7)) (b)(6), (b)(7)(c). He believes the plots consist of wheat and barley.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was made by me on June 4, 2012.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)

Investigator

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

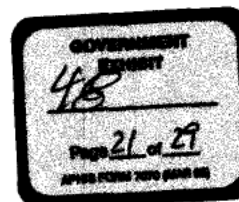

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c) My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop 3W10, Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 3, 2013, I contacted (b)(6), (b)(7)(c), by phone, to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after his fields are harvested. (b)(6), (b)(7)(c) is (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c) His contact number is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) was at his office in Seattle when I made contact with him he agreed an interview over the phone. (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) stated he hires people to plant and harvest his wheat, but is involved in the selection of the wheat seed, signing documents and what type of herbicide used.

3. He stated he hired custom farmers (b)(6), (b)(7)(c), to plant and harvest his wheat for the past couple of years. They provide the tractors, drills, shank, anhydrous trucks and mechanic trucks. He pays by acre of planting. During harvesting, they provide five combines, water trucks and fuel trucks. From (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) planted a 50/50 mix of West Bred (WB) 528 winter wheat and Rod type winter wheat. He did not purchase or plant Coda Club or any type of Club winter wheat. He does not grow soybeans, corn or sugar beets. He purchases his wheat seed from (b)(4) (b)(4); phone (b)(4) (b)(4), and signs an affidavit stating he will not keep or replant the harvested wheat seed/grain. He does not know the origin of the seeds (b)(4) sells to him.

4. He purchases his wheat seed in bulk and it is transported by seed truck to his farm. He (b)(6) on the owners of the truck to keep it clean. He was unable to provide receipts or seed tags, but (b)(6)

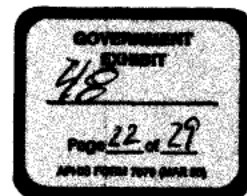

believed he had documents in his files regarding his wheat seed purchases. He dry farms and plants continuously. He chemical fallows and uses RT-3/Roundup (glyphosate) herbicide, made by Monsanto, and (b)(6), (b)(7) it using a ground sprayer. Sometimes he will use a broad leaf herbicide if the glyphosate does not kill all of the weeds. He stated no single chemical (herbicide) will kill all weeds. He described one incident in 2012, where he planted wheat and, after the wheat was growing, he noticed too much additional green matter (weeds) growing with the wheat. He sprayed the entire field with glyphosate, killing all of the wheat and most of the additional weeds/green matter, then replanted the wheat.

5. (b)(6), (b)(7) also planted ORCF-102 (soft white winter wheat) seed, during the planting season before 2012. He stated ORCF- 102 seed has an enzyme which resists certain herbicides, such as the herbicide "Beyond". He said he was able to kill weeds and, what he described as herbicide resistant, grass, using the Beyond, and the ORCF-102 wheat continued to grow. He believes ORCF- 102 is somewhat resistant to glyphosate. (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c). It is the second (ORCF 101, released in 2003), in a possible series, wheat variety which carry a single gene for tolerance to the herbicide Beyond (made by Clearfield Production System). Beyond herbicide helps control tough grass, broadleaf weeds and feral rye. The active ingredient in Beyond is Ammonium salt of imazamox.

6. (b)(6), (b)(7) is not aware of what type of water is mixed with the herbicide. The custom farmer he hires has a water truck; he also has a well on his property. He believes they include an additive, which helps the herbicide stick to the plants, but was not aware of the name of the product or how much is used. He is not aware if the sprayer is used for other chemicals/herbicides prior to them spraying his fields, but believes they clean out their sprayer when they change chemicals. He has not been informed of problems with volunteer wheat living after spraying with the glyphosate. He has not heard of any of the other growers having problems with volunteer wheat surviving after glyphosate applications, or any other herbicide treatments.

7. After harvesting the wheat grain, he normally burns, bales or seeds through the (b)(6), (b)(7). He sells all of his wheat grain to (b)(4). He does not store the harvested wheat seed/grain on his farm and does not keep any of the grain for replanting. He stated, when purchasing his wheat seed (WB528 and ORCF-102), (b)(4) would not load the seed until they obtained a signature agreeing you will not keep or replant the seed. The harvested wheat grain is hauled to the (b)(4) elevators in Walla Walla, WA. He does not keep samples of the wheat seed or samples of the wheat grain when he harvests. He returns any leftover seed to (b)(4).

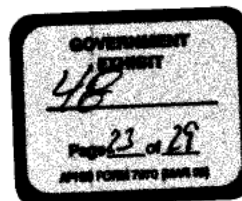

8. (b)(6), (b)(7)(c). There are no test plots on (b)(6), (b)(7)(c). He is unaware of any test plots in the area and he has not had test plots on his farm. He is unaware of the Monsanto wheat farm trial conducted in the (b) (4), WA area.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 4, 2013

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)

investigator

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(c) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c)

2. On June 4, 2013, I traveled to (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c). I received no response from my knock on the door. I left my card on the door with a message to please call me. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding their use of glyphosate herbicide, and if they experienced any failure in the effectiveness of the glyphosate when using it to control volunteer winter wheat after the fields were harvested.

3. Upon returning to my vehicle, I searched the internet for a phone number for (b)(6), (b)(7)(c), after finding one, I called and spoke to (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated she did not wish to speak to me and hung up. Approximately thirty minutes later, on June 4, 2013, (b)(6), (b)(7)(c) called me. He explained (b)(6), (b)(7)(c) she is unaware of the details pertaining to the business. (b)(6), (b)(7)(c) stated a USDA investigator interviewed him a few days ago regarding his other business, (b)(6), (b)(7)(c), located at (b)(6), (b)(7)(c) was unable to remember the investigators name. (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) All of the information in this declaration pertains to (b)(6), (b)(7)(c)

4. (b)(6), (b)(7)(c) stated he planted West Bred (WB) 528 winter wheat in (b)(6), (b)(7)(c). He remembers planting Rod winter wheat, but believes it was seven or eight years ago. He did not plant Coda Club, or any Club type winter wheat. He does not grow soybeans, corn or sugar beets. He purchased the wheat seed from (b)(4), (b)(4) located at (b)(4), phone (b)(4). He is not aware of the origin of the wheat seed. (b)(6), (b)(7)(c) purchases his seed in bulk and transports it in his own truck. He uses an air hose to clean out his truck. He does not have any of the seed tags, due to throwing them away.

5. (b)(6), (b)(7)(c) dry land farms and chemical and summer fallows. He has approximately (b)(6), (b)(7)(c) and the wheat is planted on half and half is left fallow, rotating each planting season. (b)(6), (b)(7)(c) cleans his drill out with an air hose, and sometimes vacuums, after each variety change. He does not use his drill on other fields. Other growers do not use his drill. If he does not use all of his seed during planting he will keep it on his farm for use the following year. Normally there are no more than a couple bushels left over. He uses Round Up (glyphosate), made by Monsanto, to kill weeds and volunteer wheat. In the past couple of years, he has used a generic brand of herbicide, containing glyphosate, because it was cheaper. He most recently used Round Up on his fields.

6. (b)(6), (b)(7)(c) adds fertilizer (ammonium sulfate), a surfactant material (helps absorption), well water and glyphosate in the sprayer. He purchases the glyphosate, surfactant and fertilizer from

(b)(6), (b)(7) He uses a ground sprayer and treats his fields mid to late spring and late (b) The chemical fallow fields get an additional treatment in early summer (right about now). He cleans out his sprayer after each change of herbicide and pesticide use by hosing out the sprayer and booms with fresh water. (b)(6), (b) has not experienced any problems with the glyphosate not killing the volunteer wheat. On (7)(c) occasion, when it rains right after spraying, the last section might have left over weeds due to the rain washing the herbicide off.

7. After harvesting, (b)(6), (b) sells his wheat grain to (b) (4) He hauls the wheat grain, using his own trucks, to the (b)(6), (b) WA or the (b)(6), WA grain elevators. He does not keep any of the harvested wheat grain for replanting. He does all of his own farming and uses all of his own equipment. He has been farming in this manner for approximately ten years. After harvesting, he mows the straw down or lets it sit through the summer than works it back into the ground. He cleans his equipment by blowing with an air hose, or vacuuming, prior to changing varieties. He does not keep samples of the seed he plants or samples of the wheat grain he harvests. He stated (b) (4) keeps samples, but he is not aware of how long they keep the samples.

8. (b)(6), (b) (b)(6), (b)(7)(c) The wheat he grows on (b)(6), (b)(7)(c) is WB102 (hard red wheat). He is not aware of any growers having problem killing volunteer wheat, but stated he heard on the news a farmer in the area had problems with volunteer wheat. There are no test plots on (b)(6), (b)(7)(c) has seen signs in the area identifying test plots, planted by (b) (4) and believes the plots are of wheat. He is unaware of the wheat farm trial, done by Monsanto, in the (b)(6), (b)(7) , WA area.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 4, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c)

Investigator

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

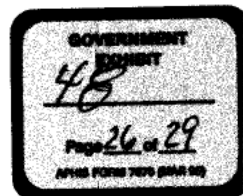

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(c). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop 3W10, Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(c).

2. On June 5, 2013, I traveled to (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c); phone (b)(6), (b)(7)(c). The mailing address is (b)(6), (b)(7)(c). I was unable to find the house, due to lack of signs and roads, and pulled over and called on my cell phone. The purpose of my contacting (b)(6), (b)(7)(c) was to obtain information regarding their use of glyphosate herbicide, and if they experienced any failure in the effectiveness of the glyphosate when using it to control volunteer winter wheat after they harvested their fields.

3. (b)(6), (b)(7)(c) answered the phone and stated (b)(6), (b)(7)(c), was not home. She stated he was out irrigating and would not be home until after dark. She provided me directions to her residence, (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) provided me with (b)(6), (b)(7)(c) cell phone number (b)(6), (b)(7)(c) and suggested I leave a message for him. I called (b)(6), (b)(7)(c) number and he answered his phone. He stated he was on a tractor, but agreed to my interviewing him over the phone. (b)(6), (b)(7)(c) stated he planted West Bred (WB) 528 winter wheat in (b)(6), (b)(7)(c). He has not planted Rod, Coda Club, or any Club type winter wheat. He does not grow (b)(6), (b)(7)(c), but planted (b)(6), (b)(7)(c) this year and approximately (b)(6), (b)(7)(c) ago. (b)(4) has (b)(4) planted on his farm also. (b)(4) takes care of their (b)(4) he only prepares the field and provides water.

4. (b)(6), (b)(7)(c) purchases his wheat seed from (b)(4) ((b)(4)) located at (b)(4) phone (b)(4). He is not aware of the origin of the wheat seed. (b)(6), (b)(7)(c) purchases his seed in bulk and transports it in his own truck. He uses a water under pressure to clean out his truck. He does not have any of the seed tags. (b)(6), (b)(7)(c) dry land farms and rotates crops each year, planting (b)(6), (b)(7)(c). He owns two sets of drills and cleans them with an air hose after each seed or variety change. Sometimes he will rent an additional drill to

plant peas and soybeans. Last year he rented a drill to plant soybeans which he cleaned out prior to returning it. The soybeans were the Round Up Ready type (resistant to glyphosate). He does not use his drill on other fields. Other growers do not use his drill. He uses a variety of herbicides depending on the type of weeds he needs to kill. He purchases the herbicides Husky, Osprey, and Star Rain from (b)(6), (b)(7). He uses Round Up (glyphosate), made by Monsanto, on the wheat fields to kill volunteer wheat and weeds.

5. After harvesting the wheat, he uses a ground sprayer to apply Round Up. If there is a lot of rain in the fall, he will spray the wheat field again with Round Up. He cleans out his sprayer after each change of herbicide using high pressure water. (b)(6), (b)(7) has not experienced any problems with the glyphosate not killing the volunteer wheat. He is not aware of any growers having problem killing volunteer wheat.

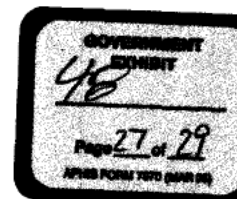

6. After harvesting, (b)(6), (b)(7) sells his wheat grain to (b)(4). He hauls the wheat grain, in his own trucks, to the closest (b)(4) grain elevator. He does not keep seed on his farm for use the following year. He does not keep any of the harvested wheat grain for replanting. He does all of his own farming and uses all of his own equipment. He has been farming in this manner since (b)(6), (b)(7). After harvesting, the straw is disk harrowed into the ground, including his irrigated fields. He does not burn or bale the straw. He cleans his equipment by using a high pressure spray prior to changing varieties. He does not keep samples of the seed he plants or samples of the wheat grain he harvests.

7. (b)(6), (b)(7) farms (b)(6), (b)(7)(c). There are no test plots on his farm. (b)(6), (b)(7) is aware of test plots in the area and believe (b)(4) is responsible for the test plots. He believes the test plots are variety trials and not chemical trials. He is unaware of the wheat farm trial done by Monsanto, in the (b)(6), (b)(7), WA area.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 5, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) Investigator
(b)(7)() (b)(7)()

DECLARATION OF (b)(6), (b)(7)(C) (b)(6), (b)(7)(C)

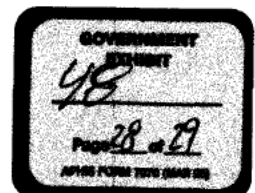

I declare that my name is (b)(6), (b)(7)(C) (b)(6), (b)(7)(C). I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein are based on my personal firsthand knowledge:

1. I am an Investigator employed by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), Investigative & Enforcement Services (IES). I have been employed in this position since (b)(6), (b)(7)(C). My regional work address is USDA, APHIS, IES, 2150 Centre Ave. Building B, Mailstop (b)(6), (b)(7)(C) Ft. Collins, CO 80526 My contact phone number is (b)(6), (b)(7)(C).

2. On June 1, 2013, I traveled to (b)(6), (b)(7)(C), phone (b)(6), (b)(7)(C) and spoke to (b)(6), (b)(7)(C). She stated (b)(6), (b)(7)(C) was at work and he is the best person to speak to regarding the wheat. She stated they just moved to the property and this is the first crop of wheat planted. She provided me with (b)(6), (b)(7)(C) cell phone number (b)(6), (b)(7)(C). The purpose of my contacting (b)(6), (b)(7)(C) was to obtain information regarding his use of glyphosate products and if he experienced any failure in the effectiveness of glyphosate products when using them to control volunteer winter wheat after harvesting his fields.

3. On June 3, 2013, I called (b)(6), (b)(7)(C). He was at work, but agreed to an interview over the phone. (b)(6), (b)(7)(C) was unaware of what type of wheat is planted on (b)(6), (b)(7)(C). He was unaware what type herbicides used on his field. (b)(6), (b)(7)(C) hired (b)(6), (b)(7)(C), phone (b)(6), (b)(7)(C) to plant the wheat. He just signed the papers and paid the fees. (b)(6), (b)(7)(C). He wants to turn the (b)(6), (b)(7)(C) into pasture, but, due to all of the weeds, he was unable to grow the type of grass he wanted. He believes the (b)(6), (b)(7)(C) has been growing weeds for approximately twenty years and that planting wheat for a couple of years will eliminate the majority of the weeds. (b)(6), (b)(7)(C) stated he would contact (b)(6), (b)(7)(C) and have him call me. (b)(6), (b)(7)(C) does not store wheat seed on his farm. There are no test plots on (b)(6), (b)(7)(C) farm. He is not aware of test plots in the area. He was not aware Monsanto had a wheat farm trial, in the (b)(6), (b)(7)(C) WA area.

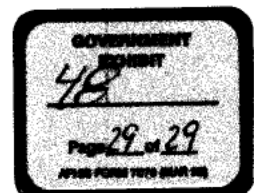

4. On June 5, 2013, (b)(6), (b)(7)(C) called me, via (b)(6), (b)(7)(C) 3, regarding (b)(6), (b)(7)(C) wheat field. (b)(6), (b)(7)(C) stated (b)(6), (b)(7)(C) (USDA, APHIS, IES Investigator) contacted him a few days ago regarding his wheat field. (b)(6), (b)(7)(C) was unable to remember what type of wheat he planted in (b)(6), (b)(7)(C) field, but believes it is white wheat. The wheat seed was left over from the seed he used to plant his fields. He did not clean his drill when he left his fields to plant (b)(6), (b)(7)(C) field. (b)(6), (b)(7)(C) field was full of foxtails, star thistles and cheat grass. Prior to planting the wheat, he disked the field and sprayed Round Up (glyphosate) than planted the wheat. He also used, Harmony, a broad leaf herbicide. In Spring, he sprayed the field with fertilizer. He used a ground sprayer to apply the herbicides. He did not see any volunteer wheat in (b)(6), (b)(7)(C) field. He has not re-used glyphosate, since the wheat is still growing. There are no soybeans, corn or sugar beets planted on (b)(6), (b)(7)(C) farm. (b)(6), (b)(7)(C) purchases his wheat seed from (b)(4), (b)(4), phone (b)(6), (b)(7)(C).

5. The wheat is still growing. There is no information regarding harvesting, selling or transporting the wheat grain. (b)(6), (b)(7)(c) believes (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) phone number (b)(6), (b)(7)(c)) will harvest (b)(6), (b)(7)(c) wheat.

I declare that the foregoing statement is true and correct to the best of my knowledge and this declaration was executed by me on June 6, 2012 (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) Investigator

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 4, 2013 I attempted to contact (b)(6), (b)(7)(c) answered the door and stated that (b)(6), (b)(7) was in the field spraying and wouldn't be back until later. When asked (b)(6), (b)(7)(c) stated that she knew (b)(6), (b)(7)(c) that she did not know his address as he had just moved. She further stated that (b) could give me all of the information I needed and told me to contact him at (b)(6), (b)(7)(c)

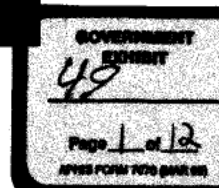

I contacted (b)(6), (b)(7)(c) at approximately 11:57 on 6/04/13. (b) stated that he was informed that he should not talk to anyone without his lawyer present. However, he did state that (b)(6), (b)(7)(c) that they grow soft white and hard red wheat. Furthermore, they have never had a problem and treat their fields with 32 ounces of roundup per acre. (b) also stated that he did not think there was a problem with the seed and believed that the issue (b) with the farmer not using enough herbicide or using it improperly. (6)

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/4/2013.

(b)(6), (b)(7)(c)

DECLARATION

I declare that my name is (b)(6), (b)(7)(c) I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 4, 2013 I interviewed (b)(6), (b)(7)(c) located at (b)(6), (b)(7)(c) can be contacted at (b)(6), (b)(7)(c) can be contacted at (b)(6), (b)(7)(c)

(b)(6), stated that he uses two (b)(6), (b)(7)(c) of the (b)(6), (b)(7)(c) both of which are located in (b)(6), (b)(7)(c), Washington. (b)(6), stated that they have not experienced any problems with Wheat volunteers or glyphosate resistance.

(b)(6), (b)(7) stated that in the past four years they have planted ORCF102, AP700, Ovation, Skiles, WB528, Stevens, Tubs, Nick, Louise, Rockland (DNS), Trifecta WB, Norwest 553, DNS Express, and DNS Express + O. All of the seeds were purchased in bulk from (b)(6), (b)(7)(c) (b)(4). All of the grain was picked up by the (b)(6), (b)(7)(c) with the exception of the seeds from Simplot which were delivered. In addition to the Wheat (b)(6), said they also grow non GMO Corn. (b)(7)(c)

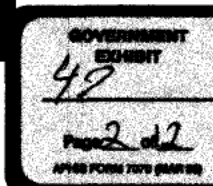

In regards to planting they have utilize both dry-land and irrigated fields. The drills are not always cleaned after planting crops and between fields and when cleaned it is blown clean using compressed air. The fields are used year round and receive approximately 28 ounces of Roundup per acre in August by ground spraying and a mixture of generally Husky and Osprey in late March or April when the Wheat is approximately 10 inches. When harvested the chaff is left on the ground in the field and we transport our Wheat to the elevator.

However, they also utilize other herbicides including but not limited to Beyond, Affinity Broadspec, Powerflex, Olympus, Clarity and Peak. Moreover, they add water and either M90 or Activate +. All of the herbicides and surfactants are purchased at either the (b)(6), (b)(7)(c) and are blended according to the consultant's recommendations while ensuring they are within the label's guidelines. The sprayers are

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/5/2013.

(b)(6), (b)(7)(c)

OR120018_BR_001962

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

used to disperse other herbicides but are rinsed with Aqua Ammonia at the rate of 1 gallon per 100 gallons of water.

All of the grain is sold to (b)(4) with the exception of a small amount of Skiles which is kept at the farm for replanting. All of the farming is done by (b)(6), (b) and all of the machinery used is owned and operated by (b)(6), (b) personnel with the exception of a combine that is occasionally rented from (b)(6), (b)(7)(c) Idaho and tractors from (b)(6), (b)(7)(c), Oregon.

We currently have two test plots on our premises. The first test plot is located at (b)(6), (b)(7)(c) and the field trial is being conducted by (b)(4) from (b)(4). A packet of additional information was provided upon request to (b)(6), (b)(7)(c). We did not plant or combine the crop and do not know what was done with it.

The second test plot is located (b)(6), (b)(7)(c) and the field trial is being conducted by the (b)(4). A packet of additional information was provided upon request to Investigator (b)(6), (b)(7)(c). We did not plant or combine the crop and do not know what was done with it.

Last year we had a test plot at (b)(6), (b)(7)(c) and the field trial was being conducted by (b)(6), (b)(7)(c) from (b)(6), (b)(7)(c). However, at this time we do not have any additional information.

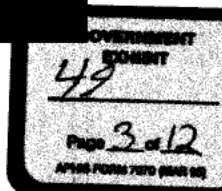

I also know of a test plot located approximately a half mile south of (b)(6), (b)(7)(c) but do not know who is doing the testing.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/5/2013.

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 4, 2013 I contacted (b)(6), (b)(7)(c) farms under the names (b)(6), (b)(7)(c) which are based at (b)(6), (b)(7)(c) and can be contacted at (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) farms on approximately (b)(6), (b)(7)(c) which he had his (b)(6), (b)(7)(c). He utilizes three different consultants but was not willing to provide names.

Over the last four years (b)(6), (b)(7)(c) has planted Trifecta, 102, 503, Hank, Espresso, and Jefferson. All of the seed was purchased in bulk through (b)(6), (b)(7)(c) and picked up by (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated that he has never had a problem with volunteers or herbicide resistant wheat. The chaff is worked back into the soil and the grain is sold to (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) said that they utilize a Chemfallow rotation using various herbicides including Roundup, glyphosphate, dicamba, and phenoxy. Furthermore, he adds well water and non-ionic surfactant 90. (b)(6), (b)(7)(c) said that he is a price shopper and purchases his herbicides and surfactants from a variety of different vendors. The herbicides are all applied approximately three times a year pre-plant between March and July by ground and aerial spraying.

All of the farming operations are done by (b)(6), (b)(7)(c). Drills and tillage tools are cleaned by pressure washing when switching classification of crop. Furthermore, the sprayer is cleaned out when changing herbicide utilizing a fresh water rinse.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/5/2013.

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 6, 2013 I attempted to contact (b)(6), (b)(7)(c). (b)(6), (b)(7) works for Oregon State University and I was contacting him to gain additional information into test plots that were located on (b)(6), (b)(7)(c) property. (b)(6), (b)(7) did not answer but called be back at around 2 pm (PST).

(b)(6), (b)(7) stated that the test plot they had at (b)(6), (b)(7)(c) this year and last year were fertilizer studies and while there were several species of wheat in the study none of them were genetically modified or enhanced.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/10/2013.

APHIS FORM 7070 (04/10/05)

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 10, 2013 I contacted (b)(6), (b)(7)(c) stated that he dry farms (b)(6), (b)(7)(c) of land that (b)(6), (b)(7)(c) uses (b)(6), (b)(7)(c) works for (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that he has had no problems with volunteers or with herbicide resistant wheat. (b)(6), (b)(7)(c) only grows wheat for grain. (b)(6), (b)(7)(c) has grown WB528, Trifecta, and Ovation. All of his seed is purchased in bulk from (b)(4) and picked up by (b)(6), (b)(7)(c) in a cleaned truck. Once harvested all of (b)(6), (b)(7)(c) grain is sold and delivered to (b)(4) in clean trucks.

(b)(6), (b)(7)(c) stated that he chem-fallows with Round Up, AMS, and Banvil or Sharpen. He chem-fallows in March or April by ground spraying. This past April, he sprayed a blend of 32 ounces of Round Up per acre with 1.28 ounces of Sharpen per acre at a speed of 7 miles per hour. (b)(6), (b)(7)(c) also sprayed the wheat with Husky when it was approximately 5 to 6 inches (b)(6), (b)(7)(c) purchases all of his herbicides from (b)(6), (b)(7)(c).

While (b)(6), (b)(7)(c) does all of his own farming and owns his own equipment he has gotten some outside help with spraying from (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) is operated by (b)(6), (b)(7)(c).

(b)(6), (b)(7)(c) that he cleans off his equipment with compressed air daily while harvesting and cleans it when dirty the rest of the time. However, he did state that he cleans his equipment in-between fields by compressed air and rinsing. Furthermore, he cleans out his herbicide sprayer through the use of a triple rinse feature it has.

When asked (b)(6), (b)(7)(c) stated that he believed that there was a test plot on the (b)(6), (b)(7)(c) property near the experimental station but did not know what types of studies were going on or if there was any wheat involved in the studies.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/10/2013.

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 10, 2013 I contacted (b)(6), (b)(7)(c) at (b)(6), (b)(7)(c) stated that he farms approximately (b)(6), (b)(7)(c). None of the land is (b)(6), (b)(7)(c) of it is summer fallowed annually. Furthermore, (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) stated that he has had no problems with volunteers or with herbicide resistant wheat. (b)(6), (b)(7)(c) only grows soft white wheat and has grown WB528, Clearfield 102, Tubbs, and Jefferson Spring wheat over the last four years. (b)(6), (b)(7)(c) purchases his seed in bulk from (b)(4) (b)(4) He picks up his own seed in cleaned trucks.

On the fields that (b)(6), (b)(7)(c) he uses Monsanto's RT3. (b)(6), (b)(7)(c) also uses the following herbicides: Roud Up, Gmax, Helfire, 240 SU, Maverick, Powerflex, Ally Extra 240D, and Husky which are mixed with tap water. Which are ground sprayed in April when the plants are between 6 and 8 inches (b)(6), (b)(7)(c) purchases his herbicides from (b)(4) (b)(6)

(b)(6), (b)(7)(c) grows mostly grain but does grow wheat seed on two of his fields. This seed is raised from registered seed and his fields are inspected by (b)(6), (b)(7)(c). The grain that (b)(6), (b)(7)(c) grows is sold to (b)(6), (b)(7)(c) (b)(4) delivers all of his own seed and grain in cleaned trucks.

(b)(6), (b)(7)(c) does all of his own farming and utilizes all of his own equipment (b)(6), (b)(7)(c). However, he does receive some assistance from (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) also stated that he is currently leasing (b)(6), (b)(7)(c) who is growing seed corn for th (b)(4)

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/10/2013.

| APR 2013 FORM 7075 (BUREAU) |

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 11, 2013 I contacted (b)(6), (b)(7)(c)

The (b)(6), (b)(7)(c)

All of our farming is done on non-irrigated land. We utilize three field consultants and have had no problems with volunteers or herbicide resistant wheat.

Over the last four years we have grown Rod and WB528. We purchase our seed from

(b)(4)

(b)(4)

All of our seed is purchased in bulk and picked up by us. Prior to pick up our trucks are visually inspected and cleaned with compressed air or water as needed.

All of our fields are chem-fallowed. We chem-fallow our fields three times, in the spring, fall, and summer. We ground spray about 75 percent of the time and aerial spray the remainder of the time. We spray between 12-32 ounces of Round Up per acre depending on the weeds and season. The Round Up is also mixed with Ammonia Sulfate, M90 and well water. Outside of our chem-fallow we also spray a wide variety of different herbicides depending on our field consultant's recommendation. However, we always check the herbicide labels to ensure that their recommendation is safe. All of our herbicides and surfactants are purchased from (b)(4). We clean our herbicide tanks out with a fresh water flush or through the use of aqua or nutrisole when needed.

We do all of our own farming and all of our wheat is farmed for grain. We leave all of our chaff on the field for mulch. All of our grain is sold and delivered to (b)(4)

(b)(4)

We own all of our own equipment and clean as necessary or when moving from one class of crop to another. Furthermore, we also use our equipment on approximately (b)(4)

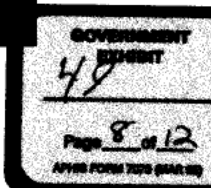

Our equipment is cleaned with compressed air and water prior to going to a new field and before returning our equipment back to our field.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/12/2013.

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 13, 2013 I accompanied IES (b)(6), Investigator (b)(6), (b)(6), on an interview of (b)(6), (b)(7)(c). We met (b)(6), (b)(7)(c) at his residence, (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6), (b)(7)(c) which is comprised predominately of (b)(6), (b)(7)(c). However, there are two areas that are farmed by (b)(6), (b)(7)(c)

(b)(6), (b) has been farming approximately (b)(6), (b)(7)(c) This field is located at (b)(6), (b)(7)(c) grows wheat and (b)(6), (b)(7)(c)

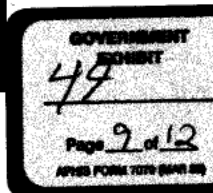

(b)(6), (b) has been farming approximately (b)(6), (b)(7)(c) grows (b)(6), (b)(7)(c) and wheat.

Additionally, the (b)(6), (b)(7)(c) through (b)(6), (b)(7)(c) also produces compost. The compost is composed of 90% hay, alfalfa, and wood chips. It also includes dry cow manure, and soft rock pot ash. (b)(6), (b)(7)(c) stated that he does not believe that they have ever made the compost using wheat chaff. He also stated that all of the hay and alfalfa is heated to kill bugs and seeds.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/17/2013.

(b)(6), (b)(7)(c)

OR120018_BR_001976

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 17, 2013 I contacted (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) dry farms approximately (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) in (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) stated that all of the property has been (b)(6), (b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) purchases all of his seed in bulk from (b)(4) (b)(6), (b)(7)(c) picks up all of his own seed in a washed out truck. Over the last (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) stated that he has only planted (b)(6), (b)(7)(c)

All of (b)(6), (b)(7)(c) grain is sold to (b)(4) (b)(6), (b)(7)(c) stated that he delivers all of his grain in a washed out truck.

(b)(6), (b)(7)(c) chem-fallows approximately 10% of his fields between March and June by applying Round Up through the use of a ground sprayer. (b)(6), (b)(7)(c) also uses a blend of Beyond, Husky, and Sticker when the plants are 2 to 6 inches in height. (b)(6), (b)(7)(c) uses the herbicide blend that is recommended by his field consultant. All of (b)(6), (b)(7)(c) herbicides are purchased from (b)(6), (b)(7)(c) and mixed with well water. (b)(6), (b)(7)(c) summer fallows his remaining fields through a three step process. First he uses a chisel, then he cultivates, and finally he rod weeds.

(b)(6), (b)(7)(c) cleans his tractors with compressed air every pass, he cleans his drill at the end of every season, and cleans his combine every day or two. Additionally, he cleans out his herbicide sprayer after every application and before changing herbicides through the use of a fresh water (b)(6)

While (b)(6), (b)(7)(c) owns all of his own equipment and does his own farming he utilized the services of (b)(6), (b)(7)(c) to combine his fields from 2006 through 2012. Additionally, one of the fields that (b)(6), (b)(7)(c) had been farming approximately (b)(6), (b)(7)(c)

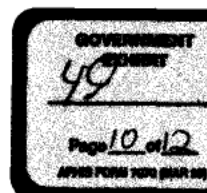

(b)(6), (b)(7)(c) This field is located approximately (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) also stated that (b)(6), (b)(7)(c) he was previously farming cuda club wheat on.

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/17/2013.

DECLARATION

I declare that my name is (b)(6), (b)(7)(c), I am over the age of eighteen and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

I am an Investigator with USDA, Animal and Plant Health Inspection Services (APHIS), Investigative and Enforcement Services (IES), stationed in Nebraska. I have been employed with IES since (b)(6), (b)(7)(c)

On June 18, 2013 at approximately 12:50pm (PST) I attempted to contact (b)(6), (b)(7) at his residence which is located at (b)(6), (b)(7)(c) (b) (4) however no one was home. I attempted to call (b)(6), (b)(7) at (b)(6), (b)(7)(c) and left a message.

On June 19, 2013 I made contact with (b)(6), (b)(7) at his residence. (b)(6), (b)(7) has been a (b)(6), (b)(7)(c) stated that he (b)(6), (b)(7)(c) but he would not say how many acres he farms, owns, or leases. He did however, state that he only grows grain and sells his grain to either (b) (4)

(b)(6), (b)(7) stated that he has not had any issues with volunteers or with herbicide resistant wheat. Additionally, (b)(6), (b)(7) does not know anyone in his area that is having an issue.

Additionally, (b)(6), (b)(7) stated that he both summer and chem fallows on a three year rotation but did not wish to give specifics or state what chemicals, herbicides, or surfactants he uses but that he does use city water. However (b)(6), (b)(7) did state that he purchases all of his seed and herbicides from (b) (4) 7)(c). The seed is purchased in bulk and (b)(6), (b)(7) picks it up in a washed out truck. Additionally, over the last four years he has planted a blend of WB528 and Rod, Tubbs, and Madsen.

(b)(6), (b)(7) also stated that he has not stored any grain on his property for the last 10 years. Outside of wheat (b)(6), (b)(7) also grows barley. (b)(6), (b)(7) also states that he uses the (b) (4). He owns all of his own equipment and does all of his own farming but when he gets behind he has used the fertilizing service offered by (b) (4).

I declare under penalty of perjury that the foregoing is true and correct. This declaration was executed on 6/19/2013.

DECLARATION OF (b)(6), (b)(7)(c), (b)(6)

I declare that my name is (b)(6), (b)(7)(c), (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), (b)(6), aphus.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 4, 2013, I interviewed (b)(6), (b)(7)(c) at his residence/farm. Upon my arrival I introduced myself to (b)(6) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he was aware of the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(c) confirmed his address is (b)(6), (b)(7)(c). He provided his contact phone numbers, as (b)(6), (b)(7)(c) and (b)(6), (b)(7)(c) (cell). He confirmed he is a crop farmer and stated he grows seed (b)(6), (b)(7)(c) wheat, and (b)(6), (b)(7)(c). He stated he has been farming his whole life. He explained he was in a (b)(6), (b)(7)(c). He stated he currently farms (b)(6), (b)(7)(c), and claimed (b)(6), (b)(7)(c) is planted in wheat. He stated he (b)(6), (b)(7)(c). He claimed he does not lease-out any of

- (b)(6), (b)(7)(c). He explained his (b)(6), (b)(7)(c) seeds are mostly from (b)(4). He stated the corn he plants is a genetically modified organism (GMO), Liberty Link and Round-up Ready hybrids. (b)(6), (b)(7)(c) stated he does not use a field consultant for planting; however, he does consultant with (b)(4) about which herbicides to use.
5. In regards to his wheat crop, (b)(6), (b)(7)(c) confirmed he has planted West Bred (WB) 528 winter wheat in the last (b)(6), (b)(7)(c). He could not recall exactly when he planted it or if it was blended with another variety of wheat. He claimed he has not planted Rod, Coda Club, or Club Style winter wheat. He stated he has also planted (b)(6), (b)(7)(c) hard red wheat. He claimed he could not recall any other variety of wheat that he might have planted in the past (b)(6), (b)(7)(c). He stated he alternates his wheat fields with other crops, such as (b)(6), (b)(7)(c). He claimed he purchases all his wheat seed exclusively from (b)(4). (b)(4) He stated the seed was purchased in bulk and he picked it up from (b)(4) himself, using his own truck. (b)(6), (b)(7)(c) claimed he could not provide any documentation or labels pertaining to the wheat seed. He stated his truck is always cleaned-out in between transporting different variety of seeds.
6. According to (b)(6), (b)(7)(c) all his wheat is planted on irrigated farm ground. He stated he does not plant on dry-land ground. He stated he controls weeds on his wheat fields by plowing and using grass and broad leaf herbicides, such as 2, 4-D. He explained he rotates herbicides based (b)(4) recommendation. He could not provide any additional names of herbicides, other than the 2, 4-D. (b)(6), (b)(7)(c) stated he uses Roundup only on his corn fields. He stated the glyphosate is applied early when the plants are less than six inches tall. He claimed all the herbicides are purchased from (b)(4). He stated he has never had an issue with wheat volunteers after using any type of herbicides, and he explained he has never had a reason to contact his county extension agent about wheat not being killed by glyphosate.
7. In regards to application of herbicides, (b)(6), (b)(7)(c) claimed he usually treats his fields himself. He stated he applies the herbicides with a ground sprayer. He explained if he falls behind he might hire a custom sprayer to help out. He stated he has not had to hire any help in over ten years. He stated the herbicides used in his fields are mixed with the correct ratio of chemicals to water. He stated the water is provided from the dealer. He claimed some adjuvants might be added to the herbicides, but he could not provide any product names. (b)(6)

(b)(6), did not have any herbicides labels or containers available for me to observe at the time of the interview. (b)(6), (b)(7)(C) verified he uses the same sprayer to apply glyphosate and other grass/broad leaf herbicides. He stated his sprayer is cleaned between uses by flushing it with fresh water. He stated sometimes, as an extra precaution, he might use neutralizers when cleaning his sprayer.

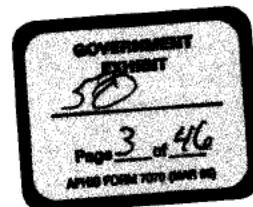

8. According to (b)(6), (b)(7)(C), he owns all his equipment and does all his farming himself. Again, he stated he has not had to hire any custom help in over (b)(6), (b)(7)(C). He stated he uses the same drill to plant all his wheat crops. He claimed his equipment is only used on his fields and that he does not loan it out to other farmers. He stated his equipment is cleaned by blowing-out debris with an air compressor and by flushing it with water. He stated he has been farming the same way since (b)(6), (b)(7)(C). He stated all his fields are treated in a conventional farming manner before planting. He stated the only equipment that he does not own that enters his fields is the fertilizer trucks. He stated he has never doubted the cleanliness of the fertilizer trucks and he is confident no seed contaminants have been introduced into his fields.
9. (b)(6), (b)(7)(C) stated all his wheat is sold to (b)(4). He explained he personally delivers the harvested wheat directly to the port or the grain elevator. He claimed he does not keep samples of his wheat grain or keep anything back for replanting. In addition, he stated he does not store grain on his farm. (b)(6), (b)(7)(C) claimed he has not heard of any grower who has had problems with killing wheat volunteers with glyphosate or other herbicides. He stated he has not had any type of test plots on his farm. In addition, he claimed he does not know of any test plots in the area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 5, 2013.

(b)(6), (b)(7)(C)

(b)(6), (b)(7)(C) (b)(6) Investigator (3413), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c) LIES

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) aphis.usda (b)(6), (b)(7)(c)
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 4, 2013, I interviewed (b)(6), (b)(7)(c) at his residence/farm. Upon my arrival I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he was aware of the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(c) confirmed his address is (b)(6), (b)(7)(c) He provided his phone number as (b)(6), (b)(7)(c) He confirmed he is a crop farmer and stated he grows (b)(6), (b)(7)(c) He stated he (b)(6), (b)(7)(c) stated he has been farming the leased land for (b)(6), (b)(7)(c) years. He also explained he (b)(6), (b)(7)(c) He explained some of (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) that he plants are genetically modified organisms (GMO). He stated the (b)(6), (b)(7)(c) (b)(4) (b)(6), (b)(7)(c) stated he does not use a field

consultant for planting; however, he does use a chemical consultant. He stated (b)(6), (b)(7)(c)

5. In regards to his wheat crop, (b)(6), (b)(7) stated in the past four years he has not planted WestBred528, Rod, Coda Club, or Club Style winter wheat. He stated he has planted (b)(6), (b)(7) soft white winter wheat, and a variety of soft white winter wheat, which he does not recall the name of. He claimed he purchases all his wheat seed from (b)(4) (b)(4) He stated the seed was purchased in bulk and he picked it up from (b)(4) himself, using his own truck. (b)(6), (b)(7) could not provide any documentation or labels pertaining to the wheat seed. He stated his truck was cleaned prior to transporting the seed.
6. According to (b)(6), (b)(7) almost all his wheat is planted on irrigated farm ground. He explained he planted ORCF 102 soft white winter wheat this year for the first time on dry-land farm ground. He stated he does chem-fallow the dry-land farm ground. (b)(6), (b)(7) stated he uses Roundup, 2,4-D, and other grass and broad leaf killers to treat his fields. He claimed the herbicides are purchased from (b)(4) and are rotated as recommended by his consultant. He stated he has never had an issue with wheat volunteers after using any type of herbicides, and he explained he has never had a reason to contact his county extension agent about wheat not being killed by glyphosate.
7. In regards to application of herbicides, (b)(6), (b)(7) claimed he usually treats his wheat fields when the plants are approximately four to five inches tall. He stated he applies the herbicides with a ground sprayer. He explained he has never hired a custom sprayer and aerial spraying is not allowed due to the grape farmers. He stated the herbicides used in his fields are mixed with the correct ratio of chemicals to well water. He claimed he does use some additional additives and stabilizers when preparing the herbicide. He could not provide the names of the additives and stabilizers and he explained he uses whatever is recommended on the labels of the herbicides or what is recommended by his consultant. (b)(6), (b)(7) did not have any herbicides labels or containers available for me to observe at the time of the interview.
8. (b)(6), (b)(7) verified he uses the same sprayer to apply glyphosate and other grass/broad leaf herbicides. He stated his sprayer is cleaned between uses by flushing it with fresh water.

He stated as an extra precaution he also uses neutralizers (product names: Wet Sol and Neutralizer) when cleaning his sprayer.

9. According to (b)(6), (b)(7), he owns all his equipment and does all his farming himself. He stated he uses the same drill to plant all his wheat crops. He claimed his equipment is only used on his fields and that he does not loan it out to other farmers. He stated his equipment is cleaned by vacuuming and blowing-out debris with an air compressor. In regards to custom help, (b)(6), (b)(7) explained his (b)(6), (b)(7)(c) and he plans on using him to combine his fields for the first time this year.
10. (b)(6), (b)(7) stated all his wheat is sold to (b)(4). He explained contractors for the (b)(4) pick-up the harvested wheat from his farm and they haul it directly to the port. He claimed he does not keep samples of his wheat grain or keep anything back for replanting. He explained he signed an agreement with Monsanto stating he would not hold back wheat grain for replanting. In addition, he stated he does not store grain on his farm. He stated after harvest he burns, bales, or plows the wheat straw and chaff. He stated he has been farming the same way for over (b)(6), (b)(7) years.
11. (b)(6), (b)(7) claimed he has not heard of any grower who has had problems with killing wheat volunteers with glyphosate or other herbicides. He has not had any type of test plots on his farm. In addition, he claimed he does not know of any test plots in the area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 5, 2013.

(b)(6), (b)(7)(c)

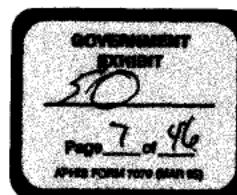

(b)(6), (b)(7)(c) Investigator (b)(6), (b)(7)(c), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c) (b)(6), (b)(7)

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) aphs.usda (b)(6), (b)(7)(c)
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 4, 2013, I interviewed (b)(6), (b)(7)(c) at his residence/farm. Upon my arrival I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he was unaware of the detection, so I provided a copy of the May 29, 2013 USDA News Release. I explained to (b)(6), (b)(7)(c) that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(c) confirmed his previous addresses were (b)(6), (b)(7)(c) He provided his cell phone number as (b)(6), (b)(7)(c) He stated he has (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) He stated he plants alfalfa and wheat and he explained he plans on rotating the crops and/or allowing his wheat fields to rest every few years. He stated he has only been planting and harvesting wheat for (b)(6), (b)(7)(c) He stated he plants wheat on about (b)(6), (b)(7)(c) acres. (b)(6), (b)(7)(c) claimed he does not use a field consultant for planting.
5. (b)(6), (b)(7)(c) stated his first wheat crop was planted in fall of 2011 and harvested in 2012. He stated in 2011, he planted West Bred (WB) 528 winter wheat. (b)(6), (b)(7)(c) explained he believed the wheat seed was blended with another variety, possibly WB 519; but, he was very unsure about it and he could not locate his paper work for the seed. He claimed the seed was purchased from (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) explained that he has leftover WB 528 (approximately 500 lbs) seed and he agreed to provide a sample of if requested. He stated the seed was purchased in bulk and it was in a very large sack when he

- picked it up from (b) (4). He showed me the sack, which he had hanging from the rafters in his machine shed. The sack was a very large white fabric sack, which was covered in a plastic water-proof type coating. There was no labeling or tags on the sack for the seed.
6. (b)(6), (b)(7) stated his second wheat crop was planted in (b)(6), (b)(7). He stated he planted Dark Northern Spring (DNS), hard red wheat. He claimed this wheat seed was a blend of Buck Pronto and Solano. He claimed he purchased this seed from (b) (4) in bulk and picked it up himself. He stated the seed was bagged in the same manner as the WB 528. He stated he has not planted any other variety of wheat except for the WB 528 and DNS blends. (b)(6), (b)(7) was not able to provide any information pertaining to where the varieties of seed were grown, who was the grower, or how it was handled.
 7. (b)(6), (b)(7) explained he used his own truck to pick up the wheat seed from (b) (4). He stated his truck was cleaned prior to hauling the seed. In addition, he explained contamination of the seed is highly unlikely because it was in a large sack, which was sealed.
 8. According to (b)(6), (b)(7) all his wheat is planted on irrigated farm ground. He stated he does not plant on dry-land ground. He stated he discs his land prior to planting. He explained he uses his own drill for planting wheat. He stated he cleans his drill by using an air compressor to blow out all debris.
 9. In regards to weed control, (b)(6), (b)(7) stated he uses various blends of herbicides. He explained (b)(6), (b)(7) has a chemical applicator license and provides him guidance in regards to which herbicides to use and when to use them. He stated he has used Roundup herbicide to kill weeds around his house, but has not used it on his fields. He stated to control weeds during the growing season he uses various grass and broad leaf weed killers. He stated the last herbicides he used was a blend of Starane NXT, Express with Total Solution, and Pure and Simple. He claimed he purchases his herbicides from the (b) (4). He claimed he rotates herbicides based on his planting and by the recommendations he receives from (b)(6), (b)(7). He stated he has never had an issue with wheat volunteers after using any type of herbicides, and explained he has never had a reason to contact his county extension agent about wheat not being killed by glyphosate.
 10. In regards to application of herbicides, (b)(6), (b)(7) explained he usually treats his wheat fields when the plants are approximately eight to ten inches tall. He stated he applies the herbicides with a ground sprayer, which he owns. He claimed he has never used his ground sprayer to apply Roundup. He stated his sprayer is cleaned with water in between uses and he claimed he has not used any type of neutralizers. He stated the herbicides used in his fields are mixed with the correct ratio of chemicals to well water. He stated he does not use any additional additives, stabilizers, or surfactants when preparing the herbicide.
 11. According to (b)(6), (b)(7), he does all his farming himself, except for combining. He stated he owns the drill he uses for planting, and he explained he hires a local contractor to combine his fields. He claimed his drill has only been used on his fields and he has not loaned it out to other farmers. He stated his drill is cleaned in between planting using an air compressor to blow-out all debris.

12. In regards to his (b)(6), (b)(7)(C) wheat harvest, he does not recall the name of the person who combined his fields. He stated this has been his only wheat harvest and he could not provide any information about the combine that was used because it is not his. He stated he is confident the combine was appropriately cleaned prior to being used to harvest his wheat. He stated he cuts and bales his own (b)(6), (b)(7)(C). He stated all his wheat is sold to (b)(4). He explained (b)(4) pick-ups the harvested wheat and hauls it directly to the port. He claimed he did not keep samples of his wheat grain or keep anything back for replanting. In addition, he stated he does not store grain on his farm. He stated after harvest he discs under the wheat straw and chaff.
13. (b)(6), (b)(7) reiterated that he has not had a problem with wheat volunteers and claimed he has not heard of anyone else who has. He stated the only equipment that has come onto his fields is his own, the combine described above, and the truck owned by (b)(4) that is used to pick-up his wheat harvest. (b)(6), (b)(7) claimed he has not had any type of test plots on his farm. In addition, he claimed he does not know of any test plots in the area.
14. On June 5, 2013, I called (b)(6), (b)(7) in order to determine if he would provide a sample of the seed he has left over from his 2011 planting. (b)(6), (b)(7) agreed to provide a sample and arrangements were made to pick it up later in the day. I arrived at his farm around 3:00 P.M. Upon my arrival (b)(6), (b)(7) informed me that he contacted (b)(4) to find out what his WB528 was blended with. He stated he was told it was blended with WB523, not 519. We proceeded to his machine shed to collect the wheat seed sample from the large hanging sack. (b)(6), (b)(7) cut a small hole in the upper portion of the sack and retrieved the seed and placed it in the Ziploc bag provided. Afterwards, I sealed the bag with Duck tape in front of (b)(6), (b)(7). I also took digital photographs, using a Nikon D60 camera, of the seed sack, the sample, and of the (b)(6), (b)(7), which was attached to the seed sack. A Chain of Custody (OR130018-BR-65) was also completed to show (b)(6), (b)(7) relinquished the sample to me.
15. The photographs were uploaded onto my computer and then labeled appropriately. The original and labeled images were burned onto a compact disc and a Chain of Custody was created. The Ziploc bag containing the sample was labeled with Item No. OR130018-BR-65, the variety of seed, the grower's name and address, the collector, and collection date. The sample was then triple bagged and sealed. The sample and the disc were relinquished to USDA, APHIS, IES, Investigator (b)(6), (b)(7)(C) as indicated by the Chain of Custodies.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 5, 2013.

(b)(6), (b)(7)(C)

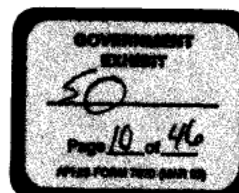

(b)(6), (b)(7)(C) Investigator (b)(6), (b)(7)(C), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) aphs.usda (b)(6), (b)(7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 6, 2013, I interviewed (b)(6), (b)(7)(C) at his residence/farm. Upon my arrival I introduced myself to (b)(6), (b)(7)(C) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(C) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(C) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(C) confirmed his address is (b)(6), (b)(7)(C). He provided his contact phone number as (b)(6), (b)(7)(C) (cell). He confirmed he is a wheat crop farmer. He stated he has been farming his whole life. Mr. (b)(6), (b)(7)(C) stated he currently owns and farms (b)(6), (b)(7)(C). He stated right now he has (b)(6), (b)(7)(C) of wheat planted and the other 500 acres is dry and in chem-fallow. He claimed he does not lease-out any of the farm land that he owns. He stated the does not plant any type genetically modified organism (GMO) crops on his land. (b)(6), (b)(7)(C) stated he uses (b)(6), (b)(7)(C), (b)(4) as a field and chemical consultant. He stated (b)(6), (b)(7)(C) is a (b)(6), (b)(7)(C) and is his point of contact (POC).
5. In regards to his wheat crop, Mr. (b)(6), (b)(7)(C) claimed he has planted West Bred (WB) 528, 523, 456 Trifecta winter wheat blend over the last four years. He stated he has not planted any Rod winter wheat since 2009. He claimed he has never planted Coda Club or Club Style winter wheat. He stated he has also planted Oregon Stephens wheat that might have been blended with another variety of wheat, which he could not recall. He stated he does not alternate wheat with other crops. He claimed he purchases all his wheat seed from (b)(4). He stated the seed is purchased in bulk and he picks it up from (b)(4) himself, using his own truck. (b)(6), (b)(7)(C) claimed he could not provide any

documentation or labels pertaining to the wheat seed that he has planted, and he stated he could not provide any samples of the seed because he used it all during planting. He stated his truck is always cleaned-out in between transporting different variety of seeds.

6. According to (b) (6), (b) (7)(C) all his wheat is planted on dry-land ground. He stated he controls weeds by using various types of grass and broad leaf herbicides. He explained he rotates herbicides based his consultant's recommendations. He claimed all the herbicides are purchased from (b) (6), (b) (7)(C). He stated he has used Quilt, Osprey, Ally Extra, and other (names unknown) herbicides on his wheat fields. He explained the herbicides are usually blended together prior to applying to the fields. He stated the chemicals are typically applied when the plant growth is about six to eight inches tall. He stated he applies the herbicides during the first part of April and towards the end of March.
7. (b) (6), (b) (7)(C) stated he uses conventional methods and chemical methods on his crop land. He claimed he fertilizes ever year, uses a Ripper Cutter to disturb the ground, and he cross-cultivates. He explained he also uses Roundup to control weeds on his unplanted fields. He stated the glyphosate is applied early when the volunteers and weeds are six to eight inches tall. He stated he has never had an issue with wheat volunteers after using any type of herbicides. He stated this year he has been using RT 3, and he provided the direction booklet for the herbicide. He stated he usually applies RT 3 two to three in the spring on the chem-fallow land. He stated he has never used Glystar or generic glyphosates. He claimed he has mixed other herbicides with glyphosate, such as Tordon 22K to control thistles. He stated he also has added additives, such as Banbelle to the glyphosate. He stated he has never seen glyphosate resistance in wheat. He stated all the glyphosate he has applied has been very effective. (b) (6), (b) (7)(C) stated he applies herbicides to his fields himself. He stated the herbicides used in his fields are mixed with the correct ratio of chemicals to water. He explained that he has had some aerial spraying done by helicopter to control tea grass. He stated Maverick herbicide was used on the tea grass. He could not recall the name of the company he hired for the aerial spraying. He also explained in the past he had hire help to spray his fields. He stated he had some health issues a few years ago and hired a kid, (b) (6), (b) (7)(C) to help him out.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 6, 2013.

(b) (6), (b) (7)(C)

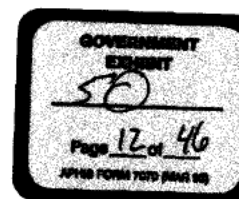

(b) (6), (b) (7)(C) Investigator (b) (6), (b) (7)(C), USDA, APHIS, IES

DECLARATION OF (b) (6), (b) (7)(C)

I declare that my name is (b)(6), (b) (7)(C) (b) (6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(C) My office address is 2150 Centre Avenue, Bldg. B-3W10, Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(C) I can also be reached by cell at (b) (6) (b)(6), (b) (7)(C) and/or by email at (b)(6), (b) (7)(C) (b)(6), (b)(7)(C) aphs.usda (b) (7)(C) (b)(6), (b)(7)(C) (b)(6)
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 6, 2013, I attempted to contact (b)(6), (b)(7)(C) at his residence/farm. Upon my arrival I introduced myself to a man who identified himself as (b) (6), (b) (7)(C) He stated his name was (b) (6), (b) (7)(C). I told him I am an investigator employed by the U.S. Department of Agriculture and I requested to speak to (b) (6), (b) (7)(C). I informed (b) (6), (b) (7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b) (6), (b) (7)(C) indicated he did not know anything about the detection. I gave him a copy of the USDA press release, dated May 29, 2013. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread.
4. During our conversation, (b) (6), (b) (7)(C) informed me that (b) (6), (b) (7)(C) had (b)(6), (b)(7)(C) ago. He explained he does not know anything about (b) (6), (b) (7)(C) farming practices and explained that I would need to speak to his (b)(6), (b)(7)(C) He claimed his (b)(6), (b)(7)(C) was not home. I left my name and phone number for his (b)(6), (b)(7)(C) to give me a call. I asked (b) (6), (b) (7)(C) who is

farming the land that (b) (6), (b) (7)(C) used to and he stated I would have to talk to his (b) (6), (b) (7)(C) I thanked him for his time and left the premise.

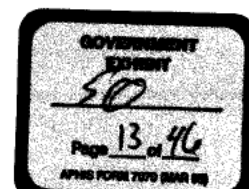

5. Later in the evening, I got a call from a woman who identified herself as (b) (6), (b) (7)(C). She stated her name is (b) (6), (b) (7)(C). The number she called from is (b) (6), (b) (7)(C). I introduced myself to her and explained the purpose of my visit. (b) (6), (b) (7)(C) was upset and claimed she had spoken to several growers in the area who claimed someone from USDA had contacted them. She stated her (b) (6), (b) (7)(C) was also contacted and interviewed over the phone. She stated she called me back because she wanted to report that a man has been contacting growers in the area, which she believes might be a USDA imposter. She could not provide any information about the man, other than he had a (b) (6), (b) (7)(C) area code. I explained to her that there are many USDA officials working in the area right now. I told her all USDA officials should have government credentials. I asked her if she could provide any information about her (b) (6), (b) (7)(C), which she claimed she could not. She stated her (b) (6), (b) (7)(C) is farming the land (b) (6), (b) (7)(C) used to farm and she reiterated he has already been interviewed. I thanked (b) (6), (b) (7)(C) for calling and ended the conversation.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 7, 2013.

DECLARATION OF (b) (6), (b) (7)(C)

I declare that my name is (b)(6), (b) (b) (b) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b) (7)(c). My office address is 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b) (b)(6), (b) (b) and/or by email at (b)(6), (b) (b) aphis.usda (b) (b) (7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 10, 2013, I interviewed (b) (6), (b) (7)(C) at his farm office. Upon my arrival, I introduced myself to (b) (6), (b) (7)(C) as an investigator employed by the U.S. Department of Agriculture. I informed (b) (6), (b) (7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b) (6), (b) (7)(C) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b) (6), (b) (7)(C) agreed to be interviewed.
4. During the interview, (b) (6), (b) (7)(C) confirmed his business address is (b) (6), (b) (7)(C). He provided his contact phone number as (b) (6), (b) (7)(C). (b) (6), (b) (7)(C) confirmed he is a crop farmer. He explained his (b) (6), (b) (7)(C) and him own (b) (6), (b) (7)(C). He further explained the (b) (6), (b) (7)(C). He stated he has been farming most of his life. He stated (b) (6), (b) (7)(C) consists of just less than (b) (6), (b) (7)(C) of crop land. He claimed they plant wheat, seed and edible peas, and garbanzo beans. He stated about 1500 acres are planted in wheat annually. He stated very little of their fields (b) (6), (b) (7)(C) are left in summer fallow. He explained their wheat fields are on a four or five year rotation schedule with their other crops. He stated most of their crop land is dry land (75%) and the rest is irrigated. He stated they use traditional methods, like tillage and chisel plowing, to work their land. He stated they do not chemically fallow fields.
5. In regards to the wheat crops, (b) (6), (b) (7)(C) claimed they do not plant wheat for seed. He stated they have planted commercial blends of West Bred 528, Rod, and MacVicor and WB528, Oregon Tubbs, and Madsen. He claimed they have not planted Coda Club or Club Style winter wheat. According to (b) (6), (b) (7)(C) they do not plant any spring wheat. In regards to the wheat varieties, (b) (6), (b) (7)(C) claimed he does not know anything about the production of the seeds. He stated they purchase all their wheat seed from (b) (4)

(b) (4) He stated the seed is purchased in bulk and is picked-up directly from (b) (4) by himself or his brother. He stated the seed is transported in their truck, which is cleaned out in between shipments of wheat varieties. He stated he does not have any seed, seed tags or seed certification statements to provide. He explained all the seed was used during planting. He stated (b) (4) should have information about the seeds that they have purchased over the last four years. (b) (6), (b) (7)(C) claimed that they do not plant any genetically modified crops.

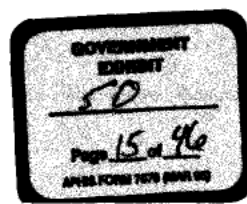

6. (b) (6), (b) (7)(C) stated they use (b) (4) as a chemical consultant. He stated they obtain their herbicides from (b) (4). According to (b) (6), (b) (7)(C) he has used RT3 on his dry farm land to clear fields prior to re-planting. He explained their use of Roundup is very limited and only used when needed. He stated they would typically apply glyphosate in early March and September if needed. He stated the chemicals are applied very early on when the weeds are only a few inches tall. He further explained the RT3 is typically mixed with other grass and broadleaf herbicides. He claimed he has never seen any glyphosate resistance in wheat after application of the chemicals.
7. (b) (6), (b) (7)(C) stated during the growing season they use Huskie, Osprey, Buctril, Axon, PowerFlex, and other grass and broadleaf herbicides on their wheat fields. He stated the herbicides are blended and rotated to prevent resistance. He stated the wheat crops are sprayed early, with a ground sprayer, when the plants are small. He stated his sprayers are flushed-out in between applications of herbicides. (b) (6), (b) (7)(C) stated they have hired (b) (4) to do some aerial spraying of their (b) (6), (b) (7)(C) with insecticides. He stated he has never had any issues with wheat volunteers not being killed by the herbicides that he has used.
8. In regards to conventional farming methods, (b) (6), (b) (7)(C) claimed they do not plow for ground conservation purposes. He explained they chisel-plow in order to avoid soil erosion. He stated they also do some fall tillage and burning of the wheat stubble.
9. In regards to test plots, (b) (6), (b) (7)(C) claimed they have never participated in wheat field trials. He claimed they have never planted any Round-up ready wheat. He claimed (b) (4) (b) (4) all conduct field trials, but he claimed he could not provide any details about them. He also stated he does not know of any growers in the area that have participated in wheat field trials. He also stated he has no knowledge of Monsanto wheat field trials in the (b) (6), (b) (7)(C) area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 11, 2013.

DECLARATION OF (b) (6), (b) (7)(C)

I declare that my name is (b)(6), (b) (b) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b) (7)(c). My office address is 2150 Centre Avenue, Bldg (b)(6), (b) (7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b) (b)(6), (b) and/or by email at (b)(6), (b) (b) aphs.usda (b) (6) (7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 10, 2013, I interviewed (b)(6), (b) (7)(C) at his farm. Upon my arrival, I introduced myself to (b) (6), (b) (7)(C) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b) (7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b) (7)(C) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b) (6), (b) (7)(C) agreed to be interviewed.
4. During the interview, (b)(6), (b) (7)(C) provided his address as (b) (6), (b) (7)(C). He provided his contact phone number as (b) (6), (b) (7)(C) (cell). (b)(6), (b) (7)(C) claimed he is a (b) (6), (b) (7)(C). He stated he owns (b)(6), (b) (7)(C), (b) (4) and he crop farms approximately (b)(6), (b) (7)(C), (b) (4) of land. He stated all his crop land is irrigated. He stated he uses conventional farming methods to fallow his fields. (b)(6), (b) (7)(C) stated he plants approximately (b) (6), (b) (7)(C), (b) (4) of wheat annually.
5. In regards to his wheat crop, (b)(6), (b) (7)(C) stated he does not plant wheat for seed. He stated he only plants wheat for grain. He claimed he has planted AP Badger soft white winter wheat and Dark Northern Spring (DNS) hard red spring wheat. He claimed he has not planted West Bred (WB) 528, Coda Club or Club Style winter wheat. He explained he might have planted Rod winter wheat over the last four years, but he is not sure. In regards to the variety, (b)(6), (b) (7)(C) claimed he does not know anything about the production of the wheat seeds. He stated he purchases all his wheat seed from (b) (4) (b) (4). He claimed he had to sign some type of agreement stating he would not hold back any seed for replanting. He stated all the seed is purchased in bulk and is picked-up from (b) (4). He stated the seed is transported in a clean truck, which is obtained from (b) (4). He stated (b)(6), (b) (7)(C) has picked-up seed on his behalf and has helped him

with his farming in the past, before his retirement. He stated he does not have any seed tags or seed certification statements from his recent wheat crop. He explained he used all the seed during planting.

6. (b) (6), (b) (7)(C) claimed he also has planted onion and alfalfa in the past. He stated this year he planted corn for the first time. He stated from this point forward he is planning on rotating his wheat fields with corn. He stated the corn is Round-up Ready.
7. (b) (6), (b) (7)(C) stated he uses (b) (6), (b) (7)(C) from (b) (4) as a (b) (6), (b) (7)(C). He stated he also purchases herbicides from (b) (4). He stated (b) (6), (b) (7)(C) (last name unknown) is his point of contact at (b) (4). (b) (6), (b) (7)(C) stated he has used Huskie, Quilt, and other grass and broadleaf herbicides on his crops. He stated the herbicides are blended, but he could not provide any specific details about it. He stated his crops are sprayed early, with a ground sprayer, when the plants are less than six inches tall. He stated in between plantings he allows cows to graze on his fields. He explained he also uses traditional tillage methods for weed control. He explained his fields are plowed every second or third year and he discs every year in between plantings. He stated he has never had any issues with wheat volunteers not being killed by the herbicides that he has used.
8. According to (b) (6), (b) (7)(C), he has used glyphosate to control weeds in his onion and corn fields. He claimed he has only used RT3 once in the spring 2013. He stated he purchased the RT3 from (b) (4). He stated he has also used Glystar right after he planted corn, before the emergence of the corn plants. He stated the glyphosate was applied by a ground sprayer. He stated when this product has been applied no wheat was present. He claimed other herbicides, like Atrizane and Parallel, are mixed with the glyphosate. He stated he has never used glyphosate on his wheat fields. He claimed all the herbicides he has used seem to be effective and he has not notice any resistance in wheat.
9. In regards to test plots, (b) (6), (b) (7)(C) claimed he has never had one on his ground and does not know of any in the area. He also stated he has no knowledge of Monsanto wheat field trials in the (b) (6), (b) (7)(C) area.

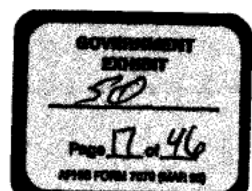

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 11, 2013.

DECLARATION OF (b) (6), (b) (7)(C)

I declare that my name is (b)(6), (b) (7)(C). I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(C). My office address is 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(C) Fort Collins, Colorado (b)(6), (b)(7)(C), and office phone number is (b)(6), (b)(7)(C). I can also be reached by cell at (b)(6), (b)(7)(C) and/or by email at (b)(6), (b)(7)(C).aphis.usda (b)(6), (b)(7)(C).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 10, 2013, I interviewed (b) (6), (b) (7)(C) at his ranch. Upon my arrival, I introduced myself to (b) (6), (b) (7)(C) as an investigator employed by the U.S. Department of Agriculture. I informed (b) (6), (b) (7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b) (6), (b) (7)(C) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b) (6), (b) (7)(C) agreed to be interviewed.
4. During the interview, (b) (6), (b) (7)(C) confirmed his address as (b) (6), (b) (7)(C). He provided his contact phone number as (b) (6), (b) (7)(C). (b) (6), (b) (7)(C) stated he is a crop farmer. He stated he has been farming his whole life. He stated he owns and farms approximately (b) (6), (b) (7)(C). He stated he plants wheat and barley. He claimed he plants about (b) (6), (b) (7)(C) of wheat annually. He claimed he leaves his fields in summer fallow and uses traditional methods, like tillage and burning, to work his land. He stated he also chemically fallows his fields.
5. In regards to his wheat crop, (b) (6), (b) (7)(C) claimed he does not plant wheat for seed. He stated he has planted West Bred 528 and Oregon wheat – Tubbs, Skiles, AP700, and Clearfield 102. He claimed he has not planted Rod, Coda Club or Club Style winter wheat. In regards to the wheat varieties, (b) (6), (b) (7)(C) claimed he does not know anything about the production of the wheat seeds. He stated he purchases all his wheat seed from (b) (4). He stated all the seed is purchased in bulk and is picked-up directly from (b) (4) by himself or his farm hands. He stated the seed is transported in a clean truck, which is blown-out between shipments of wheat varieties. He stated he does not have any seed, seed tags or seed certification statements to provide. He explained he used all

the seed during planting or the left-over seed was disposed of because it can't be returned.

(b) (6), (b) (7)(C) claimed he does not plant any genetically modified crops.

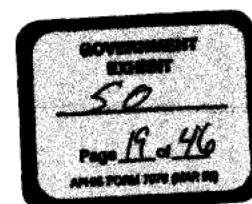

6. (b) (6), (b) (7)(C) stated he uses (b) (6), (b) (7)(C). He provided (b) (6), (b) (7)(C) phone number as (b) (6), (b) (7)(C). He stated the herbicides he uses are purchased from (b) (4). According to (b) (6), (b) (7)(C), he has used various types of glyphosates on his chemically fallowed fields. He stated the glyphosates are applied three times to his chem-fallow fields at a very high concentration rate, 32-40%. In regards to glyphosates used, (b) (6), (b) (7)(C) claimed he has used RT3, Glystar, Traction, and Glyphosate 41. He claimed the generic brands of glyphosate seem to work as well as Round-up. He stated the glyphosates are mixed with other herbicides, like Banvel and Sharpen. He stated he has never seen any glyphosate resistance in wheat after application of the chemicals.
7. (b) (6), (b) (7)(C) stated during the growing season he has used Huskie, Osprey, PowerFlex, and other grass and broadleaf herbicides on his wheat fields. He stated the herbicides are blended and rotated to prevent resistance. He stated his crops are sprayed early, with a ground sprayer, when the plants are less than six inches tall. He stated his sprayers are flushed-out in between applications of herbicides. (b) (6), (b) (7)(C) explained this year he has noticed an unusual amount of Rye coming-up in his WB528 wheat fields. He stated they have had to hand-pull the unwanted plants. He explained in between plantings he has applied glyphosate to his wheat fields after a fall rain. He also explained he fertilizes, uses a Ripper and a Culti-weeder, and burns his wheat fields to control stubble and weeds. He stated he has never had any issues with wheat volunteers not being killed by the herbicides that he has used.
8. In regards to test plots, (b) (6), (b) (7)(C) claimed he has never participated in a wheat field (b) (6). He stated he has never planted any Round-up ready wheat. He claimed he does not know of any growers that have. He also stated he has no knowledge of Monsanto wheat field trials in the (b) (6), (b) (7)(C) area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 11, 2013.

(b) (6), (b) (7)(C)

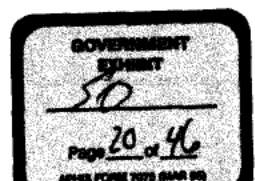

(b) (6), (b) (b) Investigator (b) (6), (b) (7)(C), USDA, APHIS, IES

DECLARATION OF (b) (6), (b) (7)(C)

I declare that my name is (b)(6), (b) (b) (b) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b) (b)(6), (b) (b) and/or by email at (b)(6), (b) (b)(6), (b)(7)(c) [aphis.usda.gov](mailto:(b)(6), (b) (b)(6), (b)(7)(c)@aphis.usda.gov).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 12, 2013, I attempted to contact (b) (6), (b) (7)(C) (b) (6), (b) (7)(C), (b) (4) at his residence. No one was home, so I left a voice message over the phone and a business card in the door. On June 13, 2013, at approximately 9:00 AM, I received a call from (b) (6), (b) (7)(C). During the call, I introduced myself to (b) (6), (b) (7)(C) as an investigator employed by the U.S. Department of Agriculture. I informed (b) (6), (b) (7)(C) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b) (6), (b) (7)(C) indicated he is familiar with the situation. I further explained to him that USDA investigators are interviewing growers in Washington, Oregon, and Idaho about their wheat crops and farming procedures. I explained the purpose of the interviews is try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b) (6), (b) (7)(C) agreed to be interviewed.
4. During the interview, (b) (6), (b) (7)(C) provided his address as (b) (6), (b) (7)(C). He provided his contact phone number as (b) (6), (b) (7)(C). He confirmed his family owns (b) (6), (b) (7)(C), (b) (4). He explained his (b) (6), (b) (7)(C) crop farm approximately (b) (6), (b) (7)(C). He stated they grow wheat and rotate the wheat crops with (b)(6), (b)(7)(c). He stated the (b)(6), (b)(7)(c) is a

genetically modified crop. According to (b) (6), (b) (7)(C) they farm land in various locations in Washington, to include the (b) (6), (b) (7)(C) area. He stated they use traditional farming methods to work their land. He stated they have dry land acres; however, nothing is chem-fallowed. He stated most of their ground is irrigated. He explained the use conventional tillage methods after harvest. He further explained they disc, irrigate, and chisel their crop land.

5. In regards to the use of glyphosates and other herbicides, (b) (6), (b) (7)(C) stated they have used Round Up in between plantings and in conjunction with tillage. He stated during the growing season they use broadleaf herbicides to control weeds in there wheat crops. He stated the herbicides are applied early. He could not provide names of the herbicides used.

6. In regards to the Coda Club from the (b) (4), (b) (6), (b) (7)(C) confirmed he purchased (b) (6), (b) (7)(C) through the (b) (4) in 2009 for planting in 2010. He explained the (b) (4) obtained the seed (b) (4) ((b) (4)) He stated the Coda Club would have been planted in the (b) (6), (b) (7)(C) area. He claimed USDA already has all the information regarding the location and size of their crop land. He suggested that I visit his extension office to obtain information about their crop land. According to (b) (6), (b) (7)(C) Bruehl soft white wheat was planted after the Coda Club and then Dark Northern Spring (DNS) was planted. He stated the harvested grain was sold the (b) (4) (b) (6), (b) (7)(C) explained he has never experienced any issues with wheat volunteers being resistant to Round-up or other grass herbicides.

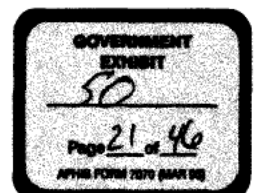

7. In regards to test plots, (b) (6), (b) (7)(C) claimed he has never participated in a wheat field trial. In addition, he stated he has never planted any Round-up ready wheat nor does he know of anyone that has. He also stated he has no knowledge of Monsanto wheat field trials in the (b) (6), (b) (7)(C) area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 13, 2013.

DECLARATION OF (b)(6), (b)(7)(c), (b)(6)

I declare that my name is (b)(6), (b)(7)(c), (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), (b)(6), (b)(7)(c), aphis.usda (b)(6), (b)(7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 12, 2013, I interviewed (b)(6), (b)(7)(c) at the (b)(6), (b)(7)(c), (b)(4) (b)(6), (b)(7)(c) is the (b)(6), (b)(7)(c), (b)(6), (b)(7)(c). Upon my arrival, I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection and informed me he is from the (b)(6), (b)(7)(c) area and is very familiar with the situation. I further explained to him that USDA investigators are interviewing businesses and growers in Washington, Oregon, and Idaho about their businesses, wheat crops and farming procedures. I told him the purpose of the interviews is to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to answer my questions.
4. During the interview, (b)(6), (b)(7)(c) confirmed the (b)(4) (b)(4). He provided his contact phone number as (b)(4) and he gave me a business card. He explained (b)(4) was purchased by (b)(4). He stated he has been the (b)(4), (b)(6), (b)(7)(c).

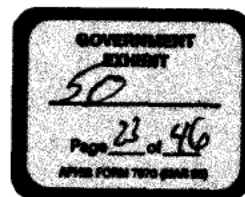

- (b)(6), (b)(7)(c)
5. [REDACTED] stated the elevator provides services to the growers in the area. He explained (b)(4) does not provide field of chemical consultant services nor do they sale herbicides. He stated they do crop seed treatments only and explained they do not produce crop seeds. He confirmed in (b)(6), (b)(7)(c) the (b)(4) obtained (b)(4) of Coda Club winter wheat seed from (b)(4) ((b)(4)) for a customer. A screen print-out of their data base shows this fact. According to (b)(6), (b)(7)(c), (b)(4) does not have a sample of the Coda Club wheat seed. He explained they only keep samples for about eighteen months. He stated the samples are usually disposed of once crops have been harvested. He claimed (b)(4) has not purchased West Bred 528, Rod, or Club style wheat.
6. During our conversation, I asked (b)(6), (b)(7)(c) if he has heard of any growers having problems with killing wheat volunteers with glyphosate or other herbicides. (b)(6), (b)(7)(c) explained he has not. I also asked him if the elevator conducted any wheat trials or if he has heard of anyone in the area that has participated in trials. (b)(6), (b)(7)(c) explained (b)(4) does not participate in field trials. He explained (b)(6), (b)(7)(c) and he stated they do yield and tillage trials. He stated as far as he knows they have never conducted any Round-up Ready Wheat field trials.
7. During our conversation, I asked (b)(6), (b)(7)(c) if he could provide the names and addresses of the growers that purchased the Coda Club wheat seed. (b)(6), (b)(7)(c) explained his (b)(6), (b)(7)(c) as soon as she gets back from lunch. Once (b)(6), (b)(7)(c) returned, she was able to retrieve data from their archived data base showing all (b)(4) were sold to one grower, (b)(4). She provided the address of the grower as (b)(4) and the name of the grower, (b)(6), (b)(7)(c).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

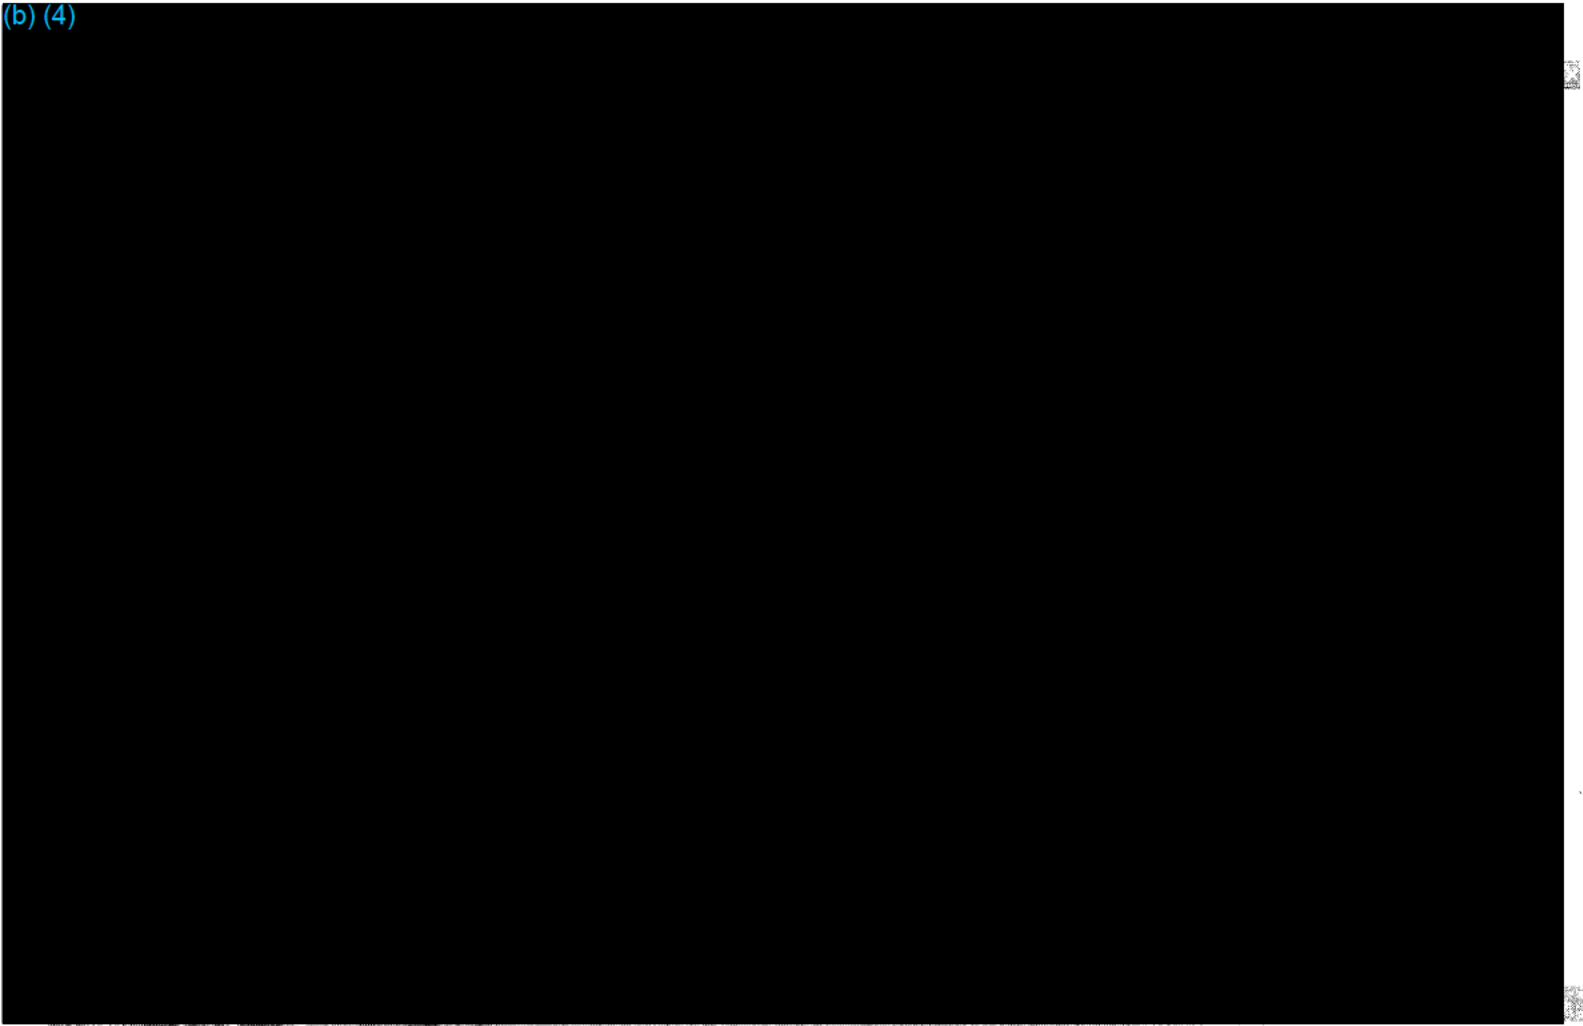

Executed on June 13, 2013.

DECLARATION OF KATHERINE (b)(6)

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), (b)(6), (b)(7)(c), aphis.usda, (b)(6), (b)(7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 13, 2013, I interviewed (b)(6), (b)(7)(c) at his farm. Upon my arrival, I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigating pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(c) confirmed his address as (b)(6), (b)(7)(c). He provided his contact phone number as (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) confirmed he is a crop farmer. He stated he owns and farms approximately (b)(6), (b)(7)(c). He stated he plants wheat only. He claimed he plants about (b)(6), (b)(7)(c) of wheat annually, leaving about (b)(6), (b)(7)(c) in summer fallow. He explained the crop land is rotated, so it's either planted with wheat or in summer fallow. He claimed he uses conventional methods, like tillage, to work his land. He stated all his ground is dry land and he claimed he

does not chem-fallow his fields. He explained he does apply Round-up to control weeds in the spring; however, it is done in combination with conventional farming methods.

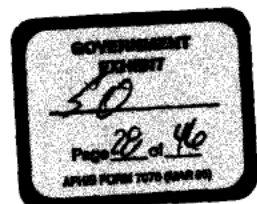

5. In regards to his wheat crop, (b)(6), (b)(7)(c) claimed he does not plant wheat for seed. He stated he planted West Bred 528/Stephens blend in (b)(6), (b)(7)(c). He claimed he has not planted Rod, Coda Club or Club Style winter wheat. In regards to the wheat varieties, (b)(6), (b)(7)(c) claimed he does not know anything about the production of the wheat seeds. He stated he purchases all his wheat seed from (b)(4). He stated all the seed is purchased in bulk from (b)(6). He stated he does not have any seed, seed tags or seed certification statements to provide. He explained he used all the seed during planting. (b)(6), (b)(7)(c) claimed he does not grow any genetically modified crops.
6. (b)(6), (b)(7)(c) stated he uses (b)(4) a fertilizer and chemical consultant. He stated the herbicides he uses are purchased from (b)(4). According to (b)(6), (b)(7)(c), he uses Round-up on his dry land in between plantings and discs in the spring. In regards to glyphosates used, (b)(6), (b)(7)(c) claimed he has used RT3. He explained during the growing season he has used 2, 4-D, Ally, Banvel, PowerFlex, and Beyond. He stated the herbicides are blended and rotated to prevent resistance. He stated he has never had any issues with wheat volunteers not being killed by glyphosates or other herbicides.
7. In regards to test plots, (b)(6), (b)(7)(c) claimed he has never participated in a wheat field trial. He stated he has never planted any Round-up ready wheat. He claimed he does not know of any growers that have. He also stated he has no knowledge of Monsanto wheat field trials in the area.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 14, 2013.

DECLARATION OF KATHERINE L. LIES

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) aphs.usda (b)(6), (b)(7)(c)
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 18, 2013, I interviewed (b)(6), (b)(7)(c) at his farm. USDA, APHIS, IES Investigator (b)(6), (b)(7)(c) was also present during the interview. Upon our arrival, I introduced us to (b)(6), (b)(7)(c) as investigators employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigating pertaining to the possible detection (b)(6), (b)(7)(c) of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection. I further explained to him that USDA (b)(6), (b)(7)(c) investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed. (b)(6), (b)(7)(c) address and phone number are (b)(6), (b)(7)(c)
4. During the interview, (b)(6), (b)(7)(c) confirmed he is a crop farmer. He stated his farm is (b)(6), (b)(7)(c) and he claimed he has been farming most of his life. He stated the farm is approximately (b)(6), (b)(7)(c). He explained over the past four years he has planted (b)(6), (b)(7)(c). He claimed he also has planted (b)(6), (b)(7)(c) in the past. He stated he does not grow any genetically modified crops. (b)(6), (b)(7)(c) stated he plants approximately (b)(6), (b)(7)(c) of wheat annually. He stated the rest of the land is planted (b)(6), (b)(7)(c) (mixed 50/50), in fallow, or is CRP (conservative reserve program) land.
5. In regards to his wheat crop, (b)(6), (b)(7)(c) claimed it is all harvested for commercial use and he has not planted wheat for seed. He stated he has planted varieties of white winter and spring wheat. He could not recall the specific names of the wheat varieties, except for (b)(6), (b)(7)(c). He claimed he has not planted West Bred 528, Coda Club, or Club style wheat and he could not recall if he has ever planted Rod winter wheat (b)(6), (b)(7)(c). (b)(6), (b)(7)(c) stated he purchases all his wheat seed from (b)(4) or (b)(4). He stated all the seed is purchased in bulk. He claimed he does not

store any grain on his farm and stated all the grain is sold to (b) (4) and sent directly to (b) (4)

6. (b)(6), (b) claimed he uses (b) as a fertilizer and chemical consultant. He stated all the farming is done by him or is (b)(6), (b). He claimed he does not hire any custom help. (b) stated he does borrow farming equipment for spraying and fertilizing from (b) (4). According to (b)(6), (b), he does not chem-fallow his land and he explained he uses conventional farming methods, like spraying, disking, chiseling, and plowing. He stated he does use glyphosates and other herbicides to control weeds on his land. He explained he typically uses whatever is recommended by the consultant. He confirmed he has used Roundup and other glyphosates; however, he could not recall the specific brands or rates per acre. In regards to other herbicides used, (b)(6), (b) claimed he has used TouchDown HiTech, a broad leaf killer, recently. He could not provide the brand names for the other herbicides he has used over the past (b)(6), (b)(7)(c). In regards to adjuvants, (b)(6), (b) stated he has used Class Act. He claimed he sprays glyphosate and other herbicides in the early spring and fall. He stated he uses well and city water (from co-op) to mix his herbicides. He claimed he has never had any issues with wheat volunteers not being killed by glyphosates or other herbicides, nor has he heard of anyone who has.
7. In regards to test plots, (b)(6), (b) claimed he has never participated in a wheat field trial. He stated he has never planted any Roundup ready wheat. He claimed he does not know of any growers that have. He also stated he has no knowledge of Monsanto wheat field trials in the (b)(6), (b)(7) area or other areas in Washington.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 18, 2013.

(b)(6), (b)(7)(c)

DECLARATION OF

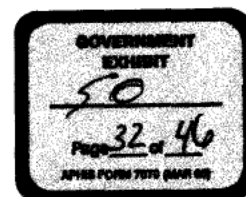

I declare that my name is (b)(6), (b)(7)(c) (b)(6) (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) (b)(6) (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B-(b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) aphs.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 4, 2013, I attempted to contact (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) The purpose of the contact was to obtain information from (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) pertaining to an on-going investigation (OR130018-BR). The investigation is in regard to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. Upon my arrival, I introduced myself to (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) s informed me (b)(6), (b)(7)(c) does not live or conduct business at this address. She explained they (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) purchased the (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) She claimed she did not know how to contact (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I asked (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) if they crop farm on the land and she indicated they did not. I did not observe any crops near (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) house, just pasture with goats and cattle grazing on it.
4. After visiting with (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I conducted an internet search for (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Through the internet, I found two phone numbers linked to (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I called both numbers and neither were in service. I also searched for information pertaining to (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) The information I obtained from the Washington Secretary of State indicates (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) The address for the corporation was (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I visited this address and the building was vacant with a for lease sign in the window.
5. Next, I contacted the USDA, APHIS, IES, Intel group in order to obtain current contact information for (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Using the information I received from the Intel group, I attempted to contact (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) by visiting various locations and calling various phone numbers, which were listed in the Intel reports. I also attempted to contact various possible relatives, (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) Each attempt was unsuccessful.
6. I also visited the registered agent (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) which is listed on the corporation registration data sheet. (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) confirmed (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) is no longer is business. He

indicated he knew how to get a hold of (b)(6), (b)(7)(c), but claimed he could not give me her contact information. I asked (b)(6), (b)(7)(c) if he would pass along a message to her, which he agreed to do. He explained (b)(6), (b)(7)(c) did not really have much involvement with (b)(4) because it was (b)(6), (b)(7)(c) business. He stated she probably would not be able to provide me with any information about the wheat that was planted. He explained (b)(6), (b)(7)(c). I left a message with (b)(6), (b)(7)(c), requesting that (b)(6), (b)(7)(c) contact me.

7. Since I did not hear from (b)(6), (b)(7)(c) after I left the message with (b)(6), (b)(7)(c), I conducted a search for (b)(6), (b)(7)(c). I learned he was a (b)(4), (b)(7)(c). I visited the (b)(6), (b)(7)(c), which is located at (b)(6), (b)(7)(c). The (b)(6), (b)(7)(c) confirmed (b)(6), (b)(7)(c). She stated (b)(6), (b)(7)(c) was not available. In response, I left a message for (b)(6), (b)(7)(c) give me a call.
8. On June 18, 2013, I received a call from (b)(6), (b)(7)(c). During the call, (b)(6), (b)(7)(c) confirmed she was a member of (b)(4). She explained the business was primarily her (b)(6), (b)(7)(c). She explained (b)(6), (b)(7)(c) stated she does not know anything about the wheat that was purchased or planted in (b)(6), (b)(7)(c). She stated all of (b)(6), (b)(7)(c) wheat crops would have been planted on leased land. (b)(6), (b)(7)(c) explained (b)(6), (b)(7)(c) was a business man and did not farm the land himself. She stated (b)(6), (b)(7)(c) farmed and managed the wheat crops for (b)(6), (b)(7)(c). She provided (b)(6), (b)(7)(c) cell phone number as (b)(6), (b)(7)(c). She also provided her current address as (b)(6), (b)(7)(c).
9. On June 18, 2013, I contacted (b)(6), (b)(7)(c) by calling his cell phone number. I introduced myself and explained the purpose of my call. I asked (b)(6), (b)(7)(c) if he would be willing to provide information in regards to (b)(6), (b)(7)(c) wheat crops, which he agreed to do. He provided his contact address as (b)(6), (b)(7)(c).
10. (b)(6), (b)(7)(c) stated he was (b)(6), (b)(7)(c) from (b)(6), (b)(7)(c) and was responsible for the wheat crops during this time period. He stated he farmed about (b)(6), (b)(7)(c) for (b)(6), (b)(7)(c). He stated he planted West Bred (WB) 528 and (b)(6), (b)(7)(c) winter wheat; however, he could not recall the years in which it was planted. He stated the WB528 was purchased from (b)(4) ((b)(4)). He stated he never planted Rod, Coda Club, or Club style winter wheat. He claimed he did not do any spring planting. (b)(6), (b)(7)(c) claimed he only planted commercial wheat for (b)(6), (b)(7)(c). He stated no wheat was planted for seed. He claimed all the fields were dry land.
11. In regards to chemical applications, (b)(6), (b)(7)(c) stated all the fields were chem-fallowed and fertilized. He stated (b)(4) provided field and chemical consulting services. He also claimed (b)(6), (b)(7)(c) provided custom spraying and planting services when needed. He explained when the fields were in fallow they were sprayed at least three times with glyphosates at a 12, 24, and 30 ounce rate per acre. He stated he usually used RT3, but claimed he did use other generic brands of Roundup. He stated 2, 4-D was added to

the RT3, usually in the second application. He stated other additives, adjuvants, and conditioners might have also been added, but he could not provide brand names. He claimed the city water was used to mix the chemicals. In regards to other herbicides used, (b)(6), (b)(7)(C) stated he has used Maverick, Kantor and Huskie.

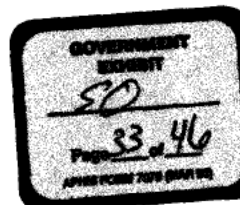

12. (b)(6) stated all the harvested grain was sold to (b)(4) and went directly to port. He stated as far as he knows, (b)(6) did not participated in any field trials. He stated at no time did he ever experience any glyphosate resistance in wheat. In addition, he stated he has not heard of anyone in the area that has. He claimed he has not heard of any Monsanto Roundup Ready wheat trials in the (b)(6), (b)(7)(C) area or other areas in the state.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 19, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6) Investigator (b)(6), (b)(7), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c) (b) LIES

I declare that my name is (b)(6), (b) (b) (b) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), aphis.usda (b)(6), (b)(7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 28, 2013, I interviewed (b)(6), (b)(7)(c) at his farm. USDA, APHIS, IES Investigator (b)(6), (b)(7)(c) was also present during the interview. Upon our arrival, I introduced us to (b)(6), (b)(7)(c) as investigators employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigation in regards to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. (b)(6), (b)(7)(c) confirmed his address is (b)(6), (b)(7)(c). He provided his contact number as (b)(6), (b)(7)(c). He stated he farms with (b)(6), (b)(7)(c). He claimed he has been farming since (b)(6), (b)(7)(c). According to (b)(6), (b)(7)(c) they crop farm approximately (b)(6), (b)(7)(c). He stated all the farm land is leased from (b)(6), (b)(7)(c) WA and the (b)(6), (b)(7)(c). He stated they only plant wheat for commercial use and claimed he does not grow any genetically modified crops. He also explained this year they started planting barley for the first time and they have about (b)(6), (b)(7)(c) planted. He stated his wheat fields are on a three year rotation. He explained annually about (b)(6), (b)(7)(c) are in continuous crop, (b)(6), (b)(7)(c) are in chem-fallow, (b)(6), (b)(7)(c) acres are in summer fallow, and about (b)(6), (b)(7)(c) are planted in spring and winter wheat.
5. In regards to his wheat crop, (b)(6), (b)(7)(c) stated he has planted West Bred 528/Trifecta winter wheat blend, Rod winter wheat, (b)(6), (b)(7)(c) winter wheat, (b)(6), (b)(7)(c) spring wheat in the last (b)(6), (b)(7)(c). He claimed he has not planted Coda Club or Club style wheat. He stated all the wheat seed is purchased in bulk from (b)(6), (b)(7)(c).

He

claimed all the grain is sold to (b) (4) and is stored on the farm until it is sent to (b) (4) in the winter.

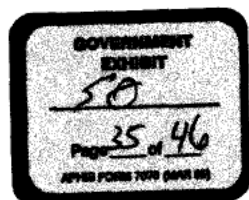

6. (b)(6), (b) (7)(C) stated they use (b) (4) as chemical and fertilizing consultants. He explained (b)(6), (b)(7) and (b)(6), (b)(7)(c) are his POCs. He stated in 2011 and 2013 he used (b)(6), (b)(7)(c) for custom spraying. He stated he also has done aerial spraying in 2010, 2011, and 2012 to control rust outbreaks. (b)(6), (b) (7)(C) stated they own all their farming equipment.
7. In regards to glyphosates, (b)(6), (b) (7)(C) stated they use Roundup, Glystar, Gly 4, and other generic brands on their fields. He explained they use mostly RT3, except when it is not available. He also stated they use Roundup on their summer fallow fields to aid in tillage. He stated they usually spray the summer fallow fields in March and June and then chisel. He stated they do add surfactants, adjuvants, and conditioners to their tank mix. He stated they have used products like Sharpen, AMS, and methylated seed oil. He stated these products help with the up-take. (b)(6), (b) (7)(C) explained they spray herbicides containing glyphosates in late March when everything is in stubble. He explained then they spray everything again in mid-April with various combinations of Roundup and other grass and broadleaf killers. He stated the chemicals are mixed with well water. He stated sometimes Banvel is also mixed in.
8. (b)(6), (b) (7)(C) claimed he has never had any issues with wheat volunteers not being killed by glyphosates or other herbicides, nor has he heard of anyone who has. In regards to test plots, (b)(6), (b) (7)(C) claimed he has never participated in a wheat field trial. In addition, he stated they have never planted any Roundup ready wheat and he claimed he does not know of any growers that have. He also stated he has no knowledge of Monsanto wheat field trials in the (b)(6), (b)(7) area or other areas in Washington. He suggested that USDA contact the co-ops for test plot information.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 19, 2013.

(b)(6), (b)(7)(c)

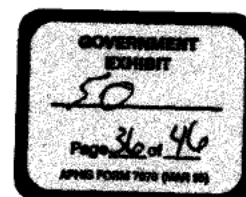

(b)(6), (b) (7)(C) (b) (6) Investigator (b)(6), (b)(7), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) @aphis.usda (b)(6), (b)(7)(c)
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On June 18, 2013, I interviewed (b)(6), (b)(7)(c) over the phone. (b)(6), (b)(7)(c) phone number is (b)(6), (b)(7)(c) I had visited his residence early in day and left a message with (b)(6), (b)(7)(c) for him to give me a call. (b)(6), (b)(7)(c)'s residence is located at (b)(6), (b)(7)(c) At the beginning of the call, I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigation pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection. I further explained to him that USDA investigators are interviewing growers in the area about their wheat crops and farming procedures in order to try and determine if the detection of GE wheat in Oregon is an isolated event or might be more wide spread. (b)(6), (b)(7)(c) agreed to be interviewed.
4. During the interview, (b)(6), (b)(7)(c) confirmed he is a (b)(6), (b)(7)(c) crop farmer. He stated he has been farming his whole life and he has been farming on his own since (b)(6), (b)(7)(c) He stated he farms approximately (b)(6), (b)(7)(c). He stated his farm land is owned and leased. He explained over the past four years he has planted varieties of winter and spring wheat. He stated his winter wheat crop typically consists of about (b)(6), (b)(7)(c) and his spring wheat crop consists of about (b)(6), (b)(7)(c). He stated he does not grow any genetically modified crops. He stated in regards to wheat varieties, he planted West Bred (WB) 528 in (b)(6), (b)(7)(c) He stated the WB528 in (b)(6), (b)(7)(c) was mixed with (b)(6), (b)(7)(c) winter wheat. He stated he also planted Rod winter wheat in (b)(6), (b)(7)(c). In regards to other wheat varieties, he stated he has also planted (b)(6), (b)(7)(c) spring wheat. (b)(6), (b)(7)(c) claimed he has never planted Coda Club or Club Style wheat.
5. (b)(6), (b)(7)(c) claimed all his wheat harvested for commercial use. He stated he does not plant wheat for seed. (b)(6), (b)(7)(c) stated he purchases all his wheat seed from (b)(4) He stated all the seed is purchased in

bulk. He stated he does not store any grain on his farm, and claimed all the grain is sold to (b) (4) s and sent directly to (b) (4).

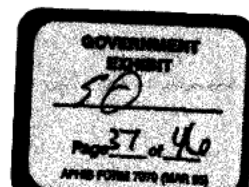

6. (b)(6), (b)(7) stated he uses (b) (4) as a fertilizer and chemical consultant. He stated he does all his farming himself and claimed he does not hire any custom help. He stated he owns all of his farm equipment. According to (b)(6), (b)(7), he uses conventional methods, like spraying in spring, cultivating, chiseling, and Rod weeding, to work his fields. He also stated some of his crop land is chem-fallowed. He confirmed he uses glyphosates, like RT3, at very high rate (32 ounce per acre) on his chem-fallowed land. He explained the glyphosate is usually applied in March, May, and September. (b)(6), (b)(7) claimed he mixes M-90 and sulfate in his tank mixture. In regards to other herbicides, he claimed he has used Ally, Osprey, Mistro and other chemicals recommended by his consultant. He stated he uses city water to mix the glyphosates and other herbicides. He claimed he has never had any issues with wheat volunteers not being killed by glyphosates or other herbicides, nor has he heard of anyone who has.
7. In regards to test plots, (b) (6) claimed he has never participated in a wheat field (b) (6). In addition, he stated he has never planted any Roundup Ready wheat. He claimed he does not know of any growers that have. He also stated he has no knowledge of Monsanto wheat field trials in the (b)(6), (b)(7) area or other areas in Washington.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 19, 2013.

(b)(6), (b)(7)(c)

DECLARATION OF

I declare that my name is (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), aphs.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On August 13, 2013, I interviewed (b)(6), (b)(7)(c) at his residence. His current address and phone number are (b)(6), (b)(7)(c) Upon my arrival, I introduced myself to (b)(6), (b)(7)(c) as an investigator employed by the U.S. Department of Agriculture. I informed (b)(6), (b)(7)(c) that USDA is currently conducting an investigation in regards to the detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon. (b)(6), (b)(7)(c) indicated he heard about the detection. I further explained to him USDA investigators are contacting researchers, which names appear on selected trial notifications, in order to try to obtain additional information about the trials. (b)(6), (b)(7)(c) confirmed he was the (b)(6), (b)(7)(c) (b)(6), (b)(7)(c), IL and (b)(6), (b)(7)(c). He verified that he (b)(6), (b)(7)(c).
4. I explained to (b)(6), (b)(7)(c) according to the field report for the notification, the trial acres were planted on October 9, 2000. I asked him if he recalled the trial, and he indicated he did not, but would try to answer my questions. He explained at the time his employee would have been responsible for the planting, destruction, and monitoring of the field trial. He indicated he could not recall the specific employee that was responsible for this trial because it was so long ago and they conducted many trials of various crops. He stated the wheat trial was an efficacy trial conducted at the request of Monsanto. He stated as indicated by the notification (b)(6), (b)(7)(c) were probably planted. He stated all seeds received from Monsanto would have been (b)(6), (b)(7)(c) planted. He explained typically if extra seeds existed they would have been destroyed by burial/dumping inside the trial area, at the edge. He stated wheat trials usually did not have seeds leftover after planting. He confirmed the trial area would have been destroyed by mowing. He explained if any volunteers were observed during the monitoring period they would have been also destroyed by mowing.

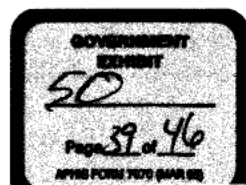

5. In regards to the elite lines, local breeding lines, and advanced breeding lines of the wheat, (b)(6), (b)(7) could not provide any information pertaining to them. He explained Monsanto did not provide that type of information to them. He stated the only information they received about the wheat seed was recorded on the packets. He stated the packets usually contained the constructs/line numbers, which they would compare to their documentation prior to planting. He stated the market class of the wheat was Hard Red Winter Wheat. He stated for this trial Monsanto most likely owned the cultivars/varieties. He stated he cannot provide any information about the parental lines because Monsanto did not provide this information.
6. I informed (b)(6), (b)(7) the notification mentions the wheat variety was backcross derived progenies of winter wheat and I asked what this meant. (b)(6), (b)(7) explained it means the genes were crossed back to itself to increase the stabilization of the plant.
7. At the conclusion of our conversation, I thanked (b)(6), (b)(7) for his time and gave him my business card. I asked him to give me a call if he remembers anything else.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 13, 2013.

DECLARATION OF (b)(6), (b)(7)(c)

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

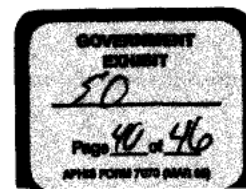

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg. B- (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), (b)(6), (b)(7)(c), aphs.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. On August 16, 2013, I attempted to contact (b)(6), (b)(7)(c) in order to obtain some additional information pertaining to Notification No. 99-039-16n. I called the phone number listed in the notification as his contact number, (b)(6), (b)(7)(c) and it was no longer in service. A reverse search of the phone number linked the number to (b)(6), (b)(7)(c). A Lexis Nexis Report was obtained for (b)(6), (b)(7)(c). An internet search for (b)(6), (b)(7)(c) confirmed this fact.
4. According to Wheat Field Test Report for Notification No. 99-039-16n, trail acres were never planted in Ward County, ND.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 16, 2013.

(b)(6), (b)(7)(c)

(b)(6), (b)(7)(c) (b)(6) Investigator (b)(6), (b)(7)(c), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c) (b)(6)

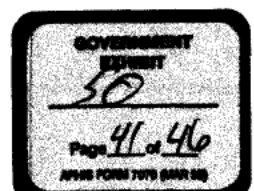

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) [aphis.usda.gov](mailto:(b)(6), (b)(7)(c)@aphis.usda.gov).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. From August 12 - 16, 2013, I attempted to contact (b)(6), (b)(7)(c) in order to obtain some additional information pertaining to Notification No. 99-039-16n. I called the phone number listed in the notification as his contact number, (b)(6), (b)(7)(c), several times. Each time the phone rang several times with no answer. I did a reverse search on the phone number and could not find any information about the number. I also conducted a reverse search on the listed contact address (b)(6), (b)(7)(c) for (b)(6), (b)(7)(c) using Switchboard (on-line directory) and determined the address does not belong to him, but to (b)(6), (b)(7)(c). A Lexis Nexis Report was obtained for (b)(6), (b)(7)(c), which indicates he now resides at (b)(6), (b)(7)(c). A current phone number for (b)(6), (b)(7)(c) could not be located for him. All attempts to contact (b)(6), (b)(7)(c) by phone were unsuccessful.
4. According to Wheat Field Test Report for Notification No. 99-039-16n, trail acres were never planted in Canyon County, ID and monitored by (b)(6), (b)(7)(c).

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 16, 2013.

(b)(6), (b)(7)(c) (b)(6) Investigator (b)(6), (b)(7)(c), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7)(c) (b)(6)

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

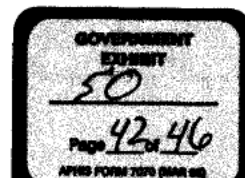

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) l.(b)(6) aphs.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. From August 14 - 16, 2013, I attempted to contact (b)(6), (b)(7)(c) in order to obtain some additional information pertaining to Notification 99-039-16n. I called the phone number listed in the notification as his contact number, (b)(6), (b)(7)(c), several times at different times during day. Each time the phone rang several times with no answer. I left voice messages identifying who I was and requesting a return call from (b)(6), (b)(7)(c) never returned my call. A Lexis Nexis Report was obtained for (b)(6), (b)(7)(c), which indicates the contact phone number and address listed in the notification is current for (b)(6), (b)(7)(c). All attempts to contact (b)(6), (b)(7)(c) by phone were unsuccessful.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 19, 2013.

(b)(6), (b)(7)(c) (b)(6) Investigator (b)(6), (b)(7)(c), USDA, APHIS, IES

DECLARATION OF (b)(6), (b)(7) L. LIES

I declare that my name is (b)(6), (b)(7) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

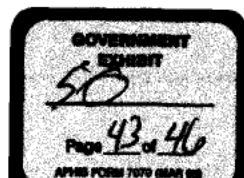

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7) (c). My office address is 2150 Centre Avenue, Bldg (b)(6), (b)(7) (c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c), aphs.usda (b)(6), (b)(7)(c).
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. From August 13 - 16, 2013, I made several attempts to contact (b)(6), (b)(7)(c) in order to obtain some additional information pertaining to Notification 99-039-16n. According to the notification, (b)(6), (b)(7)(c) was involved with a GMO wheat trial site in (b)(6), (b)(7)(c), WA. I called the phone number listed in the notification as his contact number, (b)(6), (b)(7)(c) and determined the line was disconnected. I did a reverse search on the phone number and could not find any information about the number. I also conducted a reverse search on the listed contact address (b)(6), (b)(7)(c), WA) for (b)(6), (b)(7)(c) using Switchboard (on-line directory) and I was not able to locate any information about it. A Lexis Nexis Report was obtained for (b)(6), (b)(7)(c), which indicates he now resides at (b)(6), (b)(7)(c). The report listed his phone number as (b)(6), (b)(7)(c). I called the phone number and spoke to a lady who claimed the number was not (b)(6), (b)(7)(c). She stated the number is a (b)(6), (b)(7)(c) WA number. I conducted a reverse search on the address and phone number from the Lexis Nexis report and was not able to link them to (b)(6), (b)(7)(c). I also conducted an internet search using (b)(6), (b)(7)(c) name and found another number linked to him. I called (b)(6), (b)(7)(c) and determined it was disconnected. I was able to find information on line indicating (b)(6), (b)(7)(c) still works for (b)(6), (b)(7)(c); however, I was not able to locate a contact number for him.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 19, 2013.

DECLARATION OF

(6)

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

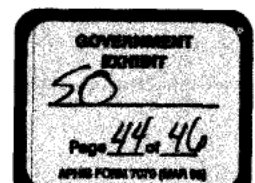

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c). My office address is 2150 Centre Avenue, Bldg. (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c). I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c)@aphis.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. From August 14 - 16, 2013, I attempted to contact (b)(6), (b)(7)(c) in order to obtain some additional information pertaining to Notification 99-039-16n. According to the notification, (b)(6), (b)(7)(c) was involved with two GMO wheat trial sites. One was in Cass County, ND and the other was in Roberts County, SD. I called the phone number listed in the notification as his contact number, (b)(6), (b)(7)(c) and determined the line is disconnected. I did a reverse search on the phone number and could not find any information about the number. I also conducted a reverse search on the listed contact address (b)(6), (b)(7)(c) for (b)(6), (b)(7)(c) using Switchboard (on-line directory) and I was not able to locate any information about it. A Lexis Nexis Report was obtained for (b)(6), (b)(7)(c), which indicates he now resides at (b)(6), (b)(7)(c). A current phone number for (b)(6), (b)(7)(c) was listed as (b)(6), (b)(7)(c). I called the phone number several times at different times during the day and each time there was no answer. I was not able to leave a voice message because the mail box had not been activated.
4. According to Wheat Field Test Report for Notification No. 99-039-16n, up to (b)(6), (b)(7)(c) were planted in Cass County, ND and no trail acres were planted in Roberts County.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 19, 2013.

DECLARATION OF (b)(6), (b)(7)(c) (b)(6)

I declare that my name is (b)(6), (b)(7)(c) (b)(6) I am over the age of eighteen, and I am fully competent to make this declaration. I know each of the facts set forth herein based on personal firsthand knowledge:

1. I am an investigator employed by the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Investigative and Enforcement Services (IES). I have held this position for approximately (b)(6), (b)(7)(c) My office address is 2150 Centre Avenue, Bldg. B (b)(6), (b)(7)(c) Fort Collins, Colorado 80526, and office phone number is (b)(6), (b)(7)(c) I can also be reached by cell at (b)(6), (b)(7)(c) and/or by email at (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) aphs.usda.gov.
2. As an investigator, I am responsible for conducting investigations related APHIS programs and regulations. Part of my duties as an investigator is to conduct interviews, take affidavits, collect physical and documentary evidence, and create investigative reports.
3. During the month of June 2013, I participate in an investigation pertaining to the possible detection of genetically engineered (GE) glyphosate-resistant wheat in Oregon (OR130018-BR). My participation involved interviewing wheat crop growers in Oregon, Washington, and Idaho about their crops and growing practices. After receiving an initial briefing and work assignments, I conducted some internet searches in order to obtain better understanding about farming practices in the Northwest. I also conducted some searches on-line in order to obtain some background information pertaining to the possible subject (Monsanto) and the affected wheat grower (last name known to me as (b)(6), (b)(7)(c)) involved with the case.
4. Using the Google search engine, I conducted searches using the words (b)(6), (b)(7)(c) (b)(6), (b)(7)(c) The results of the searches produced several related websites containing twitter postings, articles, and Facebook accounts, which contained the last name "(b)(6), (b)(7)(c)" and the company name "Monsanto." Some of the twitter postings involved an individual named (b)(6), (b)(7)(c), who tweeted and shared an article and video titled (b)(6), (b)(7)(c) was not able view the video or the twitter postings. Another individual I linked to articles involving Monsanto is (b)(6), (b)(7)(c) Some of the articles were titled (b)(6), (b)(7)(c)

(b)(6), (b)(7)(C) [REDACTED] I

don't know how this individual was exactly involved with these articles. It appears she might have just been responsible for the article's images. I also observed a Facebook account that is connected to (b)(6), (b)(7) that was linked to a posting called (b)(6), (b)(7)(C)

[REDACTED] However, I was not able to view the posting.

5. I don't know if any of the individuals listed above are related to the affected grower or if they even know him. I did not spend much time researching the topic further. Many of the websites still exist on-line and are accessible.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 30, 2013.
